

To Organize a Company.
E. A. Plumb of Green Bay has been in the city during the past week for the purpose of organizing a company to manufacture a feed cutter of which he is the inventor. The machine has been publicly demonstrated and notwithstanding the fact that the conditions were anything but favorable, the machine seemed to make a favorable impression on those who saw it. The Commercial Club has been interested in the matter and some meetings have been held which were attended by a number of our citizens who are interested in such matters, and the probability is that a company will be organized for the manufacture of the machines.

BIRTHS.
A daughter to Mr. and Mrs. Chester Roberts.
A son to Mr. and Mrs. Jake Grain.

New Restaurant Opens.
The new Mandarin Cafe, a Chinese restaurant, was opened in the Ginsburg building on the corner of Second and Vine streets on Saturday evening. Besides doing a general restaurant business they will serve chop suey and other Chinese dishes. While Grand Rapids has never proven a very strong restaurant town it may be that the new place, being something out of the ordinary will prove a success.

H. H. Manson, of Wausau, collector of internal revenue for the western Wisconsin district is dangerously ill at his home with erysipelas.
Mrs. Lizzie Baker and Miss Rose Helbock returned Monday from Philadelphia where they went Friday to attend the funeral of Earl Sullivan which occurred Saturday morning.

PARCEL POST BUSINESS CONSTANTLY INCREASING
At the local post office during the first part of April a count was kept of the number of packages handled in the parcel post department, and the figures show that more than 4,000 packages passed through the office during the fifteen days.
This would indicate that the people fully appreciate the value of the facilities that have been offered them in this branch of the mail service.

Bus Line Sold.
Albert Waldfoth, the genial proprietor of the Hotel Dixon Bus Line the past five years has sold out to Henry B. Oleson of Amherst. Mr. Oleson recently sold his farm and took possession of the business on Tuesday.

WORK AT SOUTH SIDE DAM
The work of rebuilding the dam at the south side will be carried forward as soon as it is possible to start the work again, the high stage of water at the present time making it impossible to work to advantage.
During last summer and fall a new guard lock was put in, and when the work is started again this part of the construction will be carried on as far as the island. When completed this part of the dam will contain thirteen steel gates, so that it will be possible to handle the water in a much more efficient manner than has been the case in the past.
The dam will also be raised somewhat, probably about three feet, so that the power will be increased, and it will also be possible to maintain a more steady flow, owing to the increased storage capacity.

GATHERING MATERIAL FOR ILLUSTRATED LECTURE
George Varney, county school superintendent, is gathering material for an illustrated lecture on "Rural Life in Wood County" and when completed will be given in every school in the county. He says:
"This lecture will be illustrated by slides showing the development of the county, and if any person in the county has a picture that he thinks would be of interest to his lecture I shall be glad to receive the same. Good cards will be taken of the pictures and they will be returned as soon as slides are made from them. Pictures of machinery, stock, buildings, farm work, logging operations, rural scenery, pioneer buildings and scenes, interior views of well equipped barns, school scenes and any other subjects of rural activities will be gladly received. If you have any object of interest on your farm that you think would help make this lecture entertaining, please let me know and I will see that a picture of it is taken. I have already received several very interesting views from farmers, and I appreciate fully this cooperative interest displayed in this work."—Marshfield Herald.

DESIGNATE MAY 2 AS SUFFRAGE DAY
The state official board of the Wisconsin Woman's Suffrage Association has designated May 2nd as the day to be celebrated as suffrage day by local organizations, and the officers of the branch associations have been asked to make the day of sufficient moment so that it will be noticed by everybody as something out of the ordinary. The purpose of a demonstration on that day is to impress congress with the strength of the suffrage movement throughout the United States.
Mass meetings, parades, pageants, suffrage balls and picnics are being arranged in the towns and cities in Wisconsin, and some associations are arranging for a membership drive to add to the membership list of local organizations.
It is not known whether our local ladies are arranging anything out of the ordinary for that day, but if they are they are keeping the matter rather quiet, maybe to spring it on us as a surprise. So if any of the male portion of this section should hear the band playing national airs on the morning of May 2d, and look out of the window and see his better half parading down the street amid gay bunting and flying banners, he need not feel at all put out about it. It will be just the girls having their little outing and incidentally impressing congress. It may mean a cold dinner of left over scraps and stale coffee, but any man should be able and willing to tolerate a slight inconvenience of this sort if the women folks succeed in impressing congress. If congress can be impressed in this manner it will be a revelation to mankind in general and should be applauded rather than talked against.
The second of May is a little early for outdoor celebrations in Wisconsin, as we have had snowstorms even later than that, but we will hope for the best.

GRAND RAPIDS WINS THE ORATORICAL CONTEST
In the oratorical and declamatory contest Friday evening between Grand Rapids, and Wausau, the Grand Rapids young people carried off the honors in both events, Harold Babcock being the winner in oratory, while Miss Margaret Ragan took first place in the declamatory events.
A good crowd turned out to hear the entertainment, which was first class from beginning to end, and those present were well pleased with the number submitted.
While Miss Ragan won first place in the declamatory contest, it was claimed by Wausau that she had taken up more time than was allowed, and consequently the first place should have gone to Wausau. Our local teachers admit that she did run over time, but also claim that it has not been customary in the past to hold them down to any specific time, so that there was no attention paid to this part of the matter. It is not known at the present time how the matter will be settled, although it is expected that the point will be conceded to Wausau, as the same people will represent the district later on.

ATTEMPTED MURDER IN STEVENS POINT
Carl Moore, a young man 27 years of age, attempted to murder his wife and mother-in-law at Stevens Point on Saturday, afterward shooting himself in the head with fatal results.
Moore had been at odds with his wife for some time past, also they had been married but a short time, and Mrs. Moore had started proceedings for divorce twice during the past year. It was apparent that the family trouble had driven Moore crazy and that his act was the result of his reason having given way.
Moore met his wife and her mother on the street and running up to them commenced to shoot, firing two shots at each one, all of which took effect. There were several witnesses to the attempted murder and they tried to catch the man, but he made his escape and running down the street a short distance, turned the revolver on himself, the bullet entering his head just above the right ear, causing instant death.
Moore was laboring under the impression that his trouble with his wife was caused by her folks, and it was evident from a letter that he left, which indicated that the deed was premeditated.
Mrs. Moore was shot in the right chest and right abdomen, but both of the wounds were only flesh wounds. Mrs. Geisler was shot through both limbs below the hip, and resulted in flesh wounds also, and it is expected that both of the women will recover.

Bargains for May

Cohen Bros.' Dept. Store

4 Days From May 1st to May 6th 4 Days

Dry Goods

Figured curtain scrim, 40 in. wide, worth 15c, sale **10c**

FABLE—DID THE ROOSTER WAKE THE SUN?

The fable runs that a certain rooster became so proud and bigoted he finally conceived the idea his crowing aroused the sun and therefore his crowing run the universe.

When the little red hen held the rooster's head under her wing the sun came up just the same. Thereupon she cried, see! see! rooster! the sun is up! We would like to suggest that the fact that both sides to a question have stated some of their views, does not settle the question, and we are of the opinion that any side of any question that must be argued in epithets is mighty weak.

If some of these fellows want us to put voting confidence in their highway "gas," we may say for their benefit, it can be done in a more manly, quiet, genteel, educated manner, than by calling "fools and knaves." Moreover, many minds—many thoughts and we honestly believe that in a democratic country, all arguments have a right to a hearing and not to bull-dozing of the alley gang and street type. A plain honest statement of facts will out-weigh all the epithets a man can call from his first liped word, till the arch tumbler gets him.

LOE B. MARGREY.

Paid a Heavy Fine.
Russell Gregory, the Stevens Point ball player, who is well known in this city paid a fine of \$22.25 in circuit court at Stevens Point last week. On December 12th Gregory made a vicious assault upon George Buchan and was arrested on the charge of assault with intent to do great bodily harm. Upon being arrested he entered a plea of not guilty, but later the charge was changed to one of assault and battery. From what we were able to learn of the matter Gregory got off very easy.

R. A. Netzel has resigned his position at the plant of the E. W. Lumber Co.

Notice to Bidders for Laying Water Main and Sewer Pipe on Grand Avenue.

[April 30-May 14.]
NOTICE IS HEREBY GIVEN, That the Board of Public Works of Grand Rapids, Wisconsin, are ready to receive sealed bids for the furnishing of all labor and services, and all materials, including, rock, pipe, cement, water pipe and water pipe, which is to be furnished by the city on the street, necessary to complete and construct a twenty four (24) inch sewer on Grand Avenue, between Seventeenth Avenue and Nineteenth Avenue, a distance of approximately six hundred sixty (660) feet; also a thirty (30) inch sewer on said Grand Avenue between Seventh Avenue and Thirteenth Avenue, a distance of approximately one thousand three hundred and twenty (1320) feet, each of said sewers, when laid, to connect with the Seventeenth Avenue sewer where the same intersects Grand Avenue; also a water main together with a hydrant, hydrant connections, to be laid in the same ditch with said sewer pipe between Nineteenth Avenue and Thirteenth Avenue, a distance of approximately one thousand three hundred eighty (1380) feet, all of which work to be done by the city. The plans and specifications for the same, which are now on file in the office of the City Engineer in the Library Building, in said City of Grand Rapids. Sealed bids will be received by the Board of Public Works up to, and including the 30th day of May, A. D. 1914 at 10 o'clock in the forenoon. All bids shall be enclosed in an envelope securely sealed and endorsed as follows: "Proposals for furnishing materials, labor, etc. for sewer and water mains on Grand Avenue," and the name of the bidder, and addressed and delivered to M. G. Gordon, City Clerk, Grand Rapids, Wisconsin, any time prior to the 30th day of May, A. D. 1914, at 10 o'clock in the forenoon. A certified check of ten (10) per cent of the amount of the bid shall be enclosed with each proposal, the said check to be made payable to the order of M. G. Gordon, City Clerk of the City of Grand Rapids, Wisconsin, as evidence of the good faith of the bidder. If bid is not accepted, check will be returned. A bond will be required of the successful bidder in an amount equal to the amount of the proposal. A contract for the work will be drawn, without expense to the bidder, by the City Attorney, and will provide, in substance that the bidder must furnish all materials, tools, implements, except sewer pipe and water pipe, which will be furnished by the City on the street and all the labor and services necessary to do all of said work strictly according to the plans and specifications herein before referred to, and to the satisfaction of the City Engineer of said City. Payments will be made on the estimates of the City Engineer, and will be made, up to and including the 30th day of May, A. D. 1914, at 10 o'clock in the forenoon, to time, up to eighty (80) per cent of the amount of material furnished and labor and services performed at the time of estimate until work is finally completed and accepted by the City Engineer, when the balance will be paid. The City reserves the right to reject all and any bids and the right to buy the sewer pipe and water pipe. Dated this 26th day of April A. D. 1914.

J. A. COHEN, Mayor.
CHRIS GETZLAFF,
J. J. JEFFERY,
F. W. CALIGINS,
JOHN BARNBERG, Aldermen.
Board of Public Works.

FOR SALE—If taken within the next thirty days my lot facing an First Ave., north of the Will Nash home. This is one of the choicest building lots in the city and has a beautiful view of the river. A. B. Sutor, Tribune office.

Old Man Killed By Accident.
Thomas Kirby, an old resident of this county and who had been making his home at St. Michael's hospital since October 22, last, died at 4 o'clock Wednesday afternoon from the effects of a fall only fifteen minutes previous. Mr. Kirby, who was in the eighty-third year of his age, had gone to the business district at 1 o'clock in the afternoon on receipt of a telephone call from his granddaughter, Mrs. F. R. Poust of Lanark, who wished to see him. As he was returning to the hospital he was seen by Sisters while he was some distance away, but it was not noticed that, instead of entering the front door of the building, as provided by the rules of the institution, he went around to the rear door, the use of which is expressly denied all except those connected with the hospital. A dull thud, as if someone had fallen, reached the ears of Sisters; they investigated and discovered Mr. Kirby, unconscious, lying in the bottom of the elevator shaft. There was a small cut on his head, from which blood flowed freely, but otherwise no external injuries were found. He was hastily removed to one of the rooms and doctors were summoned. However, the shock of the fall was too great for him, so advanced in age, to withstand, and he died within fifteen minutes.—Stevens Point Journal.

Seton—Foresters Manual.
Also copies of "Arbor" and "Bird Day" annual which contains good selections for programs.

Circumstances Alter Cases.
This is the time of the year, and especially during a wet spring such as we are now experiencing, when it does not seem such a crime to spend a few dollars in fixing up the country highways. During a fall and winter such as we have just passed thru, when the weather was exceptionally good for producing roads that were hard and smooth, it seemed as if there was very little need of all this expenditure for road building, and even if it had to go along without anything very expensive being done to the highways.

Just now it is different. While the roads were not as badly torn up with spring holes as is often the case when the frost goes out of the ground they were soft enough so that the rains of the past week or so have in many localities put them in a very bad condition, practically impassable for any kind of heavy traffic, and anybody who has to pass over them realizes that the money that it is proposed to spend in making macadam roads will not be such a bad investment after all.

Towns Not Liable.
Judge James O'Neill, in circuit court at Black River Falls, on Tuesday rendered a decision that will be read by automobile owners with great interest. Judge O'Neill in effect held that towns are under no statutory liability to owners of automobiles for injuries to their machines or passengers therein growing out of a failure to keep their roads in a safe condition for automobile traffic; that such towns have fulfilled their whole duty when they construct and maintain their road in a reasonably safe condition for ordinary traffic by cart or wagon. The decision was against C. E. Johnson of Chippewa Falls vs. the town of Alma, in Jackson county, for the burning of his automobile while passing over a road covered with loose straw over the entire road to a distance of from twelve to fifteen inches.

"Our Awful Aunt"
A comedy drama, Our Awful Aunt and a farce, Hans Von Smash, will be given in the Biron Park Hall Friday evening, May 1st, by the Home Talent Club of Biron.

Everybody is cordially invited to attend and to help make the entertainment a great success. The entertainment will begin at 8 o'clock. Admission: Adults 25c; Children 15c. Saenger's orchestra will furnish music between acts and also at the dance which will follow.

St. John's Church.
At 8 p. m. on Wednesday the 29th, Rt. Rev. Reginald H. Weller, Bishop of Fond du Lac, will administer the sacrament of confirmation and preach at St. John's church. All are cordially invited.

Saloon Property Sold.
Curtis Crotteau, who recently sold his saloon property at Biron, has purchased the H. H. Knoll place in the town of Sigel, just west of the city limits. The sale includes the saloon and buildings and land belonging to the place. Mr. Crotteau will take possession of the place at once.

Concert Well Attended.
Notwithstanding the bad weather that prevailed on Tuesday evening there was a large crowd out to attend the concert given at the Congregational church. The numbers were well received and appreciated by all.

Express Offices to Consolidate.
On May 1st the offices of the Wells-Fargo and American express offices in this city will be consolidated and after that time all the business of the city will be done from one office. The express business will then be in the small building now occupied by the Wells-Fargo company. One agent will be expected to handle the business and two drivers will be employed. It looks very much as if the two drivers would have their hands chock full of business under the new order of things, as there are sixteen trains to make every day beside the regular work of delivering and picking up packages. As the first train arrives shortly after five o'clock in the morning and the last one at nearly eleven at night, they will have a full day of it.

"Traffic" a Good Play.
One of the strongest dramas ever presented in this city was "The Traffic" which was produced at the Opera House last Thursday evening. It presented the seamy side of life all right, and while one would not care to see something of the kind every night, there is no question but what an occasional diet of this sort of thing will do much to open the eyes of the public to what is going on in the larger cities, and to what depths men will fall for the mere gain of a few dollars.
The company was certainly a good one that presented the play and it was handled in a masterly manner and there was a fair sized crowd out to see it.

Celebrate Anniversary.
The members of the Woman's Relief Corps gave a supper to the members of the G. A. R. Post on Thursday evening of last week, the occasion being the celebration of the twelfth anniversary of the organization of the Corps in this city. The evening was spent in speech making, music and kindred amusements, and a very pleasant time was the result.

Minstrels Tomorrow Night

The highschool boys will give their minstrel show at the opera house tomorrow night, and the boys promise us something out of the ordinary. If the show they gave before is any criterion of what this one will be, the public should see something out of the ordinary.

Tree Butchers.

At this time of the year the tree butcher appears upon the scene. As a rule he is paid by the day. The more he whacks out of the shade trees the more money he makes, and he is a practical person whose artistic temperament does not interfere with his making a living. He is capable, in a physical and moral sense, of destroying in 100 minutes the growth of 100 years, remarks the Louisville Courier-Journal. In many instances he knows no more about how trees should be trimmed than a pig knows about geometry. The mutilated trees he leaves bleeding in his wake silently attest his vandalism.

Persons who have shade trees should pause to think about how slowly bushes and trees grow, and how quickly they may be destroyed, and how short human life is, and how hard it is to acquire good shade trees, and how much, therefore, unutilized trees are worth in the way of added value when real estate is to be sold.

Often than not it is better to let the shade trees alone. If for any reason any cutting of branches is advisable, it is well to get an expert to do the work. As experts are rare and proclaimed experts numerous and unimportant it is very well to sit near by and look on when any cutting is done. By halting the vandal and sparing a branch you may save more than the worth of your time.

When the fever for rearrangement strikes you it is all right to swap the furniture about, putting the secretaries where the sofa was during the winter and reversing the order of the grandfather clock and the walnut, for there is nothing final in such arrangements. But when the trees are mutilated the damage is done, and nothing can be done to repair it.

Lutheran Ministers Meet.

The Wisconsin River Valley conference of Lutheran ministers was held in this city on April 21 and 22, at the east side Lutheran church. The chairman of the meeting was Rev. A. Ristow and the secretary Rev. M. Schliebe. Doctrinal discussions and questions of practice were discussed, closing with services on Wednesday evening, Rev. J. Pfeiffer of Merrill and Rev. M. Schliebe of Vesper preaching. Following is a list of those in attendance at the conference: Rev. J. Schleppeck, Merrill; Rev. M. M. Burger, Rev. G. Schroeder, Rev. H. Schmidt, Rev. W. Brown, Wausau; J. Pfeiffer, Merrill; Rev. A. Siv, Tarkenton; Rev. A. Ristow, Auburn; Rev. E. Richter, Stevens Point; Rev. E. Walther, Marathon City; Rev. A. Wagner, Junction City; Rev. K. Schmidt, Spencer; Rev. O. Haltsaeth, Wausau; Rev. A. Wahl, Pittsville; Rev. H. Torgler, Nekeosa; Rev. M. Schliebe, Vesper; Rev. W. Giesemann, Rev. Wm. Nommensen, Rev. R. Paulz, Grand Rapids.

Opening Our 1914 Campaign.
Now's the time to start the slaughter, Swat the fly.
Do your duty as you ought'er, Swat the fly.
For he carries the bacilli, And if he bites little Willie It may turn him stark and chilly, Swat the fly.
Oh, the summer is not pleasant, Swat the fly.
With this menace ever present, Swat the fly.
Oh, he isn't very dainty, And his food is rather taimy, He is full of microbes, an't he? Swat the fly.
You can swat 'em with a shoglie, Swat the fly.
Both married ones and single, Swat the fly.
You can use a patent swatter, Ora broomstick or a blotter, But swat 'em you have got ter, Swat the fly.

Saloon Property Sold.
Curtis Crotteau, who recently sold his saloon property at Biron, has purchased the H. H. Knoll place in the town of Sigel, just west of the city limits. The sale includes the saloon and buildings and land belonging to the place. Mr. Crotteau will take possession of the place at once.

St. John's Church.
At 8 p. m. on Wednesday the 29th, Rt. Rev. Reginald H. Weller, Bishop of Fond du Lac, will administer the sacrament of confirmation and preach at St. John's church. All are cordially invited.

Concert Well Attended.
Notwithstanding the bad weather that prevailed on Tuesday evening there was a large crowd out to attend the concert given at the Congregational church. The numbers were well received and appreciated by all.

DRUMB & SUTOR, Publishers.

To Organize a Company.

E. A. Plumb of Green Bay has been in the city during the past week for the purpose of organizing a company to manufacture a feed cutter of which he is the inventor. The machine has been publicly demonstrated and notwithstanding the fact that the conditions were anything but favorable, the machine seemed to make a favorable impression on those who saw it. The Commercial Club has been interested in the matter and some meetings have been held which were attended by a number of our citizens who are interested in such matters, and the probability is that a company will be organized for the manufacture of the machines.

BIRTHS.

A daughter to Mr. and Mrs. Chester Roberts.

A son to Mr. and Mrs. Jake Grain.

New Restaurant Opens.

The new Mandarin Cafe, a Chinese restaurant, was opened in the Ginsburg building on the corner of Second and Vine streets on Saturday evening. Besides doing a general restaurant business they will serve chop suey and other Chinese dishes. While Grand Rapids has never provided a very strong restaurant town it may be that the new place, being something out of the ordinary will prove a success.

H. H. Manson, of Wausau, collector of internal revenue for the western Wisconsin district is dangerously ill at his home with erysipelas.

Mrs. Lizzie Baker and Miss Rose Helbock returned Monday from Phillips where they went Friday to attend the funeral of Earl Sullivan which occurred Saturday morning.

PARCEL POST BUSINESS CONSTANTLY INCREASING.

At the local post office during the first part of April a count was kept of the number of packages handled in the parcel post department, and the figures show that more than 4,000 packages passed thru the office during the fifteen days.

This would indicate that the people fully appreciate the value of the facilities that have been offered them in this branch of the mail service.

Bus Line Sold.

Albert Waldfoegel, the genial proprietor of the Hotel Dixon Bus Line the past five years has sold out to Henry B. Olsson of Amherst. Mr. Olsson recently sold his farm and took possession of the business on Tuesday.

WORK AT SOUTH SIDE DAM

The work of rebuilding the dam at the south side will be carried forward as soon as it is possible to start the work again, the high stage of water at the present time making it impossible to work to advantage.

During last summer and fall a new guard lock was put in, and when the work is started again this part of the construction will be carried on as far as the island. When completed this part of the dam will contain thirteen steel gates, so that it will be possible to handle the water in a much more efficient manner than has been the case in the past.

The dam will also be raised some what, probably about three feet, so that the power will be increased, and it will also be possible to maintain a more steady flow, owing to the increased storage capacity.

GATHERING MATERIAL FOR ILLUSTRATED LECTURE

George Varney, county school superintendent, is gathering material for an illustrated lecture on "Rural Life in Wood County" and when completed will be given in every school in the county. He says:

"This lecture will be developed by slides showing the development of the county, and if any person in the county has a picture that he thinks would be of interest to his lecture I shall be glad to receive the same. Good care will be taken of the pictures and they will be returned as soon as slides are made from them. Pictures of machinery, stock, buildings, farm work, logging operations, rural scenery, pioneer buildings and scenes, interior views of well equipped barns, school scenes and any other subjects of rural activities, will be gladly received. If you have any of interest on your farm that you think would help make this lecture entertaining, please let me know and I will see that a picture of it is taken. I have already received several very interesting views from farmers, and I appreciate fully this cooperative interest displayed in this work."—Marshall Herald.

TABLE—DID THE ROOSTER WAKE THE SUN?

The fable runs that a certain rooster became so proud and bigoted he finally conceived the idea of crowing around the sun, and therefore his crowing roused the universe.

When the little red hen held the sun's head under her wing the sun came up just the same. Thereupon she cried, "see! see! rooster! the sun is up!" We would like to suggest that the fact that both the sun and the rooster are up at the same time, and are of the opinion that a question has arisen as to the question, and does not settle the question, and is of the opinion that any side of any question that must be argued in epigrams is mighty weak.

If some of these fellows want us to put voting confidence in their highway "gas," we may say for their benefit, it can be done in a more manly, quiet, genteel, educated manner, than by calling "fools and knaves."

Moreover, many minds—many thoughts—and we honestly believe that in a democratic country, all arguments have a right to a hearing and not to bull-dozing of the alley gang and street thug type. A plain honest statement of facts will out-weight all the epithets a man can call from his first lipped word, till the arch taunter gets him.

LEE B. MARGREY.

Paid a Heavy Fine.

Russell Gregory, the Stevens Point ball player, who is well known in this city paid a fine of \$72.25 in circuit court at Stevens Point last week. On December 12th Gregory made a vicious assault upon George Buchanan and was arrested on the charge of assault with intent to do great bodily harm. Upon being arraigned he entered a plea of not guilty, but later the charge was changed to one of assault and battery. From what we were able to learn of the matter Gregory got off very easy.

R. A. Neitzel has resigned his position at the plant of the B. W. El-Lis Lumber Co.

Notice of Bidders for Laying Water Main and Sewer Pipe on Grand Avenue.

[April 30-May 14.]

NOTICE IS HEREBY GIVEN, That the Board of Public Works of Grand Rapids, Wisconsin, is ready to receive sealed bids for the furnishing of all labor and services, and all materials, implements, tools, etc., except sewer pipe and water pipe on the street, necessary to complete and construct a twenty-four (24) inch sewer on Grand Avenue, between Seventeenth Avenue and Nineteenth Avenue, a distance of approximately Six hundred sixty (660) feet; also a Thirty (30) inch sewer on Grand Avenue, between Seventeenth Avenue and Nineteenth Avenue, a distance of approximately one thousand three hundred and twenty (1320) feet, each of said sewers, when laid, to connect with the Sewerage Avenue sewer pipe between Nineteenth Avenue and Nineteenth Avenue, a distance of approximately one thousand nine hundred eighty (1980) feet, all of said work to be done according to the plans and specifications for the same, which are now on file in the office of the City Engineer in the Library Building, in said City of Grand Rapids.

Sealed bids will be received by the Board of Public Works up to, and including the 25th day of May, A. D. 1914, at 10 o'clock in the forenoon. All bids shall be enclosed in an envelope securely sealed and endorsed as follows:

Proposals for furnishing materials, labor, etc., for sewer and water mains on Grand Avenue, and the name of the bidder and address of the bidder, and the name of the City of Grand Rapids, Wisconsin, as evidence of the good faith of the bidder. If bid is not accepted, the bidder will be required to return the successful bidder in an amount equal to the amount of the proposal.

A contract for the work will be drawn, without expense to the bidder, by the City Attorney, and will provide, in substance, that the bidder must furnish all materials, tools, implements, except sewer pipe and water pipe, which will be furnished by the City, and all the labor and services necessary to do all of said work strictly according to the plans and specifications hereinbefore referred to, and to the satisfaction of the City Engineer of said City.

Payments will be made on the estimates of the City Engineer from time to time, up to eighty (80) per cent of the amount of materials furnished and labor and services performed at the time of estimate until work is finally completed and accepted by the City Engineer, when the balance will be paid.

The City reserves the right to reject all and any bids and to buy the sewer pipe and water pipe at a lower price than the bid price.

Dated the 25th day of April A. D. 1914.

J. A. COHEN, Mayor.
CHRIS GEZLAF, City Engineer.
J. J. JEFFREY, City Engineer.
F. W. CALKINS, Alderman.
JOHN BAMBBERG, Alderman.
Board of Public Works.

FOR SALE—If taken within the next thirty days my lot facing an First Ave., north of the Will Nash home. This is one of the choicest building lots in the city and has a beautiful view of the river. A. B. Sutor, Tribune office.

ATTEMPTED MURDER IN STEVENS POINT

Carl Moore, a young man 27 years of age, attempted to murder his wife and mother-in-law at Stevens Point on Saturday last, with fatal results. Moore had been at odds with his wife for some time past, and they had been married but a short time, and Mrs. Moore had started proceedings for divorce twice during the past year. It was apparent that the father of the child was the cause of the trouble and that his act was a result of his reason having given way.

Moore met his wife and her mother on the street and running up to them commenced to shoot, firing two shots. There were several witnesses to the attempted murder and they tried to catch the man, but he made his escape and running down the street a short distance, he turned the revolver on himself, the bullet entering just above the right ear, causing his instant death.

Moore was laboring under the impression that his trouble with his wife was caused by her folks, and he was evident from a letter that he left, which indicated that the deed was premeditated.

Mrs. Moore was shot in the right chest and right arm, but both of the wounds were only flesh wounds. Mrs. Geisler was shot thru both limbs below the hip, and resulted in flesh wounds also, and it is expected that both of the women will recover.

Frank Winninger's Company.

—Frank Winninger, the hilarious funny Dutch comedian, this year has taken a step nearer approaching his ideal. His Varieties of Musical Comedies, which come to Duluth Theatre for four nights, with usual matinees, opening Sunday May 3, incorporate his original ideas coupled with those of his past years. He found the sentiment running toward light plays featuring music. His offering plays featuring music, and an innovation with popular-priced companies, sparkles in its newness. The company carries its own seven-piece orchestra and twenty-five people. Behind the Frank Winninger Varieties of Musical Comedies is a trail of pleasure, the fullness of the productions, the completeness of the settings, the elaborateness of the costumes, the merit of the individual performances have made the funny German comedian more popular than ever. And this popularity has been reflected in the box office receipts. Although the Winningers have played in many of the cities in other years, this season's promises to set a new high-water mark for the popular priced entertainment. Popular prices.

Local Physician Volunteers.

When the trouble with Mexico started Dr. C. C. Rowley of this city, volunteered his services to the United States, and in answer to same he has received the following communication:

War Department, Office of the Surgeon General, Washington, April 23, 1914.

Dr. Charles C. Rowley, Grand Rapids, Wisconsin.

Sir:—Your acknowledgment is hereby made of your application for active service in the event of war with Mexico. The patriotic motive which inspired this application is fully appreciated and you will be promptly notified of any intention to place you on active duty as an officer of the Medical Reserve Corps or to appoint you to any other position in the medical service. Very respectfully,
J. C. GORGAS,
Surgeon General, U. S. Army.

Express Offices to Consolidate.

On May 1st the offices of the Wells Fargo and American express offices in this city will be consolidated and after that time all the business of the city will be done with one office. The express business now occupied by the small Wells Fargo company. One agent of the Wells Fargo company will be expected to handle the business and two drivers will be employed. It looks very much as if the two drivers would have their hands chock full of business under the new order of things, as there are sixteen trains of packages to be delivered every day. As the first train arrives shortly after five o'clock in the morning and the last one at nearly eleven at night, they will have a full day of it.

"Traffic" a Good Play.

One of the strongest dramas ever presented in this city was "The Traffic" which was produced at the Opera House last Thursday evening. It presented the seamy side of life all right, and while one would not care to see something of the kind every night, there is no question but what an occasional diet of this sort of thing will do much to open the eyes of the public to what is going on in the larger cities, and to what depths men will fall for the mere gain of a few dollars.

The company was certainly a good one that presented the play, and it was handled in a masterly manner and there was a fair sized crowd out to see it.

Celebrate Anniversary.

The members of the Woman's Relief Corps gave a supper to the members of the G. A. R. Post on Thursday evening of last week, the occasion being the celebration of the twelfth anniversary of the organization of the Corps in this city. The evening was spent in speech making and music and kindred amusements, and a very pleasant time was the result.

Concert Well Attended.

Notwithstanding the bad weather that prevailed on Tuesday evening there was a large crowd out to attend the concert given at the Congregational church. The numbers were well received and appreciated by all.

Saloon Property Sold.

Curtis Crotteau, who recently sold his saloon property at Bron, has purchased the H. H. Knoll place in the town of Sigel, just west of the city limits. The sale includes the saloon and buildings and land belonging to the place. Mr. Crotteau will take possession of the place at once.

St. John's Church.

At 8 p. m. on Wednesday the 23rd, Rt. Rev. Reginald H. Weller, Bishop of Fond du Lac, will administer the sacrament of confirmation and preach at St. John's church. All are cordially invited.

"Our Awful Aunt"

A comedy drama, "Our Awful Aunt" and a farce, "Hans Von Smash," will be given in the Biron Park Hall Friday evening, May 1st, by the Home Talent Club of Biron.

Everybody is cordially invited to attend and to help make this entertainment a great success. The entertainment will begin at 8 o'clock. Admission: Adults 25c; Children 15c. Sacker's orchestra will furnish music between acts and also at the dance which will follow.

Subscribe for the Tribune.

DESIGNATE MAY 2 AS SUFFRAGE DAY

The state official board of the Wisconsin Woman's Suffrage Association has designated May 2nd as the day to be celebrated as suffrage day by local organizations, and the officers of the branch associations have been asked to make the day of sufficient moment so that it will be noticed by everybody as something out of the ordinary. The purpose of a demonstration on that day is to impress congress with the strength of the suffrage movement throughout the United States.

Mass meetings, parades, pageants, suffrage balls and picnics are being arranged in the towns and cities in Wisconsin, and some associations are arranging for a membership day to add to the membership list of local organizations.

It is not known whether our local ladies are arranging anything out of the ordinary for that day, but if they are they are keeping the matter rather quiet, maybe to spring it on us as a surprise. So if any of the male portion of this section should be on the band playing national airs on the morning of May 2d, and look out of the window and see his better half parading down the street amid gay bunting and flying banners, he need not feel at all put out about it. It will be just the girls having their little outing and incidentally doing a little good.

It may mean a pressing of coffee, and may mean a scale of coffee, but any man should be able and willing to tolerate a slight inconvenience of this sort if he can see men folks succeed in impressing congress. If congress can be impressed in this manner it will be a revelation in mankind in general and should be applauded rather than talked against. The second of May is a little early for outdoor celebrations in Wisconsin, as we have had snowstorms even later than that, but we will hope for the best.

Library Notes.

Books in the Public Library on Birds and Trees.

Chapman—Bird Life.

Clark—Birds of Lake Side and Prairie.

Rogers—Trees Every Child Should Know.

Sargent—Manual of Trees of North America.

Seton—Foresters Manual.

Also copies of "Arbor" and "Bird Day" annual which contains good selections for programs.

Circumstances Alter Cases.

This is the time of the year, and especially during a wet spring such as we are now experiencing, when it does not seem such a crime to spend a few dollars in fixing up the country highways. During a fall and winter such as we have just passed through, when the weather was exceptionally hard and smooth, it seemed as if there would be very little need of all this expenditure for road building, and that the country would be all right, even if it had to get along without anything very expensive being done to the highways.

Just now it is different. White roads were not as badly torn up with spring holes as is often the case when the frost goes out of the ground they were soft enough so that the rains of the past week or so have in many localities put them in a very bad condition, practically impassable for any kind of heavy traffic, and anybody who has to pass over them realizes that the money that it is proposed to spend in making macadam roads will not be such a bad investment after all.

Towns Not Liable.

Judge James O'Neill, in circuit court at Black River Falls, on Tuesday rendered a decision that will be read by automobile owners with great interest. Judge O'Neill in effect held that towns are under no statutory liability to owners of automobiles for injuries to their machines or passengers therein growing out of a failure to keep their roads in a safe condition for travel, but that such towns have fulfilled their whole duty when they construct and maintain their roads in a reasonably safe condition for ordinary traffic by Jackson county, for the burning of his automobile while passing over a road covered with loose straw over the entire road to a distance of from twelve to fifteen inches.

"Old Man Killed by Accident."

Thomas Kirby, an old resident of this county and who had been making his home at St. Michael's hospital this home at St. Michael's hospital since October 22, last, died at 4 o'clock Wednesday afternoon from the effects of a fall only fifteen minutes previous. Mr. Kirby, who was in the eighty-third year of his age, had gone to the business district at 1 o'clock in the afternoon on receipt of a telephone call from his granddaughter, Mrs. F. R. Koutst of Landark, who wished to see him. As he was returning to the hospital he was seen by Sisters while he was some distance away, but it was not noticed that, instead of entering the front door of the building, as provided by the rules of the institution, he went around to the rear door, the use of which is expressly denied all except those connected with the hospital. A full third, as it is known, they reached the rear door, where they found a Sister and discovered Mr. Kirby, unconscious, lying in the bottom of the elevator shaft. There was a small cut on his head, from which blood flowed freely, but otherwise he had no external injuries were found. He was hastily removed to one of the rooms and doctors were summoned. However, the shock of the fall was too great for him, so advanced in age, to withstand, and he died within five minutes.—Stevens Point Journal.

THE MISSING WORD CONTEST.

First prize was won by Miss Mary Dickson of Babcock, Wisconsin, consisting of \$1.00 in cash, and the money awaits her at the Tribune office.

Second prize of a year's subscription to the Tribune was won by Mrs. W. J. Pobart, of Mosinee, Wis.

The missing word was "as" in the second line of the E. L. Hayward ad. Try your luck again this week, as there will be two prizes the same as before.

A Horse Belonging to Atty. B. M. Yaughan was so seriously injured in a runaway on Monday that it had to be shot.

Notice to Bidders for Brick Pavement on Second Street.

NOTICE IS HEREBY GIVEN, That the Board of Public Works of Grand Rapids, Wisconsin, are ready to receive sealed bids for the furnishing of all materials, implements, tools etc., and all the labor and services necessary to complete and construct a brick pavement on Second street in the city of Grand Rapids, Wisconsin, between the First National Bank building at the corner of Oak and Second streets, to Baker street, including the Market Square, which will amount approximately to Sixty three hundred (6300) square yards strictly according to the plans and specifications for the same which are now on file in the office of the city engineer in the Library building in said city of Grand Rapids.

Sealed bids will be received by the Board of Public Works up to and including the 25th day of May, A. D. 1914 at 10 o'clock in the forenoon.

All bids shall be enclosed in an envelope sealed and be endorsed as follows: "Proposals for furnishing labor, materials, etc., for paving Second street," and the name of the bidder, and be addressed and delivered to M. G. Gordon, city clerk, any time prior to the 25th day of May, A. D. 1914, at 10 o'clock in the forenoon.

A certified check for ten per cent of the amount of the bid shall be enclosed with each proposal, the said check to be made payable to the order of M. G. Gordon, city clerk of the city of Grand Rapids, Wisconsin, as evidence of the good faith of the bidder.

If the bid is not accepted, check will be returned.

A bond will be required of the successful bidder in an amount equal to the amount of the proposal.

A contract for the work will be drawn, without expense to the bidder, by the city attorney and will provide, in substance, that the bidder must furnish all materials, tools, implements, etc., and all the labor and services necessary to do all said work strictly according to the plans and specifications hereinbefore referred to, to the satisfaction of the city engineer of said city.

Payments will be made on the estimates of the city engineer from time to time up to eighty per cent of the amount of materials furnished and labor services performed at time of estimate until work is finally completed and accepted by the city engineer when the balance will be paid.

The city reserves the right to reject any and all bids.

Dated this 25th day of April A. D. 1914.

J. A. COHEN, Mayor,
CHRIS GUTZLAFF,
J. J. JEFFERY,
F. W. CALKINS,

All of our dinnerware patterns in open stock you can buy any amount. See our display before you buy your dishes. Our line is complete, our prices the lowest, our assortment the largest in this part of the state.

as London had suffered a year ago
because so little was done to attract.

to American tourists to London during the season, an effort was to be made to keep them longer during the forthcoming season, and this is the way it is.

What, with the closing of all places of interest owing to the growing danger of suffragette outrages and the demolishing of old buildings, there will be almost as hardly anything in London worth seeing by tourists.

Great indignation has been aroused by the news that the Old Ship Inn, which stands on the Mall, near Horse Guards, is to be destroyed.

This is one of the best-known landmarks on the famous course between Putney and Mortlake, but the licensing magistrates have ordered the extinction of the license on the ground of redundancy.

The original Old Ship was built on the site of the present building nearly 300 years ago. Part of the old inn was built in the form of a circle of a very fine portico of red brick. This is a subject of great interest to antiquarians, for it is one of the oldest examples of brickwork in the neighborhood.

During the latter half of the last century there jutted out from the frontage of the house the original hammermill pier, which was used for drying the "steepwaters" that piled up and down the river. A private terrace leads from the house to the water's edge, and from this a magnificent

can be obtained.

On a fine morning the outlook is charming. Old Chiswick church stands in the foreground, while in the distance are the hills of Richmond.

"If this building," said the landlord of the Old Ship, "is demolished, it will no doubt be replaced by a factory or some other eyesore. This is a very dangerous part of the river, and no fewer than 20 lives have been saved from my terrace during the last three

known you always. When I first met you your voice sounded strangely familiar."

"So did yours to me," he said, still smiling.

"I seen to need you," she continued smiling. "And, Ralph, I don't want to lose you any more. Does that sound selfish? You must at all ways be my friend. I am most unhappy."

"You will be most happy," he said, smiling.

"And you will marry me. Dear, you spoke of my voice. When I heard yours for the first time it thrilled me in its every tone. I seemed to have known it. I knew no rest until at last I saw you and knew you for what you are. Then I loved you."

"I must tell you," she said, in a whisper.

"I know," he said. "You first spoke to me over the telephone from 87 to Bourne street. You said: 'Tell Doctor Ersmit to come at once.' I had heard of you before, and later Ersmit told me more, but I did not want his justification. I do not want yours. I believe in you, and I love you. Look up. I want you to marry me."

She did not look up, but she stepped out a hand gropingly, and he took it between his. Then, in the darkness, their lips met.

FELL THIRTY FEET UNHARMED

Explorer's Escape From Death Might

because so little was done to attract American tourists to London during the season, an effort was to be made to keep them longer during the forthcoming season, and this is the way it is being done.

What, with the closing of all places of suffragette outrages and the demolishing of old buildings, there will soon be hardly anything to London worth seeing by tourists.

Great indignation has been aroused by the news that the Old Ship Laid, which stands on the Mall, near Hammersmith Bridge, is to be destroyed.

This is one of the best-known landmarks on the famous course between Putney and Mortlake, but the licensing magistrates have ordered the extinction of the license on the ground of redundancy.

The original Old Ship was built on the site of the present building nearly 300 years ago. Part of the old structure still remains, in the form of a very fine portico of red brick. This is a subject of great interest to antiquarians, for it is one of the oldest examples of brickwork in the neighborhood.

During the latter half of the last century there jutted out from the frontage of the house the original Hammersmith pier, which was served by the "penny steamboats" that plied up and down the river. A private terrace leads from the house to the wa-

On Mr. A. H. Savage Landor's return journey to the Tapajós river, after a desperate struggle to reach the rubber gatherers who live far in the Brazilian interior, he had, as he relates in "Across Unknown South America," a very curious experience.

"The forest near the Secondary river was at first overgrown with dense vegetation that gave us a good deal of work and extra exertion; but after that, when we got some distance from the water, the forest was fairly open, and the course for the fallen trees. We found troublesome ravines of great depth where streamlets had cut their way through.

"In going down one of those difficult ravines, I had an accident that might have been fatal. The ravine, the sides of which were almost vertical, was very narrow—only about ten meters across. We let ourselves down, holding on to a liana. When we reached the bottom, we found a tiny brook winding its way between great round boulders that left a space about a foot wide. I stepped out to the left to climb the other side, and I had got to a height of about thirty feet. In order to go up this steep incline, I had not one foot against a small tree, and I pulled myself up by a liana. Unluckily, the liana suddenly gave way. The weight of the load that I had on my shoulders made me lose my balance, so that my body described a complete semicircle. I dropped down head first from that height on the rocks below.

"Providence once more looked after

between two great rocks, against which my shoulders and the long bone came jammed, while my legs were wildly in air. I was forced so hard that I could not move. I could not possibly extricate myself. It was only when Benedicto and the new man came to my help and pulled me out from that we were able to resume our journey. I was much shaken and a good deal dead bruised, but otherwise none the worse for that unpleasant fall!"

YOUTH'S COMPANION.

Cause for Damages.

In Lippincott's Magazine appears the following story, which illustrates the dangers of too prompt obedience to orders. "Say, Tom," said Jackson, "did you know that Bill was going to sue the company for damages?" "No, you don't say!" was the answer. "Not

of Iron, and 'e' dropped it on 'his foot.' "I need a half-column filler," said the dainty blonde editress of the woman's page. "Oh, run some fashion notes under the heading 'What Our Girls Are Wearing,'" suggested the managing editor, crossly. "Er—yes," blushed the editress. "But it will fill only a couple of lines."—"Puck."

Luring the Women.
One of the men candidates in Chicago is adopting the afternoon tea idea in his campaign. His headquarters have a kitchen, and upon certain days women friends "pour" and other women come into the nicely fitted up reception rooms and drink the tea and eat the sandwiches made in the kitchen. He expects to keep this up until after the election.

"I like you to desert me a little now and then. Love is the divinest thing where the lover is honest." But Hardy can also say nice things, as when he assures women that the least of their lesser infirmities is love of admiration, and the fondness of jewelry need not make the higher life a failure.

They Are Limitless.
Truth and honesty set a limit to our efforts which impudence and hypocrisy easily overleap.—Hazlitt.

whistled the hymn tunes in the service of the Calvary Reformed church. With the soprano voices of the girls, the effect was startling.

IMMIGRATION INSPECTOR

Port of San Francisco Praises Peruna for personal benefit received.

San Francisco, January 6, 1914.

Mr. A. de la Torre, Jr., formerly U. S. Inspector of Immigration, Port of San Francisco, writes from "No. 1111 Powell St., San Francisco, Cal.": "I take great pleasure in recommending your great national cure, Peruna, as the best I ever used. I sincerely express my thanks to you for the health which I now enjoy. It has done me and a number of my friends good, and I can assure you that I shall take every opportunity to speak in favor of what I consider to be the best remedy for catarrh in existence to-day."

Are You Suffering From Auto-Intoxication?

The dictionary says that Auto-Intoxication is "poisoning of the state of being poisoned, from toxic substances produced within the body." This is a condition due to the stomach, bowels, kidneys, liver, or pores of the body failing to throw off the poisons. More than 50% of adults are suffering from this trouble. It is probably why you are suffering from nervousness, headaches, loss of appetite, lack of ambition, and many other symptoms produced by Auto-Intoxication. Your whole system needs stirring up.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

(In Tablet or Liquid Form) "Will remedy the trouble. It first aids the system to expel accumulated poisons. It acts as a tonic and finally enables the body to eliminate its own poisons without any outside aid. Obey Nature's warnings. Your dealer in medicines will supply you, or you may send for a package of tablets by mail. Address Dr. R. V. Pierce, Buffalo, N. Y."

PAPA MIGHT HAVE GUESSED FAT MAN FOR THE BARBER

No Doubt He Was Just as Badly Rattled as John Henry Some Two Score Years Ago.

John Henry was keeping company with Myrtle Marie, and when the latter returned from the office one evening he was timidly approached by his pretty daughter. "Papa," said the fair one, "did John Henry call on you this morning?" "Yes," answered the paternal one, "but I couldn't make out much of what he said." "Couldn't make out what he said?" returned Myrtle Marie, wondering. "What do you mean?" "As near as I could understand," explained papa, "he said he wanted to marry me; that you had enough money to support him, and that way I told him ways loved each other, so I told him to go home and write it out in plain English."

A CLERGYMAN'S TESTIMONY.

The Rev. Edmund Heslop of Wigan, Pa., suffered from Dropsy for a year. His limbs and feet were swollen and puffed. He had heart fluttering, was dizzy and exhausted at the least exertion. Hands and feet were cold and he had such a dragging sensation across the loins that it was difficult to move. After using six boxes of Kidney Pills the swelling disappeared and he felt himself again. He says he has been benefited and blessed by the use of Dodds Kidney Pills. Several months later he wrote: "I have not changed my faith in your remedy since the above statement was made."

Correspondence: Rev. E. Heslop about this wonderful remedy. Kidney Pills, 50c. per box at your dealer or Dodds Medicine Co., Buffalo, N. Y. Write for Household Hints, also music of National Anthem (English and German words) and recipes for dainty dishes. All sent free. Adv.

Looked Like a Steady Job. To be saved from the jaws of a shark by a Hawaiian duke might befall any young woman, but being saved twice in the same day is unique to Miss Addie Dunbar, according to that young woman's story on her arrival at San Francisco, recently from Hawaii. Duke Kahanamoku of Honolulu, a world champion swimmer, played the hero role. The first time he drove away, he helped her to shore. A few hours later, when surf riding, Miss Dunbar's boat capsized and she was struck on the head by the gunwale and made unconscious. Again Duke Kahanamoku swam to her rescue and landed her safely on the beach.

Cut Her Off From His Praying List. A boy in McPherson county had been "working on" his grandmother for some time to induce her to give him a bicycle. She had half promised him, but as the weeks went by and the bicycle the boy got impatient. One evening he was sitting on the porch and omitted his grandmother from the list of those on whom he asked a special blessing. His mother noted the omission and called his attention to it. "Why, Gerald, you forgot to pray for grandma." "Now I didn't, neither," said Gerald, "but grandma's got to come across 'fore she gets any more prayers outta me."—Kansas City Star.

Sweet Words. "I don't see why the sugar business should ever be under suspicion." "Why not?" "Because it is one of such refining tendencies."

Only Legally So. "The lawyer on the other side will probably give you a cross-examination." "I don't mind the examination, but why can't he be good-natured about it?"

Nature constructed a silly woman that she might puncture the wisdom of a wise man.

A man imagines he is a philanthropist every time he gives away a penny's worth of advice.

Smiles

Usually show up with Post Toasties.

And why not, when the famous "toasty" flavor begins operations!

There's a deal of skill required in cooking and toasting these thin bits of corn so that every one of the millions of crinkly flakes has the delicious Toasties taste that invites one to call for more.

Post Toasties come in sealed packages—fresh, crisp and appetizing—

Ready to eat with cream or good milk, and a sprinkling of sugar if you like.

CAN'T SHIRK WORK

CONGRESS IS NOT LIKELY TO ADJOURN AS EARLY AS HAD BEEN EXPECTED.

MR. WILSON IS INSISTENT

After the Senate Has Disposed of the Canal Tolls Exemption, the Rural Credit Bill Must Be Taken Up.

By GEORGE CLINTON. Washington, D. C., Jan. 6.—President Wilson, Representative Underwood, leader of the Democracy in the house of representatives; Representative Fitzgerald, chairman of the house committee on appropriations; and Senator Kern, leader of the party membership in the upper house, all have declared at an early time or another in congress. Since the first spoke on the subject, however, President Wilson has intimated to the newspaper correspondents assembled before him that there would be no curtailment of the legislative program so as to secure an early adjournment.

It has become evident that no attitude of the president that no matter about it, they are to be expected to enact anti-trust legislation and then to add rural credit accomplishment to the legislative list before adjournment must be given consideration. "It looked a while ago as if congress might get away by Jan. 1, but that was before it was known that there was to be such a strong fight on the question of the repeal of the tolls exemption provision of the Panama canal act. When the majority members of congress were talking about getting away they also seemed to have an idea that the president would not object that the rural credit matter should be considered before next December. Now the members generally are talking about July 15, while Washington observers of past situations very much like the present think August 1 would be nearer the mark.

Election in Fall May Hurry Them. Recently the senate has become more quickly responsive to public opinion, the direct result of the people. This is one of the things which makes it seem to some people that congress may get away earlier than the old time observers believe will be the case. Senators, like the representatives, hereafter will be elected by popular vote and this may mean more rapid action on the part of the senate. The way of securing a quick action by the majority of senators on measures which the president has given his sanction.

It is held by some that adjournment may not be put off to a late date because there have been intimations that if the senate should show signs of a desire to be lagged in the work of the representatives it depended upon for the upper house men that this is election year and that while only one-third of the senators are affected, the entire membership of the house has much at stake. This it is thought may result in accelerated action.

The deep interest in the repeal bill and the intense always present in such measures may have caused it to be lost of the rural credit proposition. At any rate it may be that Washington has lost its sight while the great country districts have not done so. President Wilson has terminated that rural credit legislation shall be enacted at the present session.

Flood Control Fight Due. Recently in a communication from President Edmund T. Perkins of the National Drainage congress, he said that at the next session President Wilson would control the appropriation of money to control the flow of navigable rivers in the interest of interstate commerce.

Now it would seem that a thing like this is such an entirely proper economic thing that the president ought to be able to put his program through without difficulty. It is known in Washington that the president is not far past that when he takes up the subject of river and harbor expenditures, Mr. Wilson will find his party in congress and the other parties, too, for that matter, divided into two camps of opinion on the subject. One set of lawmakers favors one method, procedure and another set favors another method, and each set is bent on being aggressively in power.

About Equally Divided. Now unquestionably the president has his own views, or at any rate is going to study the subject as he has studied others in order to obtain information upon which he can base his recommendations to the lawmakers. When the president takes up the subject particularly of the Mississippi river improvement and of the prevention of floods which have devastated the Mississippi valley in recent years, he will find that he will have about as many advisers on one hand as on the other.

In the United States senate Joseph G. Randolph of Louisiana and Francis G. Newland of Nevada, both Democrats, disagree radically as to the governmental methods to be employed in controlling floods and in regulating navigable streams for commercial purposes. Each man is a thinker on the subject and each one is convinced that he is right. They have had sharp encounters before this and all men interested in the subject know that.

EAT ONLY SUN-KISSED FOODS

New School of Dietitians Favors Over All Others the Things That Grow Above Ground.

Some people say that to be happy one should eat only sun-kissed foods. By sun-kissed they mean all fruits and vegetables that grow above ground. The more these things are dependent upon the rays of the sun for perfection the better effect they will have upon the person who consumes them. Every man and every woman in daily life is sure to need the brightness of the sun in the stomach as well as the heart and home, declare the advocates of the sun-kissed fare, and there is no better way of getting it than through nourishing food. In the sun-kissed diet there is very little meat, though poultry is used frequently and eggs are favored—poultry because it is at its best when the fowls have been reared in the sun, shine and open air. Beef and lamb are considered more or less depressing. Potatoes are carefully shunned, de-

spite their great food value. They are grown in the dark earth and never see the sun. They are likely to make one dull. Instead of potatoes, rice is used freely, boiled, in croquettes or in puddings. Rice is full of nourishment—witness the Japanese nation. Its merit is attributed to the fact that it is grown in the sun and climate and depends entirely upon the kisses of the sun. The farther from the ground a vegetable grows the greater the good obtained from eating it. Fruits are used at all meals, as much as one can get; particularly oranges, for all through they are of the sun. Any fruit that grows exclusively in northern-climate is preferable to the southern-grown fruit, for the southern blossoms, the fruit are kissed with more strength and warmth by the sun.

Their Style. "Sniffing there are many deep and thoughtful to be read by the observer in his mind." "Then, one thing's sure," they're bound in calf."

Col. C. McD. Townsend of the United States engineer corps is chairman of the Mississippi river commission. He is opposed to Mr. Newland's plan, which, however, has received the endorsement of those conservationists who would have restoration the mainstay of the work of flood prevention. In writing on the subject, particularly as it relates to the Mississippi river Colonel Townsend says:

"While of the opinion that levees afford the only practicable method of controlling the floods of the Mississippi river, I desire to state that I am strongly in favor of both reforestation and reservoir construction, but limited to the purposes for which they are adapted just as I am in favor of a reinforced concrete for small reservoirs, though not considering it applicable to one spanning the Lower Mississippi river."

Siebert May Get Alaska Job. Lieut. Col. William L. Siebert, a member of the Isthmian Canal commission and builder of the Gatun locks, dam and spillway, has just been ordered to Washington to report for duty, his great work on the Isthmus having been completed. Army men, and civilians, too, for that matter, are wondering if Colonel Siebert is to be ordered to Alaska, to undertake the job of constructing the railroad which is to be built by the government of the United States.

Colonel Siebert already has made a great name for himself as an engineer in the Isthmian canal. It is perhaps a question whether or not he is to be ordered to Alaska, to undertake the job of constructing the railroad which is to be built by the government of the United States.

In gathering a number of pictures into a group some attention should be given to the subjects, and ridiculous combinations avoided. They need not all be landscapes, and they need

not all be figures, but in spirit they should not be incongruous. You will see exactly what I mean when I tell you that I once saw the picture of a little boy whom nobody loves and who is disconsolately considering going out in the garden to eat worms hanging directly under Hoffman's head of Christ.

KEEP EFFECT IN MIND

WALL DECORATION IS WORTHY OF MUCH THOUGHT.

On the Proper Selection and Hanging of Pictures Depends Much of the Beauty of the Room—How Best to Display Them.

Very few people know how to hang pictures. This may seem a sweeping statement, but one has only to notice the different walls round about—perhaps in one's own home—and the sweep will be verified.

In some rooms in which I have been I could be almost sure that the pictures had been hung by the participants in a donkey party, each picture being tacked at random by a sightless one, and by no means near the donkey!—here, there, everywhere, with no reference whatever to form, color, design, ornamentation, unity, but rather a proposition of so many pictures, so many bare walls, so many tacks, and in the end, with the result looking much like a picture bazaar.

Now, while in most cases a plea could be made for more regularity, too much regularity (the wrong kind) is just as bad; writes Ethel Davis Seal in the Philadelphia North American. I remember once noticing the peculiar effect produced by a large picture and a small one exactly beneath it, repeated seven or eight times in one room, with no hope of a change in sight to relieve the monotony. It was as trying on the nerves as a constant striking on one key on the piano. Besides, it cast reflection on the originality of the picture hanger.

KEEP EFFECT IN MIND

WALL DECORATION IS WORTHY OF MUCH THOUGHT.

On the Proper Selection and Hanging of Pictures Depends Much of the Beauty of the Room—How Best to Display Them.

Very few people know how to hang pictures. This may seem a sweeping statement, but one has only to notice the different walls round about—perhaps in one's own home—and the sweep will be verified.

In some rooms in which I have been I could be almost sure that the pictures had been hung by the participants in a donkey party, each picture being tacked at random by a sightless one, and by no means near the donkey!—here, there, everywhere, with no reference whatever to form, color, design, ornamentation, unity, but rather a proposition of so many pictures, so many bare walls, so many tacks, and in the end, with the result looking much like a picture bazaar.

Now, while in most cases a plea could be made for more regularity, too much regularity (the wrong kind) is just as bad; writes Ethel Davis Seal in the Philadelphia North American. I remember once noticing the peculiar effect produced by a large picture and a small one exactly beneath it, repeated seven or eight times in one room, with no hope of a change in sight to relieve the monotony. It was as trying on the nerves as a constant striking on one key on the piano. Besides, it cast reflection on the originality of the picture hanger.

Even worse is the overworked diagram of the picture hanger. While this is occasionally good the occasion is only the exception which proves the rule, and I might almost say that you should never put one picture a little to one side beneath another picture. And this seems to be the favorite plan of the wall of most amateurs. If you "know that you don't know," do not be afraid to hang just one picture of fair size in whatever space you have under consideration and condense all the little pictures you feel you must have on one wall. This brings me to one of the serious faults to be found in the wall of the picture hanger. Sometimes with the pictures themselves: they are too small and insignificant. This can, in some cases, be overcome by condensing them. With this idea in mind, glance at the arrangement of the pictures over the drawing of a davenport. Immediately one receives a pleasant impression caused by the harmony of design. The

employed on the bodice. The latter is worn over a fine white linen shirt, that again reveals its presence in a bouffant under-sleeves which emerge from the curtailed coat-sleeve. As shown, the coat is very loose and vague of outline; the fronts a mere incident, whereas the back takes a long point. And a fascinating finish would be imparted to the whole costume by lining this coat, and also the gowns, with some bright contrasting silk, which could be accentuated in the belt.

Dainty but Durable Bamboo. Novelties in bamboo furniture are among the desirable articles which a woman can pick up to help furnish her rooms. Aside from their being prettily decorated, they are strong and built to withstand a great deal of hard usage. But their chief attraction lies in their remarkable lightness which enables the home-maker to move them from one end of a house to the other without any strained lifting. This is due largely to the almost imperceptible weight of their hollow bamboo frames, which are covered with the finest straw matting.

An extremely neat desk for a girl's boudoir shows large pink peonies scattered here and there over the surface of the matting. Book racks, bureaus, and all sorts of odd-shaped tables are also decorated to match.

LETTING OUT BABY CLOTHES

Matter That Should Be Kept in Mind When the Moments Are First Planned and Made.

In making frocks for the baby the "letting out" that will inevitably be found necessary in the course of a few months should always be provided for. A double hem at the bottom is a good convenience to her own sewing. To make it, allow two or three inches more on the length of the garment than is needed for the ordinary wide hem.

Make this latter hem in the usual way, finishing it with a row of machine stitching; then turn it up on the under side until the frock is of the required length for immediate wearing and hem it on the machine with a rather large and loose stitch.

Then when the frock needs to be lengthened, there will be nothing to do but take out the temporary stitching, which is a very simple matter. A gleamer may be prepared for future lengthening by having one or more tucks run in them by hand, to be let out as occasion may require.

If placed about midway of the tuck on the upper or lower arm, these tucks will be rather ornamental than the more common ones.

NOVEL HATPINS.

There are pairs of short hatpins, with heads of jade, lapis-lazuli and colored quartz that are attractive, and the jet headed pins are coming in again with the general revival of all sorts of jet ornaments.

GENTLE MESSAGE THE BEST

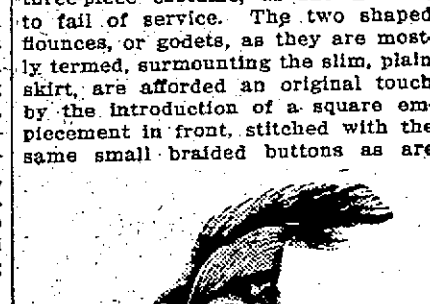

Lines That Come With Advancing Years Must Be Rubbed Out With the Utmost Care.

In massaging the wrinkles about the eyes, remember that these muscles are very sensitive and the lines should be ironed out as gently as though you were pressing out a rose leaf. Hold the skin at the corner of the eye taut between the first and second fingers, massaging gently with the second finger of the opposite hand. Carry the little laughing lines clear away. Care should be taken when massaging the face to not make new wrinkles while you are taking away the old ones. The lines about the mouth, which run over the cheek from the nose down to the chin, may be massaged deeply, but always gently, carrying the fingers in a rotary movement up beyond the ears, almost into the hair. Then start at the smallest end of the wrinkle and pinch gently,

FINE THREE-PIECE COSTUME

In Style and Material This Is One of the Most Serviceable That Has Been Designed.

At almost any time of the year it would be difficult for a semi-annual three-piece costume, as shown here, to fail of service. The two shaped douses, or gowns, as they are most properly termed, surrounding the slim, plain skirt, are afforded an original touch by the introduction of a square em- placement in front, stitched with the same small braided buttons as are

Regretted Lost Time. French convicts may earn large incomes. The following is a case in point: Pere la Capinette murdered a man in a jealous passion a quarter of a century ago, and was sent to New Caledonia. A commission was recently sent out to inspect the convict prison and inquire into the government lands that are allotted to convicts who are released for "good conduct. They found Pere la Capinette, white-haired, benevolent, and venerable with his seventy years, surrounded by his sons, whom he had brought from France. He showed the commissioners over the coffee plantation on which he was making his money. "If I am making \$100 a year now," he explained, "and then he added, with a sigh, "if only I had committed my murder 20 years earlier I should have been a millionaire now."

RED, ROUGH HANDS MADE SOFT AND WHITE

For red, rough, chapped and bleeding hands, dry, fissured, itching, burning palms, and painful finger-ends, with shapeless nails, a one-night Cuticura treatment works wonders. Directions: Soak the hands, on Cuticura Soap, Dry, anoint with Cuticura Ointment, and wear soft bandages or old, loose gloves during the night. These pure, sweet and gentle emollients preserve the hands, prevent redness, roughness and chapping, and impart in a single night that velvety softness and whiteness so much desired by women. For those whose occupations tend to injure the hands, Cuticura Soap and Cuticura Ointment are wonderful. Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston."—Adv.

Threw the Worthless Type Away. This story is told by the Kansas Editor: Mr. Brown, who looks after the "back office," saw a new student, who had been put to work learning the case, toss a type out the window. Watching him and seeing the student repeat the performance, Mr. Brown walked over and said: "See here, what are you doing tossing type out the window?" "Oh, that's all right," responded the cub. "They have no letters on 'em."

Important to Mothers. Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Watson*. In Use For Over 30 Years. Children Cry for *Fletcher's Castoria*.

An All-Around Calling. "Smith called Jones up." "Well?" "Then he called him down." "And what happened?" "Jones called Smith out."

MODELS WILL BE POPULAR

Spring Styles Promise Well in the Way of Smartness and Comfort for the Wearers.

The raglan sleeve and the set on sleeve are shown on most of the exclusive models for the spring, while the extended hips tend to exaggerate the "peg-top" effect that Swallowtail tail the late winter. The new good deal, too, comes in the way of the draped skirt with its bustle effect tending to make the tail of the coat stand out like that of a perky robin, while metallic embroideries and collars of filmy chiffon offer odd contrasting notes in many of the tailored costumes.

For the young girl the spring tailored suit is very smart and attractive, the straight skirts slightly full over the hips having plaited panels set in about the ankles, while loose three-quarter length coats with plaited skirts and wide belts just above the knees offer comfort and smartness.

Fashionable Coiffure.

The rage of the hour is to brush the whole of the hair back from the face and to dress it as high as possible on the crown of the head. A small lock the forehead is entirely uncovered. This lock may be in the middle or at one side, and it is kept in countenance by that other little lock which is worn in front of the ears, now left partially visible according to the behest of fashion. There is some exaggeration in the height of some of the coiffures. The hair is carried up over a light framework.

High Collars Worn.

High linen collars, the flare at the sides, are seen on many of the new frocks. The starched collar with the several models has been seen throughout the summer—the collar with the points that flare wide at each side of the throat.

French Veils.

French veils have a delicate shading from center to edge, and are made of double chiffon, hemstitched.

SIMPLY HAD TO HAVE HIM

Champion "Shooter-Up" Made Marsh Terms, But Patriotic Committee Accepted Them.

Windhurst and Bladderburst were rival towns in the gulch when the champion of the hair-trigger arrived in the vicinity. Each settlement in the vicinity of an attraction. The committee from Windhurst got to him first, and the chairman of the committee asked: "How much do you want to shoot up the town for one night?"

The champion's ultimatum was in these words: "I want to furnish the liquor and money; first raffle from all games; hundred per cent of movie pictures; and all royalties from my forthcoming book, 'Easy Marks I've Met.' Does it go?"

The committee allowed that it would put their posterity in the poorhouse, but decided that the galaxy of Bladderburst must be squelched. Thereupon the champion was given the right of way for a one-night upshoot of Windhurst, all rights being reserved for the champion.—The Sunday Magazine.

DOAN'S KIDNEY PILLS

400,000 Settlers a Year. Immigration figures show that the population of Canada increased during 1913 by the addition of 400,000 new settlers from the United States and Europe. Most of these have gone on farms in provinces of Manitoba, Saskatchewan and Alberta.

Lord William Percy, an English Nobleman says: "The possibilities and opportunities offered by the Canadian West are so infinitely greater than those which exist in England, that it seems almost to think that people should be imported from coming to the country where they can most easily and certainly improve their position."

New discoveries are being opened up. The world will make accessible a great number of homes in districts especially adapted to mixed farming and stock raising.

IMMIGRATION INSPECTOR

Port of San Francisco Praises Peruna for personal benefit received.

San Francisco, January 6, 1914.
Mr. A. de la Torre, Jr., formerly U. S. Inspector of Immigration, Port of San Francisco, writes from No. 1111 Powell St., San Francisco, Cal.: "I take great pleasure in recommending your great national catarrh cure, Peruna, as the best I ever used. I sincerely express my thanks to you for the health which I now enjoy. It has done me and a number of my friends good, and I am sure you that I shall take every opportunity to speak in favor of what I consider to be the best remedy for catarrh in existence to-day."

Are You Suffering From Auto-Intoxication?

The dictionary says that Auto-Intoxication is "poisoning, or the state of being poisoned, from toxic substances produced within the body." This is a condition due to the acids, bowels, kidneys, liver, or pores of the body failing to throw off the poisons. More than 50% of adults are suffering from this trouble. This is probably why you are suffering from nervousness, headaches, loss of appetite, lack of ambition, and many other symptoms produced by Auto-Intoxication. Your whole system needs stirring up.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

(In Tablet or Liquid Form)
will remedy the trouble. It first aids the system to expel accumulated poisons. It acts as a tonic and finally enables the body to eliminate its own poisons without any outside aid. Obey Nature's warnings. Your dealer in medicines will supply you, or you may send for a sample package of tablets by mail. Address Dr. R. V. Pierce, Buffalo, N. Y.

PAPA MIGHT HAVE GUESSED

No Doubt He Was Just as Badly Rattled as John Henry Some Two Score Years Ago.

John Henry was keeping company with Myrtle Marie, and when the father of the latter returned from the office one evening he was timidly approached by his pretty daughter. "Papa," said the fair one, "did John Henry call on you this morning?" "Yes," answered the paternal one, "but I couldn't make out much of what he said."

A CLERGYMAN'S TESTIMONY.

The Rev. Edmund Heslop, of Wigan, Pa., suffered from Dropsy for a year. His limbs and feet were swollen and puffed. He had heart fluttering, and was exhausted at the least exertion. Hands and feet were cold and he had such a dragging sensation across the joints that it was difficult to move. After using 5 boxes of DODDS Kidney Pills the swelling disappeared and he felt himself again. He says he has been benefited and blessed by the use of DODDS Kidney Pills. Several months later he wrote: "I have not changed my faith in your remedy since the above statement was authorized. Correspond with Rev. E. Heslop about this wonderful remedy. DODDS Kidney Pills, 50c. per box at your dealer or DODDS Medicine Co., Buffalo, N. Y. Write for Household Hints, also music of National Anthem (English and German words) and recipes for dainty dishes. All 3 sent free. Adv.

Looked Like a Steady Job. To be saved from the maw of a shark by a Hawaiian duke might befall any young woman, but being saved twice in the same day by the same duke is an experience unique to Miss Addie Dunbar, according to that young woman's story on her arrival at San Francisco, recently from Hawaii. Duke Kahanamoku of Honolulu, a world champion swimmer, played the hero role. The first time he drove away a shark that had attacked her, and helped her to shore. A few hours later, when surf riding, Miss Dunbar's boat capsized and she was struck on the head by the gale and made unconscious. Again Duke Kahanamoku swam to her rescue and landed her safely on the beach.

Smiles

Usually show up with Post Toasties. And why not, when the famous "toasty" flavor begins operations!

There's a deal of skill required in cooking and toasting these thin bits of corn so that every one of the millions of crinkly flakes has the delicious Toasties taste that invites one to call for more.

Post Toasties come in sealed packages—fresh, crisp and appetizing—Ready to eat with cream or good milk, and a sprinkling of sugar if you like.

Post Toasties

—sold by Grocers.

CAN'T SHIRK WORK

CONGRESS IS NOT LIKELY TO ADJOURN AS EARLY AS HAD BEEN EXPECTED.

MR. WILSON IS INSISTENT

After the Senate Has Disposed of the Canal Tolls Exemption, the Rural Credit Bill Must Be Taken Up.

By GEORGE CLINTON.
Washington. — President Wilson, Representative Underwood, leader of the Democracy in the house of representatives; Representative Fitzgerald, chairman of the house committee on appropriations; and Senator Kern, leader of the party membership in the upper house, all have declared at one time or another in favor of an early adjournment of congress. Since he first spoke on the subject, however, President Wilson has intimated to the newspaper correspondents assembled before him that there would be no curtailment of the legislative program so as to secure an early moving day.

It has become evident from the attitude of the president that no matter how the congressmen may feel about it, they are to be expected to enact anti-trust legislation and then to add rural credit accomplishment to the legislative list before adjournment must be given consideration.

It looked a while ago as if congress might get away by June 1, but that was before it was known that there would be such a strong fight on the question of the repeal of the tolls exemption provision of the Panama canal act. When the majority members of congress were talking about getting away they also seemed to have an idea that the president would not act that the rural credit matter should be considered before next December.

Now the members generally are talking about July 15, while Washington observers of past situations very much like the present think August 1 would be nearer the mark.

Election in Fall May Hurry Them.

Recently the senate has become more quickly responsive to public opinion, the direct touch of the people. This is one of the things which makes it seem to some people that congress may get away earlier than the old time observers believe will be the case. Senators, like the representatives, hereafter will be elected by popular vote and this may mean much in the way of securing fairly quick action by the majority senators on measures to which the president has given his sanction.

It is held by some that adjournment may not be put off to a late date because there have been intimations that if the senate should show signs of a desire to be lagged in its work the representatives can be depended upon to remind the upper house men that this is election year and that while only one-third of the senators are affected, the entire membership of the house has much at stake. This it thought may result in accelerated action.

Flood Control Fight Due.

Recently in a communication from President Edmund T. Forke of the National Drainage congress, he said that at the next session President Wilson would ask congress to appropriate money to control the floods and to regulate the flow of navigable rivers in the interest of interstate commerce.

Now it would seem that a thing like this is such an entirely proper economic thing that the president ought to be able to put his program through without difficulty, but it is known in Washington, from happenings present and not far past, that when he takes up the subject of river and harbor expenditures, Mr. Wilson will find his party in congress and the other parties, too, for that matter, divided into two camps of opinion on the subject. One set of lawmakers favors one method of procedure and another set favors another method, and each seems to be militantly aggressive in purpose.

About Equally Divided.

Now unquestionably the president has his own views, or at any rate is going to study the subject as he has studied others in order to obtain information upon which he can base his recommendations to the lawmakers. When the president takes up the subject, particularly of the Mississippi river improvement and of the prevention of floods which have devastated the Mississippi valley in recent years, he will find that he will have about as many advisers on one hand as on the other.

In the United States senate Joseph E. Ransdell of Louisiana and Francis G. Newlands of Nevada, both Democrats, disagree radically as to the governmental methods to be employed in controlling floods and in regulating navigable streams for commercial purposes. Each man is a thinker on the subject and each one is convinced that he is right. They have had sharp encounters before this and all men interested in the subject know that.

EAT ONLY SUN-KISSED FOODS

New School of Dietitians Favors Over All Others the Things That Grow Above Ground.

Some people say that to be happy one should eat only sun-kissed foods. By sun-kissed they mean all fruits and vegetables that grow above ground. The more these things are dependent upon the rays of the sun for perfection the better effect they will have upon the person who consumes them.

Every man and every woman in daily life is sure to need the brightness of the sun in the stomach as well as the heart and home, declare the advocates of the sun-kissed fare, and there is no better way of getting it than through nourishing food.

In the sun-kissed diet there is very little meat, though poultry is used frequently and eggs are favored—poultry because it is at its best when the fowls have been reared in the sunshine and open air. Beef and lamb are considered more or less depressing. Potatoes are carefully shunned, de-

KEEP EFFECT IN MIND

WALL DECORATION IS WORTHY OF MUCH THOUGHT.

On the Proper Selection and Hanging of Pictures Depends Much of the Beauty of the Room—How Best to Display Them.

Very few people know how to hang pictures. This may seem a sweeping statement, but one has only to notice the different walls around about—perhaps in one's own home—and the sweep will be verified. In some rooms in which I have been I could be almost sure the pictures had been hung by the participants in a donkey party, each picture being tagged at random by a sightless one, and by no means was the donkey here, there, everywhere, with no reference whatever to form, color, design, ornamentation, unity, but rather a proposition of so many pictures, so many bars walls, so many tacks, and up they go, with the result looking much so.

Now, while in most cases a plea could be made for more regularity, too much regularity (the wrong kind) is just as bad, writes Ethel Davis Seal in the Philadelphia North American. I remember once noticing the peculiar effect produced by a large picture and a small one exactly beneath it, repeated seven or eight times in one room, with no hope of a change in sight to relieve the monotony. It was as trying on the nerves as a constant striking on one key on the piano. Besides, it cast reflection on the originality of the picture hanger.

Even worse is the overworked diagonal placing of pictures. While this is occasionally good the occasion is only the exception which proves the rule, and I might almost say that you could never put one picture a little to one side beneath another picture. And this seems the favorite placing on the walls of most amateurs. If you "know that you don't know," do not be afraid to hang just one picture of fair size in whatever space you have under consideration and condense all the little pictures you feel you must have on one wall. This brings me to one of the serious faults to be found sometimes with the pictures themselves: they are too small and insignificant. This can, in some cases, be overcome by condensing them. With this idea in mind, glance at the arrangement of the pictures over the drawing of a davenport. Immediately one receives a pleasant impression caused by the harmony of design. This

Siebert May Get Alaska Job. Lieut. Col. William L. Siebert, a member of the isthmian canal commission and builder of the Gatun locks, dam and spillway, has just been ordered to Washington to report for duty, his great work on the isthmus having been completed. Army men, and civilians, too, for that matter, are wondering if Colonel Siebert is to be ordered to Alaska, there to undertake the job of constructing the railroad which is to be built by the government of the United States.

Colonel Siebert already has made a great name for himself as an engineer in the isthmus of Panama. It is perhaps a question whether or not he at least would care to undertake the work in the North, for the climatic conditions would be entirely different from those to which he has been subjected for the last seven years, and, moreover, it may be that he would prefer a home job for some time to come. However, if he is ordered to go to Alaska of course he will go without a word of demur, as would any other officer of the United States army, and there are many of them connected with the corps of engineers who unquestionably could be entrusted with the great work.

President Wilson and Secretary of War Garrison in a way have the same problem confronting them today that confronted President Roosevelt and Secretary of War Taft several years ago. Pressure is being brought to bear to have a civilian engineer appointed to the work in Alaska, just as pressure was brought to bear on a previous administration to have civilians appointed to the work in Panama.

Chance for Fame or Failure.

The Panama canal virtually having been built by army engineers, and built so successfully, it would seem that the natural inclination would be to give the next big job into the hands of the soldiers. The man who is appointed as chief engineer of this government work in Alaska will have an opportunity to make a great name for himself, or, as is possible, he may not be able to achieve the great name, failure coming from no fault of his own. If, however, he shall give the men in charge enough money to put the work and he has as free a hand as was given to the workers in Panama the chief engineer will succeed or fail according to his own merits.

If congress delays in parceling out the \$35,000,000 appropriated for the Alaska work, dribbling the supplies out at long intervals, the road construction will lag and the head man of the work probably will be blamed for something which is no fault of his if the lawmakers show that they want the thing done and vote the money free-handedly, the proper man in the proper place will complete the commanding piece of work and will get more credit to that which has come to the engineers who constructed the great isthmian waterway.

The Result.

"Did you see how the tango has got into the silk trade?" "That so? Now we'll have even the silkworms doing the proper wriggle."

GENTLE MESSAGE THE BEST

Lines That Come With Advancing Years Must Be Rubbed Out With the Utmost Care.

In massaging the wrinkles about the eyes, remember that these muscles are very sensitive and the lines should be ironed out as gently as though you were pressing out a rose leaf. Hold the skin at the corner of the eye taut between the first and second fingers, massaging gently with the second finger of the other hand the opposite way of the wrinkle and bringing the message well back into the temples, to carry the little laughing lines clear away. Care should be taken when using the face to not make new wrinkles while you are taking away the old ones. The lines about the mouth, which run over the cheek from the nose down to the chin, may be massaged deeply, but always gently, carrying the fingers in a rotary movement up beyond the ears, almost into the hair. Then start at the smallest end of the wrinkle and pinch gently,

KEEP EFFECT IN MIND

WALL DECORATION IS WORTHY OF MUCH THOUGHT.

On the Proper Selection and Hanging of Pictures Depends Much of the Beauty of the Room—How Best to Display Them.

Very few people know how to hang pictures. This may seem a sweeping statement, but one has only to notice the different walls around about—perhaps in one's own home—and the sweep will be verified. In some rooms in which I have been I could be almost sure the pictures had been hung by the participants in a donkey party, each picture being tagged at random by a sightless one, and by no means was the donkey here, there, everywhere, with no reference whatever to form, color, design, ornamentation, unity, but rather a proposition of so many pictures, so many bars walls, so many tacks, and up they go, with the result looking much so.

Now, while in most cases a plea could be made for more regularity, too much regularity (the wrong kind) is just as bad, writes Ethel Davis Seal in the Philadelphia North American. I remember once noticing the peculiar effect produced by a large picture and a small one exactly beneath it, repeated seven or eight times in one room, with no hope of a change in sight to relieve the monotony. It was as trying on the nerves as a constant striking on one key on the piano. Besides, it cast reflection on the originality of the picture hanger.

Three Months, \$3.50
Advertising Rates—For display matter the rate of 10 cents an inch is charged. The columns of the Tribune are 2 1/2 inches long, making a one column advertisement cost \$2.50 for one insertion. Additional insertions at the same rate. All local notices, cards of thanks, resolutions of respect, and all notices of entertainments, are an admission fee is charged which is charged at 5 cents per line.

Correspondents are requested to write on one side of the paper only, and to sign their names to communications. It does not matter if you write every week, but your name must appear, as it will not be published.

HISTORY REPEATING ITSELF.

Aesop, who gained some renown in the good old days long before LaFollette discovered Wisconsin, by having a fable on tap that was applicable to the case under discussion, used to tell one about a colony of frogs that lived peacefully in a pond day after day, with no care on their mind and nothing to disturb the lazy days as they passed, except the occasional bubble for grub. These frogs were like some human beings. They were having an ideal time, but they did not know it. They became discontented with their lot and petitioned Jupiter to send them a ruler. Now they did not need a ruler any more than a dog needs a basswood tail, but they kept at it until Jupiter threw a log in the pond, and told them that was the ruler they had been asking for.

The frogs were mightily pleased with their new ruler at first, and things run along for a time again in an ideal fashion. Then the frogs began to complain that their ruler never did any thing, and they became so contentions of him that they used to crawl out onto the log and back in the sun.

They began to complain to Jupiter again about the inactivity of their ruler, and they got so strong in their complaints that Jupiter became disgusted and sent them a stork for a ruler.

Mr. Stork was right on the job from morning till night, and all he did was to hunt for frogs, which he ate. It did not take the frogs long to again go to Jupiter with a complaint, for their numbers were rapidly diminishing, and it was apparent that there would soon be none of them left. But Jupiter had become disgusted with their complaining and he refused to listen to them, and the stork continued to gobble them down whenever he happened to feel the need of something to eat.

Haven't the people of Wisconsin created a government that it rapidly gobbling them up in the shape of high taxes, until the time will come when they will no longer be able to stand the pressure and must either move to some more favored locality or else be completely annihilated?

At the present time it is certainly a much governed state. The law makers create commissions, and the commissions create taxes, and so it goes, until the time will come, if the merry game continues, until there will be nothing but taxes and commissions in the state.

Hatched in the Dark.
(Continued)

As the Enterprise said at the start, there will be no extra session of the legislature. We did not know however, that the proposition was "hatched in the dark," as the governor now tells us. This ought not to be much of an objection to the governor, however, as the capital incubators have all been constructed along that line, and for many years most of the trickery and jockeying brought out there has been "hatched in the dark" and it has been by such "hatched-in-the-dark" products that the people of the state have been gulled and bamboozled. The governor, in his refusal to call a special session, says, among other things:

"It (the petition to call a special session) was hatched in the dark during the previous week by a few commissioners and heads of departments. They met in secret; they called clerks and state employees before them to obtain data with which to bolster up their proposal; but before broaching the subject to anyone they exacted a pledge that knowledge of what was afoot should be kept from me. Having drafted their petition they gave it out to the newspapers of the state the night before it was filed, to be released for publication as soon as it had been presented to me."

The governor, in the above explanation, gives the public a pretty good idea of the "dog eat dog" condition of things at the capital in Madison. An additional evidence for the necessity of cleaning the whole crowd out.

It would be perfectly fitting and tremendously profitable for the people of Wisconsin to mend their political differences in the coming campaign and forget party factions when it comes to electing a new set of men to govern the commonwealth of the Badger State. It matters little whether you are a stalwart, stand-patter, half-breed, progressive or bull mooser, but it does matter when the very vitals of the state's industries and the institution of the home is threatened by the terrible increase in taxes which have grown 400 per cent in the last 24 years, while the population has increased less than 15 per cent. It's too early to fasten onto the right men for the capital jobs, but every man's record for economy should be carefully looked into before he gets support from the people who make the government of the state possible by shelling out their hard earned money in the way of taxes.

Drag the Roads.
When the smiles of spring appear.
Drag the roads;
When the summertime is here,
Drag the roads;
When the corn is in the ear,
In the winter cold and drear,
Every season of the year,
Drag the roads.
When you're nothing else to do,
If but for an hour or two,
Drag the roads;
It will keep them good and new,
With a purpose firm and true.
Fall in line! It's up to you!
Drag the roads.

LEADERS, THE FARM NEED

Better Conditions Will Come When Men Start Working Together.

If you wish to keep our brightest boys and girls in the country, and thus—if nothing more—get the home grown labor without which we can not cultivate our farms profitably, we must develop a better social life in our country. They are really few things in the city that are worth while, that we can not have in the country if we want them.

We can have and will have, some time, better schools, with the teaching in the terms of life we are to live. We will have this as soon as we are willing to pay the price. On the same terms we can have better churches where the people follow the same line of business, have much the same outlook on life, the same wants and desires. We can have this social life, with vastly less danger of moral corruption; safer social life as well, with a broader view point than anything the city can furnish.

This same and soul satisfying social life can not be imposed on the country from the city, nor even from the farms. It must at the country as the skin fits the man. It must grow out of the country. For the farmer is a different sort of man from the townsman, and must always be and his social life must be an outgrowth of the best that is in him.

Ten per cent of the men in any community, and these the best men, can in ten years make that community do what they want it to, if they will only get together and do teamwork. If they are men of broad ideas and high ideals to whom a life worth while is much more than dollars or office, that community will be the one in which their children will delight to stay; but they must get together and work together. What the country needs just now is just that kind of leadership; and it must furnish its own leadership. "For a stranger they will not follow."

Cities have their commercial clubs and other voluntary organizations in which representative men of the community get together and work for the good of the community as a whole. They encourage new industries, work for good sidewalks and pavements and street lights, and in general stimulate a community spirit which will demand better conditions. The country should have similar clubs and they can be created if one or two influential men in each neighborhood will lead off.—Walter's Farmer.

RUDOLPH

Fr. John O'Reilly delivered an excellent farewell sermon, during mass last Sunday. Monday noon he left for Lead, S. D. to take up the work where he left it three months ago, when he came here expecting to stay here longer. He was sorry to be called away.

Leonard St. Denis is able to be out again after a week's illness with tonsillitis.

Louise Ohlolt went to the Rapids Wednesday noon to spend the week end with her parents.

Mesdames E. Plitz, L. Ohlolt, and sister Ruby Bates were among the shoppers in your city Wednesday.

Mr. and Mrs. Aug. Jacoby were shopping in your city Tuesday.

Mrs. Joe Marshall and little son departed Monday evening for Stevens Point where she will spend this week with Mrs. Harry Bowker.

Mr. Lipke of Wausau is the new depot agent to take the place of Joe Marshall who is going to farm it this year.

Mrs. John Meyers and daughter Priscilla left here on the Monday noon train for Milwaukee where they will make their future home.

Ira Marceau and Albert Peterson spent a couple days last week with his parents in Sigel.

Mrs. F. Whitman was a business caller here between the 7 and 9:30 o'clock train Thursday.

Mesdames M. Elliott and E. Crotteau were shopping in your city last Wednesday.

Mrs. John Wilkins and two children returned home Thursday after a three weeks' visit with her mother, Mrs. Spalenka in Stevens Point.

Mrs. Lee Aker departed Saturday night for Dakota where she will spend some time.

A. J. Kujawa left on the early Monday morning train for Milwaukee where he will enter the Sacred Heart Sanitarium for a much needed rest. He will be gone about a month. His many friends hope he will return much improved in health.

Wm. Coenen has opened up a dry goods and grocery store in the building recently vacated by Steinberg.

Mr. and Mrs. Edmond Livornash were shopping in your city Monday.

Mrs. K. C. Ratelle was shopping in your city Wednesday.

Mr. and Mrs. F. S. Root and Florence Haunschild were shopping in your city Wednesday.

Alice Morgan is working at the Hotel during house cleaning.

Dr. S. E. Cottrell of Grand Rapids was called to attend a sick colt of Leon Baumgarten's.

This Tuesday morning at 9 o'clock at the Catholic church occurred the marriage of Frank Kersten and Miss Pauline Krommenacker, both of this place. Rev. Fr. Van Sever officiating. Their many friends extend congratulations. There will be a free wedding dance in Marceau's Hall tomorrow (Wednesday) evening.

Miss Armetta Bada left on the early train Saturday morning for Mukwonago where she has gone to spend some time.

Mrs. O. and L. Akey were among the shoppers in your city Wednesday.

Mr. and Mrs. Joe Van de Loop mourn the death of their two-year-old baby boy who died about 11 o'clock Wednesday morning. The little one was laid at rest in the Catholic cemetery Saturday morning and the parents have the sympathy of the community.

Louise Ohlolt returned Sunday after spending a few days' in your city. She is again at work at Kujawa & Wilkins store after a couple weeks' illness.

Albin Kujawa of Stevens Point spent Friday and Saturday at home. F. Spalenka of Stevens Point spent Sunday with his sister Mrs. Kujawa.

Rev. Fr. Van Sever and Fr. John O'Reilly spent Thursday in your city visiting Fr. Reding.

The proprietors of the creamery and cheese factory that Frank Root is running were here on business last Tuesday.

BIRON.

Mrs. J. G. Demars has got back from Green Bay, after another operation. She is feeling a little better at this writing.

Miss Ellen Demars was in your city the past week to see her mother who just returned from Green Bay.

Mr. and Mrs. Joe Grandsaw were visiting our burg the past week at the home of A. L. Akey and other relatives and friends.

Mrs. Chet Atwood was in your city Saturday shopping.

Frankie Biron of Stevens Point was in our burg the past week visiting with his parents Mr. and Mrs. Francis Biron and other relatives and friends.

Abner Atwood is now staying in our burg once more. He moved his family into Mrs. J. G. Demars' house which the company bought.

The dance given by the Biron Park Club at the Biron Park Hall, was a grand success. Everybody reports having had a good old time. There being one hundred and fifty odd tickets sold. There were a number present from your city among them Mr. Geo. W. Mead, Mr. Geo. Berkey, Mr. I. P. Witter, Mr. Geo. K. Gibson. It was one of the best dances we've ever had here. Mr. Elmer Babcock gave the crowd a good old time jig which was greeted by all. The music was fine, there being four pieces and a good supper was served at half past ten and the fun lasted until 2 o'clock after which everybody went home well satisfied. Who will be the next to give us another good dance.

It looks as though it was fishing time by the way the river was lined with fishermen and poles.

Talk about a good pastime in our new club house, there is a house full all the time, some playing pool others playing cards and telling stories.

A. L. Akey was in your city Sunday and called on his old time friend C. O. Hassel.

Mr. and Mrs. Geo. Bates of your city drove up here the past week and spent the evening at the A. L. Akey home.

Andrew Golsanski got back from Milwaukee Thursday. He reports his brother as getting along nicely.

John Possley has moved his family in one of the company houses.

Mrs. Leslie Rayome of Rudolph was in our burg the past week visiting friends and relatives.

Mr. Gebels and his men are kept quite busy planting trees. The lawn is getting nice and green.

CARSON.

Joe Lambert is erecting a fine new house.

Mrs. Eric Haus of Milwaukee is visiting with friends and relatives here.

Oscar Olson, who is employed on the Soo line, is spending a few days at his home.

Charlie Alberts recently purchased a car load of stock from St. Paul, Minnesota.

Thomas Johnson left Wednesday for Hibbing, Minnesota, where he intends to spend the summer.

Miss Grace Justeson underwent a serious operation for appendicitis last Saturday at Grand Rapids.

Harold Brumback left Saturday morning for Fond du Lac, where he will be employed during the summer.

Ervin Zimmerman, who has been employed in Wausau for the past year, is home for a couple of months, after which he will again return to Wausau.

SIGEL

Albert Jacobson left on Wednesday for the northern part of the state where he will secure employment.

John Lund left last week for his home at Port Edwards after a visit with friends here.

Miss Alida Lindstrom is employed at the Geo. Coomb's home at Sherry.

Simeon Worland is home from Bessemer, Mich., where he has been spending a few days.

Mrs. John Sandwick and daughter Alice departed on Tuesday, for their home at Knife River, Minn., after a pleasant visit with relatives here.

They were accompanied back by Miss Esther Anderson, she having secured employment there.

Teddy Lindquist has gone to Rockford, Ill., where he will be employed. J. B. Atkins visited with friends at Roseland last week.

Eric Jacobson was a business caller at Rudolph on Tuesday.

Dr. Jackson of Rudolph was a caller at the Jacobson home on Monday.

Mrs. Martin Burgeson left on Tuesday for Duluth, where she will visit relatives.

Born, unto Mr. and Mrs. George Coomb's, a baby girl on Friday.

George Forslund departed last week for Minneapolis, Minn., where he has secured employment.

Mrs. F. Whitman and brother of your city spent Wednesday here.

Miss Ida Jacobson is on the sick list.

Ernest and Miss Anna Kronholm came home on Monday from Merrill, where they have been visiting relatives.

Mr. and Mrs. Victor Kronholm moved into their new home last week. There was a dance given at the Lundy home on Thursday night.

SOUTH ARPIN

Mrs. Ed. Scheueman, formerly Miss Della Hoffman and Lillian Scheueman left for Watertown, Monday where Mrs. Ed. Scheueman intends to make her home and Lillian intends to be employed there for a while.

Mrs. Christ Permaat is on the sick list.

Mr. Bill Windlyn called on his best girl at Alford Sunday.

Mr. Del Murray and son Ellis were seen on our streets Monday.

Mr. and Mrs. John Dorst spent Sunday at the Christ Permaat home.

Misses Clara Krause and Viola Berkholz left for Watertown Wednesday where they will visit for some time, after which they will leave for Oconomowoc.

A party was given at the F. Mueller home Thursday evening in honor of Mr. Mueller's birthday. About seventy guests were present. The evening was spent in dancing and playing cards.

Mr. Chas. Tomfohrde reshingled his house last week. Miss Elvina Windlyn was a Grand Rapids shopper Wednesday.

SARATOGA.

Farmers' Go-to-Church Sunday will be observed at the Saratoga Moravian church next Sunday. Services will be held at 3 p. m. and 7:30 p. m.

Rev. H. B. Johnson will preach a sermon in the afternoon and deliver a lecture in the evening on "Evangelistic work among the lumber camps of the Alleghany mountains." The choir of the Scandinavian Moravian church will sing at both services. Everybody should make this a big day by coming out to both services.

Mr. C. A. Dietsch is plastering his home.

The excavation for Walter Burmeister's new home has been dug.

Chas. Johnson sold his gray horse to his brother-in-law Wm. Anderson.

Miss Ida Peterson, sister of Mrs. James Knutson, was married to Clarence Miller of Kellner, Tuesday, April 28th.

The outlook for partridges, prairie chickens and mollies is fine.

SOUTH RUDOLPH

A comedy play entitled "A Kentucky Belle" which will be given at the school house in District No. 3, Saturday night, May 2nd, 1914 will be very interesting. The play is to be presented by 18 people of the town of Rudolph. There will be some good singing and clever dancing and talking as well as acting. This performance is to be free to everybody both old and young.

R. Rezin, Jr., has sold his little driver to Warner Bros. and has purchased a Ford car from Huntington & Lessig. Now we will take some pleasure trips, believe us.

Council Proceedings.

Council Chamber April 14th, 1914. Council met in special session Mayor Cohen presiding.

Present: Aldermen Bamberg, Ketchum, McCarthy, Edw. F. Calkins, McCarthy, E. T. Getzlaff, Plenske, Lukaskeski, Yeschko, Damon, Binneboese and Jeffrey.

Absent: Alderman Gaultke, Prehn, Witrock and Jomsky.

On motion the council resolved itself into a canvassing board for the purpose of canvassing the returns from the several election boards being the result of the municipal election held in the city on Tuesday, April 7th 1914, and declaring the following results.

The whole number of votes cast for mayor was 782 of which number Joseph A. Cohen received 771, A. D. Hill 1, F. L. Steib 3, Stovey Norton 2, Jess Wagner 1, Otto Roenius 3, C. A. Boorman 1, and J. J. Jeffrey 1.

Joseph A. Cohen having received the greater number of votes was declared elected mayor.

The whole number of votes cast for treasurer was 792 of which number Joseph P. Wheeler received 791 and Sam Charles 1.

Joseph P. Wheeler having received the greater number of votes was declared elected treasurer.

The whole number of votes cast for assessor was 896 of which number Clark Lyon received 885, Edw. F. McCarthy 29 and Henry S. Wagner 15.

Clark Lyon having received the greater number of votes was declared elected assessor.

The whole number of votes cast for Justice of the Peace was 874 of which number Edw. N. Bonaschke received 839 and Burton L. Brown 35.

Edw. N. Bonaschke having received the greater number of votes was declared elected Justice of the Peace.

The whole number of votes cast for alderman in the first ward was 91 of which number Edward C. Ketchum received 88 and Joseph F. Weinberg 3.

Edward C. Ketchum having received the greater number of votes was declared elected alderman in the first ward.

The whole number of votes cast for supervisor in the first ward was 79 of which number Lewis Schroeder received 78 and M. S. Moran 1.

Lewis Schroeder having received the greater number of votes was declared elected supervisor in the first ward.

The whole number of votes cast for alderman in the second ward was 159 of which number Fred M. Schnabel received 88 and Henry B. Weiland 73.

Fred M. Schnabel having received the greater number of votes was declared elected alderman in the second ward.

The whole number of votes cast for supervisor in the 2nd ward was 141 of which number Peter McCamley received 141 and was declared elected supervisor in the 2nd ward.

The whole number of votes cast for alderman in the 3rd ward was 145 of which number Frank W. Calkins received 85 and John L. Nash 60.

Frank W. Calkins having received the greater number of votes was declared elected alderman in the 3rd ward.

The whole number of votes cast for supervisor in the 3rd ward was 145 of which number Freeman G. Gilkey received 98 and Geo. L. Williams 47.

Freeman G. Gilkey having received the greater number of votes was declared elected supervisor in the 3rd ward.

The whole number of votes cast for alderman in the 4th ward was 107 of which number Geo. T. Rowland received 107 and was declared elected supervisor in the 4th ward.

The whole number of votes cast for alderman in the 5th ward was 106 of which number Albert Gilmauer received 44, Frank Wiseman 27 and Henry Yeschko 35.

Albert Gilmauer having received the greater number of votes was declared elected alderman in the 5th ward.

The whole number of votes cast for supervisor in the 5th ward was 92 of which number Andrew King received 74 and John Kubinski 18.

Andrew King having received the greater number of votes was declared elected supervisor in the 5th ward.

The whole number of votes cast for alderman in the 6th ward was 95 of which number Chas. F. W. Mueller received 57 and Herman F. Ristow 28.

Chas. F. W. Mueller having received the greater number of votes was declared elected alderman in the 6th ward.

The whole number of votes cast for supervisor in the 6th ward was 74 of which number Frank L. Rourke received 74 and was declared elected supervisor in the 6th ward.

The whole number of votes cast for alderman in the 7th ward was 102 of which number Fred H. Jackson received 70 and Adolph Bieman 32.

Fred H. Jackson having received the greater number of votes was declared elected alderman in the 7th ward.

The whole number of votes cast for supervisor in the 7th ward was 92 of which number Bernard R. Grogg received 62 and was declared elected supervisor in the 7th ward.

On motion council adjourned.

J. A. COHEN, Mayor.
D. B. PHILLO, Deputy Clerk.

FOR SALE

Farms and Unimproved Land.
—One farm consists of 401 acres with good buildings, 130 acres of which is under the plow, about 160 acres in timber, mostly hard maple, and the balance of land is pasture and brush land. All of the land is slightly rolling and there is no waste land on any part of the 401 acres.

The farm can be easily sub-divided into 2 or 3 separate farms. There is a cheese and butter factory within one mile from the house, and the house is three miles from Sherry station, on the Soo Railway.

Another farm near the above consists of 150 acres, 20 acres of which is cleared and the balance is hardwood timber land.

I also have a large amount of land which is known as "cut over" land and will be sold in large or small tracts to suit the purchaser. These lands are situated in Wood and Marathon counties.

Apply in person or write John Farish, 106 Third St. South, Grand Rapids, Wisconsin.

If you have anything to sell, try the Tribune want column. It does the business.

April 29, May 23
Notice of Final Account and to Determine Inheritance Tax—Prescribed by Tax Commission.

County Court—Wood County, Wisconsin—in Probate.

In the Matter of the Will of Christian Elbert, Deceased.

NOTICE IS HEREBY GIVEN, that at a court term of the county court to be held in and for said county at the court house in the city of Grand Rapids in said county on the 1st Tuesday (being the 2nd day) of June, A. D. 1914, at the opening of court on that day the following matter will be heard and considered:

The application of Fred Elbert, executor of the will of Christian Elbert, deceased, late of Town of Hatched, in said county, for the examination and allowance of his final account, and for assignment of the residue of the estate of said deceased to such persons as are by law entitled thereto; and for the determination and adjudication of the inheritance tax, if any, payable in said estate.

Dated April 25th, A. D. 1914.
By the Court:
W. J. CONWAY, County Judge.

Chas. E. Belter, Attorney for Executor.

April 15, April 22
Notice of Application for Letters of Administration.

State of Wisconsin, Wood County, in County Court—in Probate.

State of Wisconsin, Wood County—ss. State of Wisconsin, in and for said county, I, Richard Roberts, Clerk of the County Court, do hereby certify that on the 15th day of April, A. D. 1914, upon reading and filing the petition of Emma Sharkey, widow of Joseph Sharkey, and Charles Sharkey, a daughter of said deceased, stating that Joseph Sharkey of the county of Wood, died intestate, on or about the 15th day of April, 1914, and praying that Valeria Sharkey be appointed administratrix of the estate of said deceased.</

Can't Hold It

You can't hold all the money that comes into your hands but it is your duty to try and hold SOME OF IT.

Why not try making a fair allowance for expenditures and then deposit the balance in our Savings Department as a guarantee against future needs. Consider this regular deposit as a debt that must be paid from your income. We'll pay you compound interest on each deposit and you will soon be in the INDEPENDENT CLASS.

Estimates Promptly Furnished

It's natural for you to want the most and the best you can get for your money. But when you buy a bill of lumber without a string estimate from us, how do you know that you're getting the best bargain that is possible for you to get?

You simply can't tell a thing about it. You don't know whether you're losing money, or not.

The only safe way is to always let us make you an estimate on what you want, before buying elsewhere. We have complete stocks of everything in lumber and building material.

Ask Your Neighbor About his DE LAVAL

All the farmers to whom we have sold De Laval are boosters.

The De Laval satisfies, pleases and makes money for its more than a million and a half owners the world over.

If you expect to buy a separator it will be worth your while to find out what some of your neighbors who use De Laval think of their machines.

If the evidence of your neighbors who use and recommend the De Laval is not enough to convince you of De Laval superiority we will put one in on trial for you and you can try any other machine you want to alongside of it. Then you can see for yourself which machine you like the best.

We have an arrangement whereby you can make a partial payment at time of purchase, and pay the balance on such liberal terms that your De Laval will more than save its own cost while you are paying for it.

JOHNSON & HILL CO.
GRAND RAPIDS

WIS. LIVE STOCK NOTES

Thirty-two members of the Eau Claire County Guernsey Breeders' Association recently joined the Wisconsin Live Stock Breeders' Association. It was voted at the annual meeting of this organization that all members owning or using a pure bred sire pay to the secretary-treasurer, Harry H. Brown, the annual membership fee, fifty cents, required by the State Association. Several community breeders' associations have adopted this method of getting a large number of their breeders listed in the 1914 directory to be issued soon by the association.

Of a shipment of five hundred (500) cattle from Guernsey Island which will arrive in Athens, N. J., within a few days, more than one-half were purchased by breeders living in Iowa, Eau Claire and Fond du Lac counties in this state.

On March 28th, four hundred and ninety (490) Guernseys left the island for the United States. Of this number 255 came to Wisconsin, 200 going to Grant county, 50 to Fond du Lac County and 25 to Dunn county.

Improperly fitted collars, too large collars, collars too wide at the top, not washing collars and the horses' shoulders after a hard day's work are fruitful causes of shoulder sores. Have the collars fit snugly. Keep the harness fairly tight, wash the collar and the horse's shoulder in cold water every night. Before the rush of spring work begins fit the collar and harness. An ounce of prevention is worth a pound of cure.

Twenty-five Holstein cows, owned by 15 Wisconsin breeders were admitted to the roll of honor of the breed during the short period from Feb. 19th to Feb. 12th, 1914.

Since 1907, when Colantha 4th, Johanna, a Wisconsin Holstein cow produced 1260 pounds of butter in one year, 19 cows of this noted Dutch breed have produced satisfactory butter fat to make 1000 pounds, or more of butter.

Reports received at the office of the Wisconsin Live Stock Breeders' Association show that 39 Wisconsin Holsteins were admitted to the Advanced Register of that breed in the seven days elapsing from Feb. 19th to Feb. 25th. Twenty-eight of them were bred in Wisconsin and eleven were transferred to Wisconsin breeders who placed them under test. Four other cows bred in Wisconsin and tested by owners in other states were also recorded.

The average production for seven consecutive days, of the 265 animals accepted for the Holstein roll of honor during this period was 419.7 pounds of milk, testing 3.5 per cent butter fat and containing 14.859 pounds of butter fat, equal to 17.3 pounds of butter.

Pork growers often fail to appreciate the value of green and succulent feeds for growing pigs. Experimental station records and the experience of practical farmers prove that gains in weight are cheaper and more rapid when good, green, palatable, succulent forage is available. The crop best adapted for hog forage are alfalfa, rape, clover, rye and oats. Plans should be made to sow such crops for hog forage to supplement dry pastures in the summer. Provide the pig with green feeds, in their natural state, and his growth, health and pork making ability will be increased.

There is no better investment than that put into a service fee of a well made, pure bred stallion, of one of the recognized breeds. Some men breed to a grade stallion because he is nearer; some because the service fee is \$5.00 less; some because the grade has been raised on the place and no service fee is necessary. Such practices have kept the value of Wisconsin horses down to an average of \$135. The strength of blood possessed by a pure bred which enables him to impress his likeness upon his get is termed "prepotency." If he is a good individual, "well-made" this power of prepotency carries with it weight, quality conformation and soundness—four prime essentials of a draft horse.

Fires Due to Carelessness.

The greater part of the annual fire waste in the United States, amounting to nearly \$250,000,000 a year, is due to carelessness. Much of this is personal, for which property owners are directly responsible, and much is municipal, through the toleration by the authorities of dangerously inflammable constructions, laxity in the enforcement of building ordinances and the regulation of explosives and inflammables, failure to insist upon rubbish being cleaned up, etc. The average citizen should have impressed upon him his personal responsibility for his share of the preventable fire waste of the country, which is draining the national wealth. Every man can at least see that paper, old boxes and rubbish are not allowed to accumulate in dangerous places or out-of-the-way corners, and can keep an eye on his lighting and heating appliances. If these alone are attended to properly nearly half the fires could be prevented. In foreign countries the owner of property is made responsible for fires originating on his premises and can be held for damages done the property of his neighbors. American independence may not yet be ready for such a degree of regulation, but its necessity would be avoided if each citizen would feel his personal responsibility without waiting for a law to enforce it.

Reliable Ford Cars.

—They all see it now—that Henry Ford saw years ago—that the light, strong quality car sold at a low price, best meets the demands of all the people. Now they are all following where Henry Ford led.

Five hundred dollars is the new price for the Ford runabout; the touring car is five fifty; the town car seven fifty—all f. o. b. Detroit, complete with equipment. Get catalogue and particulars from Huntington & Lessig agents.

During the period from January 21st to February 5th, 1914—23 Wisconsin cows were admitted to the Advanced Registry of the Holstein-Friesian breed.

THE BABY'S BIRTHRIGHT

The birth rate of civilized countries is declining. This has occasioned great concern to statesmen throughout the world. To meet the situation, former President Roosevelt, you will recall, attempted to popularize large families. His remedy has not seemed to most students to be the best one. We do not need more babies, nearly so much as we need to save those we have. The baby's birthright is the right to live.

Havelock Ellis in "The Task of Social Hygiene," has shown that throughout the world a high birth rate is accompanied by a high infant death rate. On the other hand, when the birth rate declines the death rate declines also. Nature is prodigal. A fish lays millions of eggs for each spawn that is hatched. Of those hatched but an occasional infant fish reaches maturity.

The lower a creature is in the scale of evolution the greater is its number of offspring. To make certain of perpetuating the species Nature has made allowances for many that may be killed off. At the same time Nature provided mankind with thinking brains and the ability to overcome conditions which are good enough for fish.

The instinct to protect the life of one's young increases as the species rises in the scale of creation. To man alone is given an enduring affection for his offspring to strengthen his instinctive parental protection.

As there are gradations in the obligations of parenthood throughout the lower forms of animal life, so there are variations in the human species. As man rises in civilization and social position he rises to a larger sense of responsibility to and has a greater affection for his offspring. As civilizations rise in intelligence and importance the people show an increasing concern with the welfare and protection of their younger generations. This includes their neighbors' children with their own. Even childless citizens desire the continued existence of the species.

The season of greatest danger to the life and health of infants will soon be here. Individual parents should look to the safeguards of their infants' life and health. All patriotic citizens should look to the community or collective safeguards of the community's infants. No better index of the patriotism of a people can be observed than the provision that is made to protect the lives of coming citizens, upon whom rests the future of the nation.

Knowledge that impure milk causes the greatest slaughter of infants ought to be sufficient to insure provision of clean milk. The ability to secure clean milk for your baby and mine, at least if we live in cities, depends upon an equal ability of our neighbor to secure clean milk for his baby.

By the way, is the milk supply of your town good? Don't guess. Know! Guessing with the stake a man's life, is unworthy of superior human intelligence.

Horse is Expensive.

The ordinary draft horse, as a rule should be fed 16 quarts of oats a day, and with oats at 48.5 cents per bushel the cost of the oats per horse per day is 24 cents and \$7.20 per month of 30 days. The usual amount of hay eaten per horse is 20 pounds per day, and with hay at \$1.10 per 100, the cost per day is 22 cents and \$6.60 per month. One horse will use approximately 100 pounds of straw a week for bedding, and with good straw at \$1.25 per 100, the cost per horse per day is 14 cents and \$4.20 per month. A stable housing 20 horses will require the services of two hostlers, who are paid at the rate of \$2 per day for a seven-day week. This would bring the unit cost for hostlers per horse per day to 20 cents of \$6.00 per month. The average cost of shoeing a draft horse is 10 cents per day or \$3 per month. Like any other animals, horses sometimes become sick and the average charge per year for veterinary service, taken from bills of five consecutive years amounts to \$60, the average number of horses kept during this period still remaining at 20.

At this rate the unit cost per horse per day for such service is one cent or 25¢ per month. The unit charge per horse for the rent of its stall, together with the proportionate part of space used for feed, bedding, manure, harness and office, together with insurance thereon, amounts to 35¢ per month. At this rate the unit charge per horse per day is 17 cents. The water tax charged for the water actually used per horse for drinking purposes and for washing down the stalls amounts to \$2 per month for 20 horses or 10 cents per horse per month, or 0.3 cent per day. The depreciation of the horse is quite an item. An ordinary, physically perfect draft horse, when bought at the age of from 4 to 5 years, is worth in the neighborhood of \$200, depending on the condition of the market at the time of the purchase. Such a horse, when properly cared for, has an average useful life of not more than five years, although some such horses have been in actual service for from 10 to 15 years. Five years is a conservative estimate.

At this rate the depreciation is \$60 per year and the interest on the investment figured at 6 per cent would amount to \$3.60. Reducing these figures to daily and monthly units we have the depreciation per horse per day at 17 cents per day or 85¢ per month. The interest on the investment is 1 cent per horse per day and 30 cents per month. Then there is the harness. A set of harness for a team is worth in the neighborhood of 75 and has a life of not over five years. With this data the depreciation of the harness per horse per day is 2 cents and 63 cents per month, while the interest on the investment is 0.1 cent and 4 cents for the respective units. The above mentioned factors in the make-up of the final unit cost figure, cover all the items with the possible exception of superintendence, which, however, is not generally charged against the maintenance of the horse but to the particular job on which the horse may be working.—Springfield Republican.

—Try a Lucky Ram when you want a good smoke. Only 5 cents.

Reckless Irrigation Projects.

A prominent Wisconsin businessman who is very familiar with conditions surrounding irrigation submits the following:

It is a lamentable fact that the Interior Department through the Reclamation Bureau, is spending millions and millions of dollars on irrigation schemes where the basic water supply will be derived from impounded spring freshet water held by expensive dams in the mountains, when this plan of securing water is still in an experimental stage. It is argued with much force that it is not wise to make large, expensive developments under schemes of this kind, until it has been demonstrated by years of experience that the storage capacity of such reservoirs will remain permanent. The opponents of irrigation have always contended that the constant erosion from the steep mountain, and the cannon slides will continue as fast in the future as in the past, with the result that at the end of a few wet spring seasons the holding capacity of these reservoirs will be entirely destroyed, or so reduced as to make the cost of maintenance, when applied to the small area of land served prohibitive.

And now comes the New York Sun of the 16th inst. with the following: "The heavy rains in the Catskill Mountain watershed of the Ashokan reservoir have presented a problem to the Water Commission of New York City.

The Esopus and its tributary streams during the heavy waterfall of Saturday, Sunday and Monday, November 8, 9 and 10, poured at least half a million tons of gravel into the reservoir basin in size from a pebble to boulders weighing several hundred pounds.

"How to control the immense amount of gravel, boulders and silt which comes out of the mountain valley streams during heavy storms is the problem which confronts the Water Commission.

"There are people hereabout who predict that within ten years after the dam is closed a causeway of gravel almost to the surface of the water will be formed from the reservoir head during the Esopus channel to the dam itself.

"The problem which confronts the Water Commission now is gravel. The only way to prevent gravel coming into the great basin seems to be to build piers on all the streams feeding the Esopus and on the main stream to keep the gravel back in time of heavy water. Great millponds on the Esopus watershed have been known to fill up with gravel during one storm. It is feared that this will happen to the great dam in time."

If the erosion is doing such destruction in the old and thoroughly settled Catskill Mountains, where the rainfall is regular and almost never excessive, what will be the result in the new country of the west, where the moisture that falls is largely snow in the mountains, which runs off in a violent freshet every spring.

Brown on Individual Responsibility.

Norris Brown, former United States Senator from Nebraska, was one of the speakers at the annual meeting of the State Fire Prevention Association. He urged education of the public on the subject, and that the responsibility for the fire waste be brought home to the individual. Mr. Brown said:

The speaker has said that the annual loss by fire amounts to \$250,000,000 annually, or about \$2.50 per capita, while in Europe the loss is less than 25 cents per capita. These are remarkable figures. If we allow \$250,000,000 of our wealth to be burned the fault is our own. We cannot lay the blame on anyone else. It is due to either our own carelessness or to our own criminality. Every body knows that ninety-nine fires out of a hundred are, as a matter of fact, preventable. They are caused by the carelessness of someone or by an incendiary. Whichever the cause, it can and ought to be reduced. I observe in the business districts of our cities the shingle roof is prohibited. Why not in the residence portion? In other cities are match ordinances. Why not in all? If we would prevent this tremendous fire waste we ought to give some attention to the water supply for fire purposes. We ought to give some attention to the fire department, and the efficiency of its equipment.

In my judgment the greatest factor in reducing the fire hazard is the individual who buys the insurance policy. He ought to be held responsible in the sense that he should be held to account in some public way for the fire which assails his property. The government ought to ask him the reason and the cause of it. If this were done, more men would go to the furnace rooms, more men would have their chimneys examined before the furnace fire is started. In Great Britain the fire victim, of course, receives the sympathy of his neighbors just as he does in America, but at the same time he receives the invitation from the government to come to the headquarters and explain the fire, and heavy penalties are imposed if the fire was caused by his own carelessness.

Eased His Feelings.

Couldock's company were once barnstorming thru Virginia. It was at Petersburg, and the play was the "Chimney Corner." All thru the audience sat in distressing silence, neither laughing or shedding a tear, although "The Chimney Corner" abounds with humor and pathos, and the company then producing it was of great merit for those times. Couldock appeared to pay no attention to the apathy of his audience until just at the close of the performance. The concluding lines of the play are somewhat to this effect: "You, John, are happy, and so are you, Ellen; so am I, and so are we all. Let us hope that our friends, the public, share our happiness." But, to the surprise of everybody, Couldock fell into a towering passion when he reached these lines, and in thundering tones he said: "You, John, are happy, and so are you, Ellen; so am I, and so are we all, except the fools that have been sitting like stoutheaded bottles in front of the footlights tonight."—Argonaut.

—What in time is the matter with your feet, Jim? Even your dog tries to get away from you. If you love your dog just use a little of Barker's Antiseptic on your feet, and besides maybe make it possible for your family to stay in the same room with you. For sale by Joanson & Hill Co.

FARMERS ADVISED NOT TO

SELL EGGS FROM INCUBATORS

A number of poultry raisers, it seems, are putting on the market infertile eggs that have been tested in incubators from three days to a week. As soon as the breeder finds that the eggs will not hatch he takes them out and sends them to market along with his fresh spring eggs. After the eggs have been in the incubator for this period they are distinctly stale and rot very quickly if kept any length of time. Even these just taken from the incubator these infertile eggs are not fit for boiling or poaching, although they may be used for frying, and are good for cake or certain other baked foods. These eggs when they reach the market, however, are classified as low grade, No. 2.

The mixing of incubator eggs with the fresh spring eggs leads the egg packers, who get their principal cold-storage supply in the spring, to cut the price they pay the farmer, department investigators find. The spring consumption must be absolutely good, consumption must be absolutely good. Moreover, the egg packers in the spring do not candle eggs, but hold them three at a time in the hand and click them to discover any crack, and then judge their freshness by their fresh, powdery look on the shell. The mixture of infertile incubator eggs with fresh eggs interferes seriously with this clicking and forces the packer to candle the eggs. He then deducts this added expense from the price he offers to the producer. Eggs which have once been subjected to the heat of the incubator can not be stored, even though frozen.

The farmer who sells incubator eggs to the dealer, therefore, is very liable to injure his own market for fresh eggs. When dealers find a percentage of low-grade incubator or other eggs in their fresh spring egg supply, they lower the price for all eggs, so that they will be certain that they have covered themselves against losses from this cause. The department's specialists advise farmers to use any infertile eggs they may take from their incubators for home consumption and to send only fresh eggs to market.

A Matter For Investigation.

A rather amusing story is being told by a Japanese gentleman in connection with the late emperor of Japan.

As we know, the late emperor was regarded with the greatest veneration by his subjects, and it appears that this attitude of awful reverence was maintained also by his ministers in spite of the fact that affairs of state make it necessary for them to see him and converse with him very frequently.

One of these ministers, the Marquis Matsugata, used to experience agonies of nervousness every time he had an audience of his sovereign, and he was never able to say anything distinct in reply to him except the set phrase, "I shall have careful investigation made, your majesty."

This generally brought him safely through a short audience, but one day unfortunately the emperor condescended to discuss the marquis' more private affairs.

"How many children have you?" the emperor asked.

Back came the inevitable phrase, "I shall have careful investigation made, your majesty!"

The story loses nothing from the fact that the marquis had a very large family.

Name Your Farm.

Every farmer in Wood county should name his farm.

It lends dignity to the farmer's profession and establishes a reputation for each farm, peculiarly its own.

Use stationery with the name of the farm on it.

The business of farming demands well printed stationery as much as any other business. The satisfaction you will get from the use of printed stationery is worth more than the small sum it will cost.

To induce farmers to name their farms we have this Special Offer: The Grand Rapids Tribune will make this SPECIAL OFFER:

100 good quality white envelopes, No. 6 1/2, and 100 good white note heads, 6x9 1/2, to match above, with name of farm, name of proprietor and address printed on, for... \$1.75

250 each of the above for... \$2.50

500 each of the above for... \$3.80

Write copy plain and state if ruled or unruled paper is wanted.

Send 6 cents additional for each 100 noteheads and envelopes if job is to be sent by mail.

Send in your orders, or when in town come in and ask us about these prices.

What is a Tornado?

Just what is a tornado, and why? The Weather Bureau in Washington was asked for an explanation that would be readily understandable. This is it:

Fill a stationary wash bowl with water, pull out the plug—and you will have an illustration of a tornado. After a little of the water has run out you will see the contents of the bowl swirling about an airhole over the outlet of the basin. If you stop to think about it you will realize that the air pressure must be very strong in order to keep back the water. That is the principle involved in a tornado—or in a cyclone, for a cyclone is an intensified tornado.

A tornado is brought about in this way: Two layers, or strata, of air overlap. The hot air, which is near the ground, has a tendency to rise. The cold air, heavier than the hot air, has a tendency to fall. Thus it happens sometimes that the hot air breaks through the layer of cold air, precisely as the air breaks through the water in the basin when the plug is pulled. Through this vent the hot air rushes upward, and about this vent the cold air whirls downward, in the manner of the funnel-shaped cloud.

According to the weather man, tornadoes often reach a velocity of 250 miles an hour. But the damage to property is not alone by the force of the wind. A tornado might pass in front of a brick house, for example, without itself inflicting much damage. As it rushes by the building, however, it sucks away all of the air, creating a vacuum immediately next to the wall. Whereupon the air inside of the building forces out the front wall, because there is no counter pressure of air from the outside. It is what amounts to an interior explosion, with the important difference that practically nothing inside the house is damaged. This explains why you will see a picture of a house with the interior but slight, by disarranged, yet one of the walls blown entirely away.

Areas of "low" barometric pressure are the making of possible cyclones or tornadoes; for whenever there exists this condition there are warm or hot winds next to the surface of the ground, blowing from the southeast; there are also cold winds blowing toward the "low" center from the northwest. Originally these winds do not meet; but when they overlap there is always the possibility above described. It is a fact, however, that tornadoes invariably occur in the southeast portion of the "low" area of barometric pressure. But the Weather Bureau does not claim to forecast tornadoes.

—The Country Gentleman.

OUR MISSING WORD CONTEST

FIND THE MISSING WORDS AND RECEIVE THE PRIZE

Conditions of Contest:

In one or more ads on this page a word has been intentionally left out. Read the ads carefully and see if you can supply all the missing words. Write your answer plainly on a sheet of paper and sign your name and address to same, then put in a plain envelope and bring or send it to The Tribune Office. Only adults can enter their names in this contest. In writing your answer specify ads and the lines in the ads in which the words are missing, giving the correct words. These ads will run once per week for ten weeks in this paper and one dollar will be given for the nearest correct answer in each week's contest. The nearest correct answer each week will be entitled to one dollar. The second answer will be entitled to one year's subscription to the Tribune. All answers must be in The Tribune office before Monday of the following week. No answer received by telephone. A notice will be published in following issue stating what words were left out of the ads and who are entitled to the prizes.

Our New Line of 1914 Models of Baby Carriages, Pullman Sleepers and Collapsible Folding Go-Carts IS NOW IN

FOR BABY'S SAKE INVESTIGATE

Remember that the first and most important point to think about when you are selecting a baby carriage is what carriage is best for the baby's comfort and health. The next point to consider is: what carriage combines comfort and safety for the baby with style, durability and a moderate price? All our carriages possess these desirable features.

If you allow your baby to ride daily in a carriage with stiff springs he is bound to get a jolting and jarring that will not only make him cross and sick but may permanently injure or deform his soft growing bones and tender body—therefore it is of utmost importance to select a carriage with pliable, resilient springs.

For baby's health and comfort, as well as for your own convenience come in and see our line, you will find a style and price that exactly fits your taste and purse.

ADAPTABILITY

Is the Quality of Being Suitable.

Certain stones are more adapted to Memorial work than others, and furthermore, your monument should be of a design suited to your lot. We have made a special study of Monumental materials and memorial designs. In material the Granite from our own state, is the most durable, being harder than any other in the United States, and taking a higher polish and showing the best contrast between polished and hummered work. It is also the most substantial for the purpose, which counts for a great deal in work of this nature.

Question:

A. P. HIRZY, Jeweler
Vine Street,
Grand Rapids, Wis.

Dear Sir:
For a couple of years past I have been considering the purchase of a nice Diamond Ring but have been putting the matter off thinking I could make better use of the money. Will you tell me honestly whether you think I should purchase now, or could I do better by waiting until a later day, when the prices may be somewhat lower.

Yours very truly,

Answer:

Grand Rapids, Wis., Apr. 29, '14.
Dear Sir:

Replying to your inquiry regarding the prices of Diamonds we would say that "there is no such thing as a free lunch." Had you purchased such a stone ten years ago you would have made considerable upon your investment, and there is equal certainty that the tendency is towards higher prices in the future instead of lower. In fact, there has been a steady, unbroken climb in price for the last twenty years, and beyond question this will still continue.

Diamonds are different from a manufactured or grown article in this respect; as soon as the demand for any manufactured article becomes abnormally great, and prices rise, other producers enter the field and thus regulate the price. In the case of Diamonds, however, you are aware, they come almost exclusively from South Africa, where the mines are controlled by the De Beers Syndicate. This is one of the closest and wealthiest corporations in existence, and the output of stones to the cutters in Amsterdam is regulated by them systematically.

Then, too, it is claimed by those who are in a position to know that the supply is certainly decreasing. Diamonds, as you perhaps know, are found in what might be called "shoots" or "tubes" of clay, extending down into the bowels of the earth, having been shot there from ages past by volcanic eruption. They are now mined at over 3,200 feet below the surface, where the rocks are consequently much greater than when the mining was conducted nearer the surface.

Since you are considering the question of Diamonds, we think we could interest you in a visit to our store without placing you under the slightest obligation to purchase.

We make a specialty of stones of the very highest standard, stones which will increase in value yearly—in this respect differing from almost every investment in so-called luxuries.

Yours very truly,

A. P. HIRZY,

East End Bridge, Next to P. O.

LOCAL ITEMS.

Louis Goodness sold his Whiting roadster to Refland & Perodini the past week.

Huntington & Lessig have sold a Ford touring car to Robert Rezin, Jr. of the town of Rudolph.

T. A. Taylor is spending a week in Port Arthur, Ontario, looking after some business matters.

August Bartz of the town of Sigel was among the business callers at the Tribune office on Saturday.

Ed. Beck, buttermaker at the Yesper Creamery, has purchased the "Buick" roadster of Clarence Hayward.

Mrs. Nels Jensen of the town of Grand Rapids was among the business visitors in the city on Thursday.

Mr. and Mrs. M. Marceau of Rudolph were in the city on Saturday looking after some business matters.

Louis Mackaben, one of the progressive farmers on R. D. 4, was a pleasant caller at this office on Monday.

N. L. Kaudy of Webster spent several days in the city this week visiting his brothers, C. J. and Matt Kaudy.

Andrew Schroedel one of the solid farmers of the town of Sigel favored this office with a pleasant call on Saturday.

O. H. Moore and Roy Hiller of Tomahawk spent several days in the city the forepart of the week visiting with friends.

Jos. Bissig departed on Monday for City Point where he will spend the summer looking after the cranberry marsh of Bissig Bros.

J. H. Shortt and John Zurhuk of Nekosia were in the city on Friday and while here they favored the Tribune office with a pleasant call.

George M. Slauson, of the Cable Piano company of Chicago, was in the city several days the past week looking after some business matters.

Left Sunday evening for Chicago where Mr. Wood will receive treatment, having been in rather poor health the past week.

Mrs. Judd Blaisdell of Trout Lake was in the city on Saturday, having come down to close a deal for the sale of their home on Grand Avenue to Mrs. Maud Mullen.

Adolph Pankow, editor of the Marshall Democrat, spent several hours in the city on Friday while on his way to Watertown to attend the funeral of his sister.

Nels Larson is making arrangements to build a cottage on his lots on 8th Ave. S. Mr. Larson will use the Carey Concrete blocks and will rent the home when completed.

Try a Lucky Sam, a 10c smoke for five cents.

County Highway Commissioner Louis Annundato has purchased the Dan Castello home on the corner of Plover and Second street and has commenced work on a basement and comfortable addition to the house.

Mr. and Mrs. Adam Zimmerman of the town of Rudolph announce the approaching wedding of their daughter Katherine, to Paul Herman which will take place May 5th, at 9 o'clock at the Catholic church in Rudolph.

Huser Brothers brought in a load of live pork on Saturday which was taken to the Reiland Packing company's plant. The load contained about a ton and the roads were in such poor condition that they had to use two teams in order to get thru.

J. F. Weinberg was in Thorpe on Friday where he went to stake out the ground for a new Catholic church which he will build this summer. The building will cost \$30,000 and will be built of brick purchased thru the Grand Rapids Brick Co.

Mr. and Mrs. Chris Hagen of Wausau are in the city visiting at the home of their daughter, Mrs. Wm. Glise. Mr. Hagen was a pilot on the river here in early days, but after that business plied out he went to Wausau, where he has farmed for a number of years. He has recently sold his place and is thinking some of moving to Illinois.

Quite a bit of work is being done on the city parks this spring under the supervision of the park commissioners. The east side river bank is being filled in where it has been washed out in spots while trees and shrubs are being planted on the west side, and the indications are that the appearance will be greatly improved by the work.

George A. Williams, a farmer living on the marsh above Biron, met with a sad accident two weeks ago. He was operating a feed cutter and had all the fingers of his right hand cut off, besides having the arm badly mangled. Mr. Williams was in the city on Monday to consult his physician and informed The Tribune man that he was very fortunate in not losing his entire arm.

John E. Daly has booked the St. Paul Symphony Orchestra for an afternoon and evening concert at the Opera House on May 9th. This orchestra is one of the best in the country and carries sixty-five men on its concert tour, which includes four soloists, and is the largest and best musical organization that has ever visited this city. Grand Rapids is the smallest city on their route this year, so it is evident that we are especially favored.

Mr. and Mrs. Ted Hilderman, who have been visiting at the B. G. Chaudos home for several weeks past, expect to leave in the near future for Los Angeles, Cal. where Mr. Hilderman will look over the country with a view to locating. Mr. and Mrs. Hilderman have been making their home in Montana for several years past, and Mr. Hilderman is an enthusiastic on the western country, being of the opinion that there are exceptional chances out there for a young man.

When a man tells you that the big city weekly is worth more than your home paper, ask him how much the big city has ever done for your locality; if it had ever spoken a good word for it; if it had ever mentioned what he and you were doing to improve the condition; if it had ever noticed him or his friends when sick or dying—in short, if all his dealings with the metropolitan weekly have not been entirely one-sided, in which his dollar only was recognized by the other party, while he and all his individual interest were completely ignored.

John Possley of Biron departed on Tuesday for a month's trip thru the west.

Jos. Corriveau of Green Bay visited over Sunday with his mother, Mrs. G. Corriveau.

Mrs. Wm. Zimmer of Stevens Point was a guest at the John Hollmuller home several days the past week.

Mrs. J. T. Herron of Biron was in the city shopping on Monday. This office acknowledges a pleasant call.

Geo. Lyons of Milwaukee spent Monday in the city visiting among friends and looking after some business matters.

Mrs. Kate Miller and Mrs. Celia Szpankaski of Milwaukee were guests of Mr. and Mrs. James Klappa several days the past week.

Mrs. M. W. Ruckle and daughter Ruth leave today for Menasha where they will visit with Mrs. Ruckle's people for a week or more.

Mr. and Mrs. Edward Lynch returned on Friday to their home in Milwaukee after spending a week in this city visiting with friends.

John Hamm, who is employed as a barber in Milwaukee, is visiting with his parents, Mr. and Mrs. Wm. Hamm in the town of Rudolph for two weeks.

A daughter of Mr. and Mrs. H. H. Knoll of the town of Sigel was bitten by a dog Sunday and it was necessary for the doctor to take two stitches to close the wounds.

Rev. H. B. Johnson went to La Crosse on Monday having been called to the bedside of the Rev. Ole Ingebrigtsen. The old gentleman is quite seriously ill with bronchitis.

Mr. and Mrs. Archie McMillan and George B. McMillan, who have been spending the past winter at St. Petersburg, Florida, expect to arrive in the city on Saturday, to again take up their residence here.

M. E. Cater, proprietor of the creamery in the town of Carson, was unable to return to his home on Saturday from the Riverview Hospital, where he spent a week, having submitted to a surgical operation.

Dr. and Mrs. F. X. Pomainville spent several days in Milwaukee last week having gone down to attend the wedding of Miss Genevieve Hayes who was married to Leatham D. Smith of Sturgeon Bay.

Attorney John A. Gaylor left on Saturday for New York where he will attend a meeting of the American Fruit Exchange as a delegate from this part of the country. Mr. Gaylor expects to be absent a week or ten days.

Many of our trout fishermen took advantage of the nice weather on Sunday to go out after trout. While most of them got some fish, there were no phenomenal catches reported. It would seem as if the fish were becoming scarce in the streams about here notwithstanding the fact that enough fry are planted each year to more than keep up the supply.

Hamm—VanAlstine.

Miss Katherine Hamm of this city and Raymond VanAlstine of Tomahawk were married at the Catholic church on Monday morning, April 20th, by Rev. Wm. Reding. Since the wedding they have visited with friends and relatives in Tomahawk and Milwaukee, returning on Saturday. The bride is the youngest daughter of Mrs. Kate Hamm, and a most capable young lady, having been engaged to teach in our country schools for several years. The groom is in the employ of the St. Paul Ry. as car repairer, and has been located here the past two years. At present they are making their home with the brides mother on Fourth Ave. North, but will go to housekeeping on the west side in the near future.

Christian Endeavor Banquet.

A successful banquet was held at the home of Nels Christensen on Saturday evening. The auspices of the Christian Endeavor Society of the Scandinavian Moravian church. Much credit is due the chairman of the social committee for the tasty decorations, splendid menu and excellent program. The banquet was in the nature of a farewell to Miss Bella Rockstedt, the society's president. Chas. Hagerstrom acted as toastmaster and filled the position capably and well. Toasts were called for and responded to by Jennie Norton, Martha Johnson, Lydia Nelson, Bella Rockstedt and Rev. H. B. Johnson.

Scandinavian Moravian Church.

A prayer meeting will be held at the home of Mrs. Hannah Carlson this evening. The program for Sunday is: 9:30 a. m. Sunday school; 10:30 a. m. English preaching service; 3 p. m. and 7:30 p. m. services in Saratoga.

On Saturday afternoon and evening the Willing Workers will hold an ice cream social and sale of fancy articles in the parsonage, 321 3rd Ave. N. Home made ice cream will be served.

Woman's Club Elects Officers.

At the last meeting of the year, held on Monday evening, the Woman's Club elected the following officers for the ensuing year: President—Mrs. Louis Reichel. 1st Vice Pres.—Miss Gaskell. 2d Vice Pres.—Mrs. T. E. Mullen. Secretary—Mrs. G. E. Hambrecht. Treasurer—Mrs. W. A. Drumb. During the coming year the club will take up the study of modern authors.

Now's the Time.

Now's the time to be doing. If there's work that must be done, While the earth itself is wooing. Favors from the shining sun. Not to-morrow, you may never Hear the bells of morrow chime. But for every brave endeavor Now's the time.

Now's the time to be moving.

If in life you've any aim, If you're anxious to be proving What in merit is your claim. Don't, ah, don't today postpone it! Is not idleness a crime? If you have not overthrown it Now's the time.

Say not even, "I will do it."

Without failure by and by. That's a time with no date to it. In the shadows let it lie. Seize the present! It is flying Ever from you as you oft mope. Now, if you are bent on trying Now's the time.

COUNCIL PROCEEDINGS.

Council Chamber, Apr. 21st, 1914. Council met in last session. Mayor Cohen presiding.

Present: Aldermen Bamberg, Ketchum, Gaultke, McCarthy, Edw. F. Calkins, McCarthy, E. T. Getzlaff, Plenke, Lukasecki, Prebbanow, Wittrock, Damon, Tomczyk, Binneboese and Jeffrey.

Absent: Alderman Yeschke.

On motion the reading of the minutes of the extra session of the council was dispensed with.

The board of public works reported that at a meeting held April 20th, at the City Engineer's office it was moved and seconded that Oak street be sprinkled with oil from Second street east up to, but not including 10th street. Motion carried.

Moved and seconded that the petition for sprinkling the Green Bay between the tracks of the Green Bay & Western Railway to the brick pavement ending at the library building be granted. Motion carried.

Moved and seconded that First street from the library to Oak street and second street from the library to Birch street and Vine street from Third street to the bridge be sprinkled with water. Motion carried.

Moved and seconded that Grand Avenue from the west end of the bridge to the C. M. & St. P. depot be sprinkled with oil. Motion carried.

Moved and seconded that all streets one block north and one block south from Grand Ave. be sprinkled with oil or water. Signed by abutting property owners. Motion carried.

Moved and seconded that the city purchase a No. 4 oiler and pump attachment, one extra set of nozzles, one 3 foot bamboo sweeper and one little western grader from the Austin Western Road Machinery company, for the sum of \$875.00 I. O. b. Grand Rapids, Wis., terms 60 days. Grand Rapids, Wis., terms 60 days. Grand Rapids, Wis., terms 60 days.

Moved and seconded that the city purchase one car of No. 6 road oil from Inter State Oil Co., at \$3.98 per 100 gallons. Motion carried.

At a meeting of the board of public works, April 14th, 1914 it was moved and seconded that the city purchase the two sprinklers and motor and piping from Wm. Goldberg for the sum of \$400.00. Motion carried.

On motion the above actions of the board were confirmed by unanimous vote the clerk calling the roll. This part of the country. Mr. Gaylor expects to be absent a week or ten days.

The report on the petition for a sidewalk to begin at the northwestern corner of block No. 4, running thence southeasterly along the south side of Plover street to Second street, thence in a westerly direction along the westerly line of 2nd street was on motion referred back to the sidewalk committee.

The sewer and water works committee reported on the petition of Robert Sanger and others for a sewer and water main on 10th avenue north, a distance of four blocks north from McKinley street, recommending that the petition be granted.

On motion by unanimous vote the clerk calling the roll the report was accepted.

The sewer and water works committee reported on the petition of Alex Mindak and others for a sewer and water main on Grand Ave., a distance of two blocks west, from 17th avenue recommending that the petition be granted and that 24 inch sewer pipe be used.

On motion by a vote of 12 for and 3 against the report was accepted, the clerk calling the roll.

The sewer and water works committee reported on the petition of Max Janz and others for a sewer and water main on Grand Ave., a distance of about 4 blocks east from 17th avenue, recommending that the same be granted and 30 inch sewer pipe be used for same.

On motion by unanimous vote the clerk calling the roll the report was accepted.

Engineer Phillee reported that the line between the city and P. M. Vaughan's lands very irregular, in definite, and improperly described in the deed to the city, recommending that permanent substantial stone or cement monuments should be placed along this line to permanently mark the same, and a new deed which would properly describe this land should be given by Mr. Vaughan, before any further transfer are made by him.

Mr. Vaughan is willing to do this if the city will furnish and place substantial monuments marking the corners of the city lot.

Ten monuments will be required.

On motion by unanimous vote the clerk calling the roll the report was adopted and monuments ordered placed and providing the city get a new deed.

On motion the petition of J. E. Brooks for an arc light at the corner of Second Ave and Washington street was referred to the committee on general business.

On motion the petition for a sewer and water main on 11th street north, between Oak and Avon streets was referred to the sewer committee.

On motion the petition for sprinkling a distance of 70 feet easterly from Third St. south was referred to the board of public works.

On motion the petition from the east side fire department for a suitable engine house and stable was referred to the committee on general business.

The following resolution was presented and adopted by unanimous vote the clerk calling the roll.

Whereas, by a clerical error in copying the tax roll for 1913 there was omitted therefrom the County School tax levy amounting to \$6,458.71, which sum is due and payable to the Grand Rapids school board, on or before December 10, 1914, as the County school apportionment.

Now therefore, be it resolved, by the Common Council that said sum of \$6,458.71 be paid to the proper officers, by law entitled to receive the same, out of the General Fund of the city of Grand Rapids, on or before December 10, 1914, and that said sum so paid be spread upon the tax roll for the year 1914.

On motion the condition of the street signs was referred to Supt. of Public Works.

On motion by unanimous vote, the clerk calling the roll the following bills were allowed:

John Bamberg, com. wk. \$12.00
Wm. Prebbanow, com. wk. 19.50
Edw. F. McCarthy, com. wk. 25.50
E. T. McCarthy, com. wk. 3.00
Chris. Getzlaff, com. wk. 10.50
Herman F. Plenke, com. wk. 6.00
Henry Yeschke, com. wk. 15.00

Nick Tomayck, com. wk. 3.00
Jos. Lukasecki, com. wk. 3.00
Krieger Tool Mfg. Co. re- 10.00
pairs 67.50
Geo. F. Hambrecht extras 67.50

On motion the council took a recess for five minutes for the old council to retire, and the new council to convene.

Council Chamber, Apr. 21st, 1914. New council called to order by Mayor Cohen.

Present: Aldermen Bamberg, Ketchum, Gaultke, McCarthy, Calkins, McCarthy, Getzlaff, Plenke, Lukasecki, Gilmaster, Mueller, Wittrock, Damon, Jackson, Binneboese, and Jeffrey. Absent none.

The mayor addressed the council as follows:

Gentlemen of the Common Council: With the compliments from our citizens I again assume the responsibility of Mayor of the city of Grand Rapids for the next two years. I notice that most of the old councilmen have been re-elected in their respective wards. By this action our citizens have expressed their appreciation and approval of the good work accomplished by the last administration.

I would like to call your attention to the bonded indebtedness of our city contracted by our former administrations such as the bridge, water works, street improvements, parks, and school. Bonds are coming due every year. The total tax levy (exclusive of special tax levy) for the year 1914 was about \$96,500.00 of which we paid out to the schools, interest on bonds \$1,925.00 bond \$5000.00. School apportionment for county \$6,458.71. School apportionment \$38,500.00 which makes a total amount for the schools \$51,883.71 and for state and county tax less school bond and interest on bonds \$46,516.62 for interest and bond indebtedness \$10,439.08, which makes a grand total of \$108,893.34 from taxes collected for the year 1914. Now comes our general city expenses and over-drafts to be taken care of. The sentiment of some of our citizens are for lower taxes, although they continually ask for up to date improvements and the great remedy is to practice economy in all city departments and curtail expenses as much as possible.

I would like to ask of you a continuation of your co-operation of harmony, proficiency and quick action for the good and welfare of the city of Grand Rapids. I have no private or personal gain to derive from my office. But my earnest desire is to make this a good business administration and to give everybody a fair and square deal.

I thank the old council very much for their good work and their co-operation.

Sincerely yours,
J. A. COHEN.

The mayor made the following appointments:

I will appoint as follows:
City Attorney—Geo. P. Hambrecht.
City Clerk—M. G. Gordon.
Health Commissioner—Dr. F. X. Pomainville.
City Engineer—Ed. Phillee.
Poor Commissioner—Peter McCamley.
Supt. of Fire Engine and Library—D. M. Huntington.
Supt. of Public Works—G. R. Schuman.

Committees:
Finance—Aldermen Damon, Ketchum, Binneboese.
General Business—Aldermen, Lukasecki, McCarthy, Schnabel.
Streets—Aldermen Bamberg, Jackson, Getzlaff.
Water Works—Aldermen Calkins, Plenke, Gilmaster.
Side Walks—Aldermen, Getzlaff, Gaultke, Miller.
Sewers—Aldermen Jeffrey, Wittrock, Gaultke.
Police and Fire Commissioner—W. H. Carey.
Park Commissioner—Mrs. W. J. Conway.
Swimming Pool Commissioners—Geo. W. Mead, J. B. Arpin, L. A. DeGuere.

Board of Public Works—J. A. Cohen, J. J. Jeffrey, Christ Getzlaff, F. Calkins, J. Bamberg.

On motion by unanimous vote the clerk calling the roll the mayor's address was ordered spread upon the minutes and his appointments confirmed.

The name of Alderman Jeffrey was presented for President of the council.

There being no other candidate on motion the clerk was instructed to cast a ballot for Alderman Jeffrey for president of the council for the ensuing year.

The ballot being cast, Alderman Jeffrey was declared elected president of the council for the ensuing year.

On motion the city treasurer's bond was fixed at \$30,000.00 and the city clerk's bond at \$1,000.00 for the ensuing year.

On motion the city clerk was instructed to get sealed bids for the city printing and city depository for the ensuing year.

On motion council resolved itself into a board of health consisting of the Mayor, City Physician and City Clerk, executive committee.

On motion council adjourned.

M. G. Gordon, J. A. Cohen, Clerk. Mayor.

Their Name is Legion.

(From The New York Times.)
Mrs. Ben Adams (may the tribe not multiply)

Awoke one night from dreams of growing stout,

And as she lay, frightened and sorely troubled,

Feeling her chin to see that 'twas not doubled,

She spied, perched in a chair right by her bed,

A vision, sweetly gowned and quite well bred.

A book she rested on her tight-clad knee,

And at it she was staring patiently, "Why are you here?" The vision raised her head.

In wonder then the awakened lady said:

"To get the names," she answered, "I was sent,

Of all the women who abandon bridge in Lent."

She opened wide a spotless, unmarked book,

"Not one have I yet found," and added "Look!"

"Don't write me down!" quick cried out Mrs. Ben;

For if one stops for forty days, why, then,

One's place is lost in her swift social rush,

And then one has to stay outside. "But, hush!"

She whispered: "Write me down with those Who only play one table." The vision with a weary sigh, she shook her head—

"No book would hold the names of those," she said.

Wisconsin farmers, living in 44 different counties purchased during the period February 10th to March 10th, \$9 Pure Bred, registered Guernsey bulls and 103 cows and heifers.

Question:

A. P. HIRZY, Jeweler
Vine Street,
Grand Rapids, Wis.

Dear Sir:

For a couple of years past I have been considering the purchase of a nice Diamond Ring, but have been putting the matter off, thinking I could make better use of the money. Will you tell me honestly whether you think I should purchase now, or could I do better by waiting until a later day, when the prices may be somewhat lower.

Yours very truly,

Answer:

Grand Rapids, Wis., Apr. 29, '14.

Dear Sir:

Replying to your inquiry regarding the prices of Diamonds we would say that "there is no time like the present." Had you ten years ago used such a stone ten years ago you would have made considerable money upon your investment, and there is equal certainty that the tendency is towards higher prices in the future instead of lower. In fact, there has been a steady, unbroken climb in price for the last twenty years, and beyond question this will still continue. Diamonds are different from a manufactured or grown article in this respect; as soon as the demand for any manufactured article becomes abnormal, it goes up, and prices rise, other producers enter the field and thus regulate the price. In the case of Diamonds, as perhaps you are aware, they come almost exclusively from South Africa, where the mines are controlled by the De Beers syndicate. This is one of the closest and wealthiest corporations in existence, and the output of stones to the cutters in Amsterdam is regulated by them systematically.

Then, too, it is claimed by those who are in a position to know that the supply is certainly decreasing. Diamonds, as you perhaps know, are found in what might be called "shoots" or "tubs" of clay, extending down into the bowels of the earth, having been shot there from in ages past by volcanic eruption. They are now mined at over 3,200 feet below the surface, we are told, and the cost of such work is consequently much greater than when the mining was conducted nearer the surface.

Since you are considering the question of Diamonds, we think we could interest you in a visit to our store, without placing you under the slightest obligation to purchase.

We make a specialty of stones of the very highest standard, stones which will increase in value year by year, in this respect differing from almost every investment in so-called luxuries.

Yours very truly,

A. P. HIRZY,
East End Bridge, Next to P. O.

LOCAL ITEMS.

Louis Goodness sold his Whiting roadster to Reiland & Perodini the past week.

Hundington & Lessig have sold a Ford touring car to Robert Rezin, Jr. of the town of Rudolph.

T. A. Taylor is spending a week in Port Arthur, Ontario, looking after some business matters.

August Bartz of the town of Sigel was among the business callers at the Tribune office on Saturday.

Ed. Beck, buttermaker at the Vesper Creamery, has purchased the Buick roadster of Clarence Hayward.

Mrs. Nels Jensen of the town of Grand Rapids was among the business visitors in the city on Thursday.

Mr. and Mrs. Nio Marceau of Rudolph were in the city on Saturday looking after some business matters.

Louis Mackaben, one of the progressive farmers on R. D. 4, was a pleasant caller at this office on Monday.

N. L. Kaudy of Webster spent several days in the city the past week visiting his brothers, G. J. and Matt Kaudy.

Andrew Schroedel one of the solid farmers of the town of Sigel favored this office with a pleasant call on Saturday.

O. R. Moore and Roy Hillier of Tomahawk spent several days in the city the forepart of the week visiting with friends.

Jos. Bissig departed on Monday for City Point where he will spend the summer looking after the cranberry marsh of Bissig Bros.

J. H. Shortt and John Zurlub of Nekosca were in the city on Friday and while here they favored the Tribune office with a pleasant call.

George M. Skenson, of the Cable Piano company of Chicago, was in the city several days the past week looking after some business matters.

F. J. God and Dr. Ed. Hougen left Sunday evening for Chicago, where Mr. God will receive treatment, he having been in rather poor health the past week.

Mrs. Judd Blaisdell of Trout Lake was in the city on Saturday, having come down to close a deal for the sale of their home on Grand Avenue to Mrs. Maud Mullen.

Adolph Pankow, editor of the Marshfield Democrat, spent several hours in the city on Friday while on his way to Watertown to attend the funeral of his sister.

Nels Larson is making arrangements to build a cottage on his lots on 8th Ave. S. Mr. Larson will use the Carey Concrete blocks and will rent the home when completed.

Try a Lucky Sam, a 10c smoke for five cents.

County Highway Commissioner Louis Amundson has purchased the Dan Castello home on the corner of Plover and Second street and has commenced work on a basement and comfortable addition to the house.

Mr. and Mrs. Adam Zimmerman of the town of Rudolph announce the approaching wedding of their daughter Katherine, to Paul Herman which will take place May 5th, at 9 o'clock at the Catholic church in Rudolph.

Huser Brothers brought in a load of live pork on Saturday which was taken to the Reiland Packing company's plant. The load contained about a ton and the roads were in such poor condition that they had to use two teams in order to get them.

J. T. Weinberg was in Thorpe on Friday where he went to stake out the ground for a new Catholic church which he will build this summer. The building will cost \$30,000 and will be built of brick purchased thru the Grand Rapids Brick Co.

Mr. and Mrs. Chris Hagen of Wausau are in the city visiting at the home of their daughter, Mrs. Wm. Cise. Mr. Hagen was a pilot on the river here in early days, but after that business played out he went to Wausau, where he has farmed for a number of years. He has recently sold his place and is thinking some of moving to Illinois.

Quite a bit of work is being done on the city parks this spring under the supervision of the park commissioners. The east side river bank is being filled in where it has been washed out in spots while trees and shrubs are being planted on the west side, and the indications are that the appearance will be greatly improved by the work.

George A. Williams, a farmer living on the marsh above Byron, met with a sad accident two weeks ago. He was operating a feed cutter and had all the fingers of his right hand cut off, besides having the arm badly mangled. Mr. Williams was in the city on Monday to consult his physician and informed the Tribune man that he was very fortunate in not losing his entire arm.

John E. Daly has booked the St. Paul Symphony Orchestra for a performance and evening concert at the Opera House on May 9th. This orchestra is one of the best in the country and carries sixty-five men on its concert tour, which includes four soloists, and is the largest and best musical organization that has ever visited this city. Grand Rapids is the smallest city on their route this year, so it is evident that we are especially favored.

Mr. and Mrs. Ted Hilderman, who have been visiting at the B. G. Chandos home for several weeks past, expect to leave in the near future for Los Angeles, Cal. where Mr. Hilderman will look over the country with a view to locating. Mr. and Mrs. Hilderman have been making their home in Montana for several years past, and Mr. Hilderman is an enthusiast on the western country, being of the opinion that there are exceptional chances out there for a young man.

When a man tells you that the big city weekly is worth more than your home paper, ask him how much the big city has ever done for your locality; if it had ever spoken a good word for it; if it had ever mentioned what he and you were doing to improve the condition; if it had ever noticed him or his friends when sick or dying—in short, if all his dealings with the metropolitan weekly have not been entirely one-sided, in which his dollar only was recognized by the other party, while he and all his individual interest were completely ignored.

John Possley of Byron departed on Tuesday for a month's trip thru the west.

Jos. Corriveau of Green Bay visited over Sunday with his mother, Mrs. G. A. Corriveau.

Mrs. Wm. Zimmer of Stevens Point was a guest at the John Holmuller home several days the past week.

Mrs. J. T. Herron of Byron was in the city shopping on Monday. This office acknowledges a pleasant call.

Geo. Lyons of Milwaukee spent Monday in the city visiting among friends and looking after some business matters.

Mrs. Kate Miller and Mrs. Celia Szpankaska of Milwaukee were guests of Mr. and Mrs. James Klappa several days the past week.

Mrs. M. W. Ruckle and daughter Ruth leave today for Menasha where they will visit with Mrs. Ruckle's people for a week or more.

Mr. and Mrs. Edward Lynch returned on Friday to their home in Milwaukee after spending a week in this city visiting with friends.

John Haum, who is employed as a barber in Milwaukee, is visiting with his parents, Mr. and Mrs. Wm. Haum in the town of Rudolph for two weeks.

A daughter of Mr. and Mrs. H. H. Knoll of the town of Sigel was bitten by a dog Sunday and it was necessary for the doctor to take two stitches to close the wounds.

Rev. H. B. Johnson went to LaCrosse on Monday having been called to the bedside of the Rev. Ole Christensen. The old gentleman is quite seriously ill with bronchitis.

Mr. and Mrs. Archie McMillan and George B. McMillan, who have been spending the past winter at St. Petersburg, Florida, expect to arrive in the city on Saturday, to again take up their residence here.

M. E. Cater, proprietor of the creamery in the town of Carson, was able to return to his home Saturday, where he spent a week, having submitted to a surgical operation.

Dr. and Mrs. F. X. Pomainville spent several days in Milwaukee last week having come down to attend the wedding of Miss Genevieve Hayes who was married to Leathen D. Smith of Sturgeon Bay.

Attorney John A. Gaynor left on Saturday for New York where he will attend a meeting of the American Fruit Exchange as a delegate from this part of the country. Mr. Gaynor expects to be absent a week or ten days.

Many of our trout fishermen took advantage of the nice weather on Sunday to go out after trout. While most of them got some fish, there were no phenomenal catches reported. It would seem as if the fish were becoming scarcer in the streams about here notwithstanding the fact that enough fry are planted each year to more than keep up the supply.

Hamm—VanAlstine.

Miss Katherine Hamm of this city and Raymond VanAlstine of Tomahawk were married at the Catholic church on Monday morning, April 29th, by Rev. Wm. Reding. Since the wedding they have visited with friends and relatives in Tomahawk and Milwaukee, returning on Saturday. The bride is the youngest daughter of Mrs. Kate Hamm, and a most estimable young lady, having been educated in teaching in our country schools for several years. The groom is in the employ of the St. Paul Ry. as car repairer, and has been located here the past two years. At present they are making their home with the bride's mother on Fourth Ave. North, but will go to housekeeping on the west side in the near future.

Christian Endeavor Banquet.

A successful banquet was held at the home of Nels Christenson on Saturday evening, under the auspices of the Christian Endeavor Society of the Scandinavian Moravian church. Much credit is due the chairman of the social committee for the tasty decorations, splendid menu and excellent program. The banquet was in the nature of a farewell to Miss Bella Rocksted, the society's president. Chas. Hagerstrom acted as toastmaster and filled the position capably and well. Toasts were called for and responded to by Jennie Norton, Martha Johnson, Lydia Nelson, Bella Rocksted and Rev. H. B. Johnson.

Scandinavian Moravian Church.

A prayer meeting will be held at the home of Mrs. Hannah Carlson this evening. The program for Sunday is: 9:30 a. m. Sunday school; 10:20 a. m. English preaching service; 3 p. m. and 7:30 p. m. services in Saratoga.

On Saturday afternoon and evening the Willing Workers will hold an ice cream social and sale of fancy articles in the paragona, 331 3rd Ave. N. Home made ice cream will be served.

Woman's Club Elects Officers.

At the last meeting of the year, held on Monday evening, the Woman's Club elected the following officers for the ensuing year:

President—Mrs. Louis Reichel.
1st Vice Pres.—Miss Gaskell.
2nd Vice Pres.—Mrs. E. L. Mullen.
Secretary—Mrs. G. P. Hambrecht.
Treasurer—Mrs. W. A. Drumb.

During the coming year the club will take up the study of modern authors.

Now's the Time.

Now's the time to be a doing
If there's work that must be done,
While the earth itself is wooing
Favors from the shining sun.
Not to-morrow, you may never
Hear the bells of merriment chime,
But for every brave endeavor
Now's the time.

Now's the time to be a-mov'ing
If in life you've any aim,
If you're anxious to be proving
What in merit is your claim.
Don't, ah, don't today postpone it!
Is not idleness a crime?
If you have not overthrown it
Now's the time.

Say not even, "I will do it
Without failure by and by."
That's a time with no date to it,
In the shadows let it lie.
Seize the present! It is flying
Ever from you as you climb.
Now, if you are bent on try ing—
Now's the time.

COUNCIL PROCEEDINGS.

Council Chamber, Apr. 21st, 1914.
Council met in last session, Mayor Cohen presiding.

Present: Aldermen Bamberg, Ketchum, Gaultke, McCarthy, Edw. F. Calkins, McCarthy, E. T. Getzlaff, Plenke, Lukasecki, Prebano, Wittrock, Damon, Tomsyck, Binneboese and Jeffrey.

Absent Alderman Yeschke.

On motion the reading of the minutes of the extra session of the council was dispensed with.

The board of public works reported that at a meeting held April 20th, at the City Engineer's office it was moved and seconded that Oak street be sprinkled with oil from Second street east up to, but not including 10th street. Motion carried.

Moved and seconded that the petition for sprinkling First street between the tracks of the Green Bay & Western Railway to the brick pavement ending at the library building be granted. Motion carried.

Moved and seconded that First street from the library to Oak street and second street from the library to Birch street and Vine street from Third street to the bridge be sprinkled with water. Motion carried.

Moved and seconded that Grand Avenue from the west end of the bridge to the C. M. & St. P. depot be sprinkled with oil. Motion carried.

Moved and seconded that all streets in block north and east of Second street south from Grand Ave. be sprinkled with oil or water if signed by abutting property owners. Motion carried.

Moved and seconded that the city purchase a No. 4 roller and pump attachment, one extra set of nozzles, one 5 foot bamboo sweeper and one little western grader from the Austin Western Road Machinery company, for the sum of \$775.00 f. o. b. Grand Rapids, Wis., terms 60 days from acceptance, one man to demonstrate at the expense of the company. Motion carried.

Moved and seconded that the city purchase one car of No. 6 road oil from Inter State Oil Co., at \$3.38 per 100 gallons. Motion carried.

At a meeting of the board of public works, April 14th, 1914 it was moved and seconded that the city purchase the two sprinklers and motors and piping from Wm. Goldberg for the sum of \$400.00. Motion carried.

On motion the above actions of the board were confirmed by unanimous vote the clerk calling the roll.

The report on the petition for a sidewalk to begin at the northwesterly corner of block No. 4 running thence southeasterly along the southerly side of Plover street to Second street, thence in a westerly direction along the westerly line of 2nd street was on motion referred back to the sidewalk committee.

The sewer and water works committee reported on the petition of Robert Sanger and others for a sewer and water main on 13th avenue north, a distance of four blocks north from McKinley street, recommending that the petition be granted.

On motion by unanimous vote the clerk calling the roll the report was accepted.

The sewer and water works committee reported on the petition of Max Janz & others for a sewer and water main on Grand Ave., a distance of about 4 blocks east from 17th avenue, recommending that the same be granted and 30 inch sewer pipe be used for same.

On motion by unanimous vote the clerk calling the roll the report was accepted.

Engineer Philles reported that the line between the city lot and B. M. Vaughan's land was very irregular, indefinite, and improperly described in the deed to the city, recommending that permanent substantial stone or cement monuments should be placed along this line to permanently mark the same, and a new deed which will properly describe this land should be given by Mr. Vaughan, before any further transfer are made by him.

Mr. Vaughan is willing to do this if the city will furnish and place substantial monuments marking the corners of the city lot.

Ten monuments will be required.

On motion by unanimous vote the clerk calling the roll the report was adopted and monuments ordered placed and providing the city get a new deed.

On motion the petition of J. E. Brooks for an are light at the corner of Second Ave and Washington street was referred to the committee on general business.

On motion the petition for a sewer and water main on 11th street north, between Oak and Avon streets was referred to the sewer committee.

On motion the petition for sprinkling a distance of 700 feet easterly from Third St. south was referred to the board of public works.

On motion the petition from the east side are department for a suitable engine house and stable was referred to the committee on general business.

The following resolution was presented and adopted by unanimous vote the clerk calling the roll.

Whereas, by a clerical error in copying the tax roll for 1912 there was omitted therefrom the County School tax levy amounting to \$6,158.71, which sum is due and payable to the Grand Rapids school board, on or before December 10, 1914, as the County school apportionment.

Now therefore, be it resolved, by the Common council that said sum of \$6,158.71 be paid to the proper officers, by law entitled to receive the same, out of the General Fund of the city of Grand Rapids, on or before December 10, 1914, and that said sum so paid be spread upon the tax roll for the year 1914.

On motion the condition of the street signs was referred to Supt. of Public Works.

On motion by unanimous vote, the clerk calling the roll the following bills were allowed:

John Bamberg, com. wk. \$ 12.00
Wm. Prebano, com. wk. 19.50
Edw. F. McCarthy, com. wk. 25.50
E. T. McCarthy, com. wk. 3.00
Chris. Getzlaff, com. wk. 10.50
Herman F. Plenke, com. wk. 6.00
Henry Yeschke, com. wk. 15.00

Nick Tomsyck, com. wk. 3.00
Jos. Lukasecki, com. wk. 3.00
Krisger Tool Mfg. Co. re-pairs 10.00
Geo. F. Hambrecht, extras 67.50

On motion council took a recess for five minutes for the old council to retire and the new council to convene.

Council Chamber Apr. 21st, 1914.
New council called to order by Mayor Cohen.

Present: Aldermen Bamberg, Ketchum, Gaultke, Schnabel, Calkins, McCarthy, Getzlaff, Plenke, Lukasecki, Gilmaster, Mueller, Wittrock, Damon, Jackson, Binneboese, and Jeffrey. Absent none.

The mayor addressed the council as follows:

Grand Rapids, Wis., April 21, 1914.
Gentlemen of the Common Council:

With the compliments from our citizens I again assume the responsibility of Mayor of the city of Grand Rapids for the next two years. I notice that most of the old councilmen have been re-elected in their respective wards. By this action our citizens have explained their appreciation and approval of the good work accomplished by the last administration.

I would like to call your attention to the bonded indebtedness of our city contracted by our former administrations such as the bridge, water works, street improvements, parks, and school. Bonds are coming due every year. The total tax levy (except special tax levy) for the year 1914 was about \$96,500.00 of which we paid out to the schools, interest on bonds \$1,925.00 bond \$500.00. School apportionment for county \$6,458.71. School appropriation \$38,500.00 which makes a total amount for the schools \$51,883.71 and for state and county tax less school bond and interest on bonds \$16,516.63 for interest and bond indebtedness \$10,489.00 which makes a grand total of \$108,899.34 from taxes collected for the year 1914. Now comes our general city expenses and over-drafts to be taken care of. The sentiment of some of our citizens are for lower taxes, although they continually ask for up to date improvements and the great remedy is to practice economy in all city departments and curtail expenses as much as possible.

I would like to ask of you a continuation of your co-operation of harmony, proficiency and quick action for the good and welfare of the city of Grand Rapids. I have no private or personal gain to derive from my office. But my earnest desire is to make this a good business administration and to give everybody a fair and square deal.

I thank the old council very much for their good work and their co-operation.

Sincerely yours,
J. A. COHEN.

The mayor made the following appointments:

I will appoint as follows:
City Attorney—Geo. P. Hambrecht.
City Clerk—M. G. Gordon.
Health Commissioner—Dr. F. X. Pomainville.
City Engineer—Ed. Philles.
Poor Commissioner—Peter McCamley.
Supt. of Fire Engine and Library—D. M. Huntington.
Supt. of Public Works—G. R. Schuman.

Committees:

Finance—Aldermen Damon, Ketchum, Binneboese.
General Business—Aldermen, Lukasecki, McCarthy, Schnabel.
Streets—Aldermen Bamberg, Jackson, Getzlaff.
Water Works—Aldermen Calkins, Plenke, Gilmaster.
Side Walks—Aldermen, Getzlaff, Gaultke, Miller.
Sewers—Aldermen Jeffrey, Wittrock Gaultke.
Police and Fire Commissioner—W. H. Carey.
Park Commissioner—Mrs. W. J. Conway.
Swimming Pool Commissioners—Geo. W. Mead, J. B. Arpin, L. A. Detmire.
Board of Public Works—J. A. Cohen, J. J. Jeffrey, Christ Getzlaff, F. Calkins, J. Bamberg.

On motion by unanimous vote the clerk calling the roll the mayor's address was ordered spread upon the minutes and his appointments confirmed.

The name of Alderman Jeffrey was presented for President of the council.

There being no other candidate on motion the clerk was instructed to cast a ballot for Alderman Jeffrey for president of the council for the ensuing year.

The ballot being cast, Alderman Jeffrey was declared elected president of the council for the ensuing year.

On motion the city treasurer's bond was fixed at \$30,000.00 and the city clerk's bond at \$1,000.00 for the ensuing year.

On motion the city clerk was instructed to get sealed bids for the city printing and city depositary for the ensuing year.

On motion council resolved itself into a board of health consisting of the Mayor, City Physician and City Clerk as executive committee.

On motion council adjourned.

A. G. Gordon, J. A. Cohen, Clerk, Mayor.

Their Name is Legion.
(From the New York Times.)
Mrs. Ben Adams (may the tribe not multiply)
Awoke one night from dreams of growing stout,
And as she lay, frightened and sorely troubled,
Feeling her chin to see that 'twas not doubled,
She spied, perched in a chair right by her bed,
A vision, sweetly gowned and quite well bred.

A book she rested on her tight-clad knee,
And at it she was staring patiently,
"Why are you here?" The vision raised her head.
In wonder then the awakened lady said:
"To get the names," she answered,
"I was sent,
Of all the women who abandon bridge in Lent."
She opened wide a spotless, unmarked book,
"Not one have I yet found," and added "Look!"

"Don't write me down!" quick cried out Mrs. Ben;
"For if one stops for forty days, why, then,
One's place is lost in her swift social rush,
And then one has to stay outside.
But, hush!"
She whispered: "Write me down with those
Who only play one table." The vision rose,
And with a weary sigh, she shook her head—
"No book would hold the names of those," she said.

Wisconsin farmers, living in 44 different counties purchased during the period February 10th to March 10th, 89 Pure Bred, registered Guernsey bulls and 103 cows and heifers.

Mexican Troops Fire on U. S. Men
From House-tops—Women and
Children Flee to Vessel During
Fierce Gale—Admiral Fletcher
Sends Report of En-
gagement to War De-
partment at Wash-
ington.

Washington, April 22.—The war is on. Acting under orders from the secretary of the navy to block the port of Vera Cruz and seize the customs house, Admiral Fletcher, in charge of the American forces, landed marines from the Utah, Florida and Prairie and proceeded to take the customs house.

A sharp engagement between the American and Mexican forces followed. Four American marines were killed and 20 were wounded. Two hundred Mexicans were killed.

According to the report from Admiral Fletcher the Mexican troops did not oppose the landing of the marines, but opened fire after the Americans had taken possession of the customs house. The Mexicans employed artillery and made a desperate effort to drive the Americans out.

U. S. S. Prairie Shells Mexicans. Admiral Fletcher at once ordered the Prairie to bring her big guns into play, and from her place in the harbor she proceeded to shell the Mexicans out of their position.

The Prairie was assigned to shell the city for the reason that she is of lighter draft than either of the big battleships and by approaching nearer to the water front could place her shells with greater precision.

All of this occurred while a great gale was gathering just outside the breakwater. The Mexican coast in the vicinity of Vera Cruz is subject to frequent visitations of "northerly" storms, among the most furious storms encountered anywhere in the world. These storms develop such violence that the customs house and other buildings on or near the water front are whipped with spray, although the breakwater which protects the city is one of the best of its kind anywhere.

Admiral Fletcher reported that he was holding the customs house and the section of the city in which the American consulate is located. The customs house and the consulate are within a few blocks of each other.

The American casualties and the men wounded in the first engagement were as follows: The dead—Coxswain Shoemaker, Corporal Hagerty, marine corps; Seaman Poulsett.

Electrician Geisburne of the battleship Florida.

Nathan Schwartz, seaman, nineteen, New York; Charles J. Leahy, ordinary seaman, seventeen, New York city, electrician, third class, Edward A. Clonahan, eighteen, Quincy, Mass.; C. D. Cameron, ordinary seaman, eighteen, Brooklyn, N. Y., and John F. Place, twenty, Newark, N. J. All these were bluejackets from Florida, did not marines.

Gale Stops Refugees. According to dispatches received from Vera Cruz earlier in the day the consulate was crowded with American women and children waiting to be taken off in one of the vessels chartered by the United States and waiting in the harbor. The Esperanza was reported as ready to sail, but owing to the gale did not put out. She still had accommodations for several hundred refugees.

Receipt of word from Admiral Fletcher that fighting had begun, and that four marines had been killed, galvanized the war and navy departments into immediate action.

Washington, April 22.—The navy department received an official dispatch from Fletcher stating that the American dead and wounded have been removed to the ships. The Chester has reached Vera Cruz. In response to a wireless request from Secretary Daniel R. Adams Fletcher dispatched the following full account of the seizure of Vera Cruz by the American forces. The dispatch is dated Vera Cruz, 10 p. m., and reached Washington shortly after one o'clock.

Admiral Fletcher's Report. Vera Cruz, April 22.—Three hundred marines composed the first landing party. They reached the shore at exactly 12 o'clock. The cable and cable of the cable were first occupied. Up to this time no Mexican troops were in sight but later they were discovered hiding in the house tops and the church towers.

The first shot fired was by a private. It hit a marine near the cable office who died later.

Mexicans Opened Fire. The fire was opened up by the Mexican forces at 12:15. At 12:35 five companies of marines were in action. A steady fire was being delivered against the Americans from the old church tower, and to put these "snipers" out of action a three-inch field piece from the Florida, commanded by Ensign Crespi, put five shots into the tower. This cleared the American consulate from all danger.

Marines Protected by Warship. At 1:30 Utah landing force came ashore near the barracks protected by the fire from the transport Prairie. By this time the Mexican firing had been checked and a few English marines were sent to guard the British consulate.

The Mexicans soon got into action again and at two o'clock the firing had become furious. Up to this point the Americans had been killed and seven wounded.

Capt. Hughes Warns Huerta General. The Prairie was still firing occasionally and this had a quieting effect. At three o'clock Captain Hughes came ashore to make an observation of results. As he passed by the Florida's three-inch field piece he called out to the firing squad:

"Are you having as much fun as you expect?"

At 3:30 Captain Hughes tried to get word to General Maas, the Mexican commander, that if firing did not cease the town would be bombarded. If this word reached General Maas it produced little result. Firing continued. The marines held their position. The Florida advanced along the shore from the water front and was stationed among the custom house buildings. This brings them close up to the principal plaza. Mexican citizens now declare that most of their troops are out of the city.

Senate Empowered the President. Washington, April 22.—After an all night session the resolution adopted by the house, which authorized the president to use the U. S. army and navy to oust Huerta from the presidency of Mexico and punish those guilty of insulting the American flag, was adopted by the U. S. senate, 72 to 13, after many speeches that will be historic. Senators Lodge and Root set forth in their speeches reasons why the insult to the flag could not be the sole motive for interference in Mexico by force of arms.

Senator Root, once secretary of state, and before that secretary of war, and one of the accepted world's authorities on international law, declared in the debate that justification of what is about to be done and what already has been done in Mexico cannot be limited by a question as to number of guns that shall be fired in a salute of apology or by the manner of firing the salute in question.

See War Already. Experts in foreign affairs take the ground that what has been proclaimed, and that the outrage upon American lives and property must be considered in justification of the intervention, steps taken and of such other steps as may be taken. There will be an effort in conference to force the acceptance of the original resolution, which called on congress from the state department specifically mentioning Huerta as the object of attack.

But events of the last 24 hours may make this effort futile. The death of the marines at Vera Cruz caused more than one senator to change from opposition to the Lodge substitute expressed in the morning and now he would support a broad resolution, even if it led to a declaration of war.

Williams Flights Change. Senator John Sharp Williams, of Mississippi, who was the one member of the foreign relations committee to stick to the resolution in the form adopted by the house, is supporting the committee resolution in the hope that in conference it will be put back in its original form. His theory is that war means an easy thing to enter into, but a mighty hard thing to get out of, and that if matters can be limited to Huerta it will be possible for our forces to retire from Mexico as soon as the dictator is driven out of the country.

Tense Over Marines' Death. Meager reports of the engagement at Vera Cruz had filtered to the capital when the senate resumed its session at eight o'clock. The four Americans dead in Vera Cruz, the 20 wounded, and the 200 Mexicans reported killed in the taking of the city, became the text of the talk, mentioned in hushed voices, and greeted with a solemn silence throughout the senate chamber, packed to suffocation.

As the shuttle of debate was thrown back and forth a full quorum of the house of representatives crowded the rear of the senate hall.

Secretary of State Bryan, himself often referred to in the debate; Secretary of War Garrison, Secretary of the Navy Daniels, Postmaster General Burleson, Secretary of the Interior Clegg, and Secretary of the Treasury Taft, all listened eagerly and held whispered conferences as the discussion progressed.

The diplomatic gallery was filled with members of the foreign corps, with Ambassador Spring-Rice of Great Britain at their head. As the hours dragged along and the news from Vera Cruz spread, through Washington, throngs of fashionably gowned women and spectators from every walk of life packed the galleries and thronged the corridors of the senate wing of the capitol.

The Republican side of the senate, led by Senator Root, demanded that the "justification" proposed in the resolution for a movement in force against Mexico be founded not on the Tampico incident, but on the long series of outrages against American citizens and their property, including the outrages in northern Mexico, where the constitutionalists are in control.

Senators Reed and James vigorously defended the committee resolution, declaring that the insult to the flag at Tampico justified all that the resolution provided for.

At the night work on and on, senator after senator demanded an opportunity to be heard, the atmosphere in the chamber grew more and more tense. Senator Fall of New Mexico made a lengthy plea for a campaign that would cover the length and breadth of Mexico.

Senator Root said that the foreign relations committee resolution while outlining the nature of Huerta, made it plain that it was directed against him. He expressed the "highest regard for the president and the highest confidence in his purposes."

No Question of Confidence. "But we are not asked to express our confidence in him," he continued, "we are asked as a part of our duty here to declare a certain course of action in certain conditions to be justified. We are called upon to do our duty to the 100,000,000 people of this country and our duty to the civilized world."

The resolution, Senator Root said, called for "forceful armed compulsion of the de facto government of a friendly nation to make amends for an insult to the flag of this country."

"We cannot justify this," he continued, "on our confidence in the president. We must justify ourselves before the conscience of the people of our country and before the eyes of the civilized world. What is that justification? Mark you, I do not say there is no justification. I ask what it is."

Senator Root reviewed the Tampico incident as the avowed justification by the president. He said the incident was an "insult to our flag."

War in Its Essence. "Deeply as the president desires to limit the scope of his action to the maintenance of peace, all history suggests that once lighted, the fires of war cannot be quenched at will. It is war in its essence that we are to vote to justify. What will be the results of those incidents no man can tell."

Responsibility on Senate. "In a situation of high seriousness such as now confronts congress it is well to remember the responsibility on the senate," said Senator Lodge in opening the debate in the morning.

"The power to declare war rests under the constitution with congress," he said. "The president plays an international controversy, before congress he takes the last step that precedes war. The president might have taken further steps, but he has come to the body, which alone has power to declare war. I think he has done well."

"This resolution uses the word 'insult' instead of 'outrage.' This result will be the same. This resolution does not contemplate the declaration of war. The president in his message disclaimed any hostility toward the Mexican people. But this resolution carries with it armed intervention."

The consequences of armed intervention are in many respects precise by the same as war. But they complete a task less capable of speedy completion. The fertile in speedy glory of victories won and may bring a long period of the exercise of what would be the police power in a foreign country, involving vast expenditures, great loss of life, perhaps, and, after months and possibly years, possibly only the satisfaction of feeling that we had brought back peace and order to a lawless and lawless country."

"I earnestly hope that war is not in question," said the president. "We do not desire to control Mexico. Our feelings for the people of that country are of deep and genuine friendship. The people of Mexico are entitled to settle their own domestic affairs in their own way. We sincerely respect their right to do so, and it is to respect their right that we are to use force. Only part of the country is under General Huerta's control."

War Waged Against Huerta. "If armed conflict should unhappily come as a result of his attitude of personal resentment towards this government, we should be fighting on a plane, and giving him support, and our object would be only to restore to the people of the distressed republic the opportunity to set up their own laws."

The president said there was no thought of aggression or aggrandizement on the part of the United States. He asked merely for approval of his intention to use his own prerogative as commander-in-chief of the army and navy to order the two branches of the military service into action for the purpose of compelling President Huerta to salute the American flag.

U. S. Consul General Slain. Washington, April 22.—There is a rumor that Consul General Shanklin has been killed and about forty Americans injured in the attack on the city. No official confirmation of the report has been received here.

Women and Children Flee. Vera Cruz, April 22.—Two sections of the special train-bearing refugees from Mexico City have arrived here. A third section is expected soon. Most of the passengers on board the trains are Americans, the majority being women and children. There was no evidence of alarm among these people when they arrived here. In fact, they looked more like a picnic party than refugees from a danger zone.

Lingerie Catches Woman Thief. West Orange, N. J.,—Following many clothesline thefts, Mrs. M. Crane baited a trap with costly lingerie and waited nearby with a revolver. Annie Ridgely, a negro, walked into the trap.

Sells Sparrows for Canaries. Hastings, N. Y.,—A peddler reaped a harvest when he sold 100 parrots for canaries. "We had taken 1,200 policemen to arrest him."

Wife Shot in Divorce Fight. Bellair, O., April 20.—An angry husband refused to pay half the costs of a divorce action he had begun against her, John Lugg shot her four times, inflicting probably fatal wounds. He then killed himself.

Hammerstein Barred From Opera. New York, April 20.—Oscar Hammerstein and his son, Arthur, are restrained from producing opera in Boston and New York until April 26, 1920, according to a decision of the supreme court.

Boy Playing Sailor Drowned. St. Louis, April 21.—While "playing sailors" when they should have been at school, Henry Calbreath, Jr., eight years old, was drowned and his three girl companions narrowly escaped similar fates at Belleville, Ill., near here.

One of Founders of D. A. R. Is Dead. Wilkesbarre, Pa., April 21.—Mrs. William M. McCartney, one of the founders of the Daughters of the American Revolution, died here, aged seventy-seven. She was the widow of General McCartney of New York city.

Married Twice Within Week, Charge. Indianapolis, April 20.—Elvis Jones of Terre Haute, alleged to have married twice within the last week and to have three wives living here, was arrested, charged with bigamy. His most recent wife was arrested also.

Steamship on Fire in Gulf. Mobile, Ala., April 20.—The steamship Alm of the Seaboard Steamship Line, with a cargo of sisal from Progreso, is reported on fire in the lower bay at Fort Morgan. Fire tugs have been dispatched to her assistance.

Arrest Dead Senator's Son. New York, April 21.—Harry J. Wilbert, twenty-four years old, who said he was the son of a deceased Pennsylvania senator, was arrested on a charge of burglary for extradition to Pittsburgh.

Bowers-Taft Family Union. Washington, April 21.—Announcement of the engagement of Miss Martha Bowers, daughter of the late Lloyd W. Bowers, to Robert Taft, the eldest son of former President Taft, was made here.

Ex-President Is Hurt. Frankfort, Ind., April 20.—Former Vice-President Charles W. Fairbanks was slightly injured on Friday afternoon when the speaker's platform collapsed at the Arbor day celebration here.

Ex-Congressman Dead. Terre Haute, Ind., April 20.—George W. Paris, who represented the Fifth district in congress for the three terms in the nineties, died in Washington, D. C. He was sixty years of age.

Mahoney Indicted by Jury. New York, April 22.—Michael P. Mahoney, who attempted to kill Mayor John Purroy Mitchell, Councilman John Purroy Mitchell, Councilman Frank Lyon Polk, was indicted for attempted murder in the first degree.

Associate of Mary Baker Eddy Dead. St. Joseph, Mo., April 22.—Charles M. Howe, sixty-two years old, a Christian Science leader who was widely known, died here of a heart attack. He acted as confidential agent of the late Mrs. Mary Baker Eddy.

Uphold Kansas Insurance Law. Washington, April 21.—The supreme court here today affirmed a lower court decision that the Kansas law of public insurance may be regulated by legislatures. A law of Kansas to limit and regulate charges was declared constitutional.

High Court Upholds \$42,000 Fine. Washington, April 22.—A fine of \$42,000 imposed on the Hooking Valley road for extending credit to the Sunday Creek Coal company in violation of the interstate commerce act was upheld by the supreme court.

Land on the Doorkeeper. Washington, April 22.—Representative Bartlett of Georgia, struck by a doorkeeper of the house because of the misunderstanding over the identity of the representative and the admission of Mrs. Bartlett to the gallery.

Dr. T. J. Kemp Must Serve Term. Washington, April 22.—The supreme court decided that Dr. T. J. Kemp, son-in-law of Senator Duncan, Fletcher of Florida, must serve a two-years sentence on his conviction for perjury following a criminal operation.

Chauffeur Gets Jail Sentence. New York.—Bettina J. Eddy, who drove the machine on the wrong side of the street to avoid striking a woman, Henry C. Eddy, a chauffeur, was arrested and sentenced to 30 days in jail for reckless driving.

"Pickpocket Trust" Is Wise. New York.—The "pickpocket trust" employs an aged woman as a "professional mother" to win the pity of women complainants and keep them away from court, according to the local police.

Private A. Martin of Company A, First regiment, Denver, was killed and Private Louis H. Russell of Company A, Second regiment of Colorado State, was shot through the breast and will die. Another soldier was shot through the shoulder.

All telephone wires are down and telegraphic service is limited to one railroad wire. A report from this military camp at Ludlow says that 40 strikers are wounded.

At union headquarters it was declared that no reports of casualties among the strikers had been received. The military force totals about one hundred and fully four hundred armed strikers are in the hills. An effort to send recruits from Trinidad was delayed by the refusal of the train crew to take out the train.

Strikers in the hills above Cedar Hill also are said to be exchanging shots with a small detachment of troops under Lieutenant Lawrence, in trenches farther up the canyon.

The town in without fire fighting apparatus and when the bucket brigades appeared on the street the building was a mass of flames.

PEORIA HAS \$400,000 FIRE. Flames Destroy Three Blocks of Buildings Owned by Nelson Morris Co.—3,000 Cattle Die.

Peoria, Ill., April 22.—Fire swept over three blocks destroying the cattle feeding barns and a block of baled hay belonging to the Nelson Morris company on Monday. Six thousand cattle were housed in the sheds and barns. The others were turned loose and many with hides scorched raced through the streets in the stock yards district. One bunch of 50 lodged in the Illinois river and swam to the opposite shore. The fire burned for nearly three hours and nearly every fire fighting piece of apparatus in the city was sent to the scene. The loss is estimated at \$400,000.

FLASHES OFF THE WIRE. Washington, April 21.—Members of the house of representatives decided on Saturday to present a wedding gift to Miss Eleanor Whitte, who is to become the present administration when she is married to Secretary McAdoo on May 7.

Chicago, April 21.—Three men were stabbed and beaten in front of the municipal lodging house at North Union avenue and West Washington boulevard, following an argument with several others over the attitude assumed by President Wilson on the Mexican situation. The assailants escaped.

Denver, Colo., April 21.—Robert Hillard, the actor, was married here to Mrs. O. H. Hillard, daughter of James Everhard, a millionaire of New York. The bridegroom's son, Lieut. Robert Hillard, U. S. N., attended the wedding.

Wife Divorces Ex-Governor. Dr. Ida Noyes McIntyre Freed From Former Executive of Colorado by Court Process.

Denver, Colo.—Arm in arm, as if they were re-enacting the scene of their nuptials at the altar 15 years ago, instead of matrimony, the divorcee, Mrs. Ida Noyes McIntyre, governor of Colorado in 1904, led her wife into court at Everett, Wash. Arm in arm the pair left the court, but not as husband and wife. Dr. Ida Noyes McIntyre obtained a divorce on the sole ground of non-support.

Evidently Opposed to Suffrage. Reno, Nev.—George Wingfield, millionaire mine operator, gave out an interview in which he said that if women were allowed to vote in Nevada he would sell his mining, farming and banking interests and leave the state.

If You're Fat, Sit on the Floor. Boston.—"Forwaker chairs and sit on the floor," is Dr. A. M. Bradford's advice to persons suffering from obesity.

Chauffeur Gets Jail Sentence. New York.—Bettina J. Eddy, who drove the machine on the wrong side of the street to avoid striking a woman, Henry C. Eddy, a chauffeur, was arrested and sentenced to 30 days in jail for reckless driving.

"Pickpocket Trust" Is Wise. New York.—The "pickpocket trust" employs an aged woman as a "professional mother" to win the pity of women complainants and keep them away from court, according to the local police.

FLAMES OFF THE WIRE. Washington, April 21.—Members of the house of representatives decided on Saturday to present a wedding gift to Miss Eleanor Whitte, who is to become the present administration when she is married to Secretary McAdoo on May 7.

Chicago, April 21.—Three men were stabbed and beaten in front of the municipal lodging house at North Union avenue and West Washington boulevard, following an argument with several others over the attitude assumed by President Wilson on the Mexican situation. The assailants escaped.

Denver, Colo., April 21.—Robert Hillard, the actor, was married here to Mrs. O. H. Hillard, daughter of James Everhard, a millionaire of New York. The bridegroom's son, Lieut. Robert Hillard, U. S. N., attended the wedding.

Wife Divorces Ex-Governor. Dr. Ida Noyes McIntyre Freed From Former Executive of Colorado by Court Process.

Denver, Colo.—Arm in arm, as if they were re-enacting the scene of their nuptials at the altar 15 years ago, instead of matrimony, the divorcee, Mrs. Ida Noyes McIntyre, governor of Colorado in 1904, led her wife into court at Everett, Wash. Arm in arm the pair left the court, but not as husband and wife. Dr. Ida Noyes McIntyre obtained a divorce on the sole ground of non-support.

Evidently Opposed to Suffrage. Reno, Nev.—George Wingfield, millionaire mine operator, gave out an interview in which he said that if women were allowed to vote in Nevada he would sell his mining, farming and banking interests and leave the state.

If You're Fat, Sit on the Floor. Boston.—"Forwaker chairs and sit on the floor," is Dr. A. M. Bradford's advice to persons suffering from obesity.

Chauffeur Gets Jail Sentence. New York.—Bettina J. Eddy, who drove the machine on the wrong side of the street to avoid striking a woman, Henry C. Eddy, a chauffeur, was arrested and sentenced to 30 days in jail for reckless driving.

CAPTAINS OF BLOCKADING BATTLESHIPS

These are the commanders of five of the American battleships sent to blockade the Mexican ports. They are: (1) Capt. John J. Knapp, commanding the Connecticut; (2) Capt. Joseph L. Joyce, commanding the New Jersey; (3) Capt. Robert L. Russell, commanding the South Carolina; (4) Capt. John H. Gibbons, commanding the Louisiana, and (5) Capt. Roy C. Smith, commanding the Arkansas.

BEVERIDGE IS NAMED TRIES TO KILL MAYOR

JOHN PURROY MITCHEL ESCAPES ASSASSIN'S BULLET.

New York, April 21.—Michael P. Mahoney, the madman who fired a shot at Mayor Mitchell and wounded Frank L. Polk, was arraigned on Saturday before Magistrate Max Simms in the Tombs police court. He was held in \$25,000 bail on a charge of deliberately attempting to murder the mayor after an examination which followed the arrest.

The platform of the party, unanimously adopted, pledges the party to work for the elimination of all breweries and saloons in the state and endorses the Hobson resolution now before congress. The platform attacks the Democratic administration and criticizes its Mexican policy.

Other planks indorse the initiative, referendum and recall for all elective and judicial offices, a state-wide direct primary law, the short ballot, equal suffrage for women, home rule for cities, elimination of the judiciary from politics, prohibition of injunctions in labor disputes, revision of state laws to eliminate technicalities, a minimum wage for women, free school books and a law to compel the giving of ample notice before a strike or lock-out.

Another plank provides for the approval of any treaty with Colombia which provides for the payment of \$25,000,000 to that country.

Senator Niles Poindeux of Washington launched a boom for the nomination of Theodore Roosevelt as the presidential candidate of the Progressive party in 1916, in a speech before the convention.

THREE DROWN; SIX SAVED

Cadets Lose Lives When Shell Collapses on Nagawicka, In Wisconsin.

Delaford, Wis., April 21.—Three cadets, members of the St. John's Military academy crew, were drowned but six were rescued after a violent squall on Saturday. The dead: H. W. Kelly, St. Louis; Donald McGee, Hinsdale, Ill.; Fred Sprule, Farmington, Minn. The accident was seen from the cottage of Walter Rugee on the shore of the lake. Mr. Rugee and two others immediately went to the assistance of the boys and rescued six, who were clinging to the side of the shell. The three others had disappeared in the water.

Experts May Run Trains. Chicago, April 21.—Warren S. Stone, grand chief engineer of the Brotherhood of Locomotive Engineers, sent a telegram to President Wilson offering to furnish engineers, familiar with Mexican railroads, to handle all troop trains at the front.

Shot in Hunting Accident. Bloomington, Ill., April 21.—Endeavoring to shoot ducks with a revolver, Alfred Powell, a youth of Watsoka, was shot in the abdomen when the weapon was accidentally discharged. His condition is critical.

Flnds Nurse Work Drudgery. Boston, April 21.—Miss Helen Cudahy, who sought to learn nursing, has decided not to stay. "I thought training meant taking care of patients. I find it is three-fourths housework and drudgery."

Uphold Kansas Insurance Law. Washington, April 21.—The supreme court here today affirmed a lower court decision that the Kansas law of public insurance may be regulated by legislatures. A law of Kansas to limit and regulate charges was declared constitutional.

High Court Upholds \$42,000 Fine. Washington, April 22.—A fine of \$42,000 imposed on the Hooking Valley road for extending credit to the Sunday Creek Coal company in violation of the interstate commerce act was upheld by the supreme court.

Land on the Doorkeeper. Washington, April 22.—Representative Bartlett of Georgia, struck by a doorkeeper of the house because of the misunderstanding over the identity of the representative and the admission of Mrs. Bartlett to the gallery.

Dr. T. J. Kemp Must Serve Term. Washington, April 22.—The supreme court decided that Dr. T. J. Kemp, son-in-law of Senator Duncan, Fletcher of Florida, must serve a two-years sentence on his conviction for perjury following a criminal operation.

Chauffeur Gets Jail Sentence. New York.—Bettina J. Eddy, who drove the machine on the wrong side of the street to avoid striking a woman, Henry C. Eddy, a chauffeur, was arrested and sentenced to 30 days in jail for reckless driving.

"Pickpocket Trust" Is Wise. New York.—The "pickpocket trust" employs an aged woman as a "professional mother" to win the pity of women complainants and keep them away from court, according to the local police.

FLAMES OFF THE WIRE. Washington, April 21.—Members of the house of representatives decided on Saturday to present a wedding gift to Miss Eleanor Whitte, who is to become the present administration when she is married to Secretary McAdoo on May 7.

Chicago, April 21.—Three men were stabbed and beaten in front of the municipal lodging house at North Union avenue and West Washington boulevard, following an argument with several others over the attitude assumed by President Wilson on the Mexican situation. The assailants escaped.

Denver, Colo., April 21.—Robert Hillard, the actor, was married here to Mrs. O. H. Hillard, daughter of James Everhard, a millionaire of New York. The bridegroom's son, Lieut. Robert Hillard, U. S. N., attended the wedding.

Wife Divorces Ex-Governor. Dr. Ida Noyes McIntyre Freed From Former Executive of Colorado by Court Process.

Denver, Colo.—Arm in arm, as if they were re-enacting the scene of their nuptials at the altar 15 years ago, instead of matrimony, the divorcee, Mrs. Ida Noyes McIntyre, governor of Colorado in 1904, led her wife into court at Everett, Wash. Arm in arm the pair left the court, but not as husband and wife. Dr. Ida Noyes McIntyre obtained a divorce on the sole ground of non-support.

Sailors.

Mexican Troops Fire on U. S. Men
From House-tops—Women and
Children Flee to Vessel During
Fierce Gale—Admiral Fletcher
Sends Report of Engage-
ment at War De-
partment at Wash-
ington.

Washington, April 22.—The war is on. Acting under orders from the secretary of the navy to block the port of Vera Cruz and seize the customs house, Admiral Fletcher, in charge of the American forces, landed marines from the Utah, Florida and Prairie and proceeded to take the customs house.

A sharp engagement between the American and Mexican forces followed. Four American marines were killed and 20 were wounded. Two hundred Mexicans were killed.

According to the report from Admiral Fletcher, the Mexican troops did not oppose the landing of the marines, but opened fire after the Americans had taken possession of the customs house. The Mexicans employed artillery and made a desperate effort to drive the Americans out.

U. S. S. Prairie Shells Mexicans. Admiral Fletcher at once ordered the Prairie to bring her big guns into play, and from her place in the harbor she proceeded to shell the Mexicans out of their position.

The Prairie was assigned to shell the city for the reason that she is of lighter draft than either of the big battleships and by approaching nearer to the water front could place her shells with greater precision.

All of this occurred while a great gale was gathering just outside the breakwater. The Mexican coast in the vicinity of Vera Cruz is subject to frequent visitations of "northers," among the most furious storms encountered anywhere in the world. These storms develop such violence that the customs house and other buildings on or near the water front are whipped with spray, although the breakwater which protects the city is one of the best of its kind anywhere.

Admiral Fletcher reported that he was holding the customs house and the section of the city in which the American consulate is located. The customs house and the consulate are within a few blocks of each other.

U. S. Dead and Wounded. The American casualties and the men wounded in the first engagement were as follows:

The dead—Coxswain Shoemaker, Corporal Haggerty, marine corps; Seaman Pouisset.

The wounded—J. F. Piese, C. L. Leane, C. D. Cameron, U. S. Schwartz, D. L. MacMillan, private marines, and

Electrician Geisbume of the battleship Florida.

Nathan Schwartz, seaman, nineteen, New York; Charles J. Leahy, ordinary seaman, seventeen, New York city, electrician, third class; Edward A. Osborne, eighteen, Quincy, Mass.; C. D. Cameron, ordinary seaman, eighteen, Brooklyn, N. Y., and John F. Place, twenty, Newark, N. J. All these were blue-jackets from Florida, not marines.

Gale Stops Refugees. According to dispatches received from Vera Cruz earlier in the day the consulate was crowded with American women and children waiting to be taken off in one of the vessels chartered by the United States and waiting in the harbor. The Esperanza was reported as ready to sail, but owing to the gale did not put out. She still had accommodations for several hundred refugees.

Receipt of word from Admiral Fletcher that fighting had begun, and that four marines had been killed, galvanized the war and navy departments into immediate action.

Washington, April 22.—The navy department received an official dispatch from Fletcher stating that the American dead and wounded have been removed to the ships. The Chester has reached Vera Cruz. In response to a wireless request from Secretary Daniel R. Adams Fletcher dispatched the following full account of the seizure of Vera Cruz by the American forces. The dispatch is dated Vera Cruz, 10 p. m., and reached Washington shortly after one o'clock.

Admiral Fletcher's Report. Vera Cruz, April 22.—Three hundred marines composed the first landing party. They reached the shore at exactly 12 o'clock.

The federal telegraph and cable offices were first occupied. Up to this time no Mexican troops were in sight; but later they were discovered hiding in the house tops and the church towers.

The first shot fired was by a private. It hit a marine near the cable office who died later.

Mexicans Opened Fire. The first was opened up by the Mexican forces at 12:15. At 12:25 five companies of marines were in action.

A steady fire was being delivered against the Americans from the old church tower, and to put these "snipers" out of action a three-inch field piece from the Florida, commanded by Ensign Crespi, put five shots into the tower. This cleared the American consulate from all danger.

Marines Protected by Warship. At 1:30 Utah landing force came ashore near the barracks protected by the fire from the transport Prairie.

By this time the Mexican firing had been checked and a few English marines were sent to guard the British consulate.

The Mexicans soon got into action again and at two o'clock the firing had become furious. Up to this point two Americans had been killed and seven wounded.

Capt. Hughes Warns Huerta General. The Prairie was still firing occasionally and this had a muzzling effect. At three o'clock Captain Hughes came ashore to make an observation of results. As he passed by the Florida's three-inch field piece he called out to the firing squad:

"Are you having as much fun as you expected?"

At 3:30 Captain Hughes tried to get word to General Maas, the Mexican commander, that if firing did not cease the town would be bombarded. If this word reached General Maas it produced little result. Firing continued. The marines held their position. The jackies advanced along the second street from the water front and were stationed among the custom house buildings. This brings them close up to the principal plaza. Mexican citizens now declare that most of their troops are out of the city.

Senate Empowers the President. Washington, April 22.—After an all night session the resolution adopted

by the house, which authorized the president to use the U. S. army and navy to oust Huerta from the presidency of Mexico and punish those guilty of insulting the American flag, was adopted by the U. S. senate, 72 to 13, after many speeches that will be historic. Senators Lodge and Root set forth in their speeches reasons why the insult to the flag could not be the sole motive for interference in Mexico by force of arms.

Senator Root, once secretary of state, and before that secretary of war, and one of the accepted world's authorities on international law, declared in the debate that justification of what is about to be done and what already has been done in Mexico cannot be limited by a question as to number of guns that shall be fired in a salute of apology or by the manner of firing the salute in question.

See War Affairs. Experts in foreign affairs take the ground that war has been proclaimed, and that the outrage upon American lives and property must be considered in justification of the intervention steps taken and of such other steps as may be taken. There will be an effort in conference to force the acceptance of the original resolution, which came to congress from the state department specifically mentioning Huerta as the object of attack.

But events of the last 24 hours may make this effort futile. The death of the marines at Vera Cruz caused more than one senator to change from opposition to the Lodge substitute upon specifically mentioning Huerta as the object of attack.

Williams Fights Change. Senator John Sharp Williams of Mississippi, who was the one member of the foreign relations committee to stick for the resolution in the form adopted by the house, is supporting the committee resolution in the hope that in conference it will be put back in its original form. His theory is that war is an easy thing to enter into, but a mighty hard thing to get out of, and that if matters can be limited to Huerta it will be possible for our forces to retire from Mexico as soon as the dictator is driven out of the country.

Tense Over Marines' Death. Meager reports of the engagement at Vera Cruz had filtered to the capitol when the senate resumed its session at eight o'clock. The four Americans dead in Vera Cruz, the 20 wounded, and the 200 Mexicans reported killed in the taking of the city, became the text of the talk, mentioned in a hushed voice, and greeted with a solemn silence throughout the senate chamber, packed to suffocation.

As the shuttle of debate was thrown back and forth a full quorum of the house of representatives crowded the rear of the senate hall.

Secretary of State Bryan, himself often referred to in the debate, Secretary of War Garrison, Secretary of the Navy Daniels, Postmaster General Burleson, Secretary of the Treasury McAdoo and Secretary to the President Tamm all sat about the chamber. They listened eagerly and held whispered conferences as the discussion progressed.

The diplomatic gallery was filled with members of the foreign corps, with Ambassadors Spring-Rice of Great Britain at their head. As the hours dragged along and the news from Vera Cruz spread through Washington, throngs of fashionably gowned women and spectators from every walk of life packed the galleries and thronged the corridors of the senate wing of the capitol.

The Republican side of the senate, led by Senator Root, demanded that the "justification" proposed in the resolution for a movement in force against Mexico be founded not on the Tampico incident, but on the long series of outrages against American citizens and their property, including the outrages in northern Mexico, which the constitutionalists are in control.

Senators Reed and James vigorous-

ly defended the committee resolution, declaring that the insult to the flag at Tampico justified all that the resolution provided for.

As the night wore on, and senator after senator demanded an opportunity to be heard, the atmosphere in the chamber grew more and more tense. Senator Fall of New Mexico made a lengthy plea for a campaign that would cover the length and breadth of Mexico.

Senator Root opened the night session with a speech supporting the Lodge substitute.

"I shall not prolong this debate," he said, "for I believe that whatever action we shall take ought to be taken today. There should be no further delay."

Senator Root said that the foreign relations committee resolution, while omitting the name of Huerta, made it plain that it was directed against him. He expressed the "highest regard for the president and the highest confidence in his purposes."

No Question of Confidence. "But we are not asked to express our confidence in him," he continued, "we are asked as a part of our duty here to declare a certain course of action in certain conditions to be 'justified.' We are called upon to do our duty to the 100,000,000 people of this country and our duty to the civilized world."

The resolution, Senator Root said, called for "forceful armed compulsion of the de facto government of a friendly nation to make amends for an insult to the flag of this country."

"We cannot justify this," he continued, "on our confidence in the president. We must justify ourselves before the conscience of the people of our country and before the eyes of the civilized world. What is that justification?"

Mark you, I do not say there is no justification. I ask what it is. Senator Root reviewed the Tampico incident as the avowed "justification" by the president. He said the incident was an "insult to our flag."

War in Its Essence. "Deeply as the president desires to limit the scope of his action to the maintenance of peace, all history suggests that once lighted the fires of war cannot be quenched at will. It is war in its essence that we are to vote to justify. What will be the results of those incidents no man can tell."

Responsibility on Senate. "In a situation of high seriousness such as now confronts congress it is well to remember the responsibility on the senate," said Senator Lodge in opening the debate in the morning. "The power to declare war rests under the Constitution with congress."

"When the president lays an international controversy before congress he takes the last step that precedes war. The president might have taken further steps, but he has come to the body, which alone has power to declare war. I think he has done well."

"This resolution uses the word 'justify' instead of 'authorize.' The result will be the same. This resolution does not contemplate the declaration of war. The president in his message disclaimed any hostility toward the Mexican people. But this resolution carries with it armed intervention."

"The consequences of armed intervention are in many respects precisely the same as war. But they present a task less capable of speedy completion; less fertile in speedy glory of victories won and may bring a long period of the exercise of what would be the police power in a foreign country, involving vast expenditures, great loss of life, perhaps, and, after months and possibly years, possibly only the satisfaction of feeling that we had brought back peace and order and liberty to a distracted country."

"I earnestly hope that war is not in question," said the president. "We do not desire to control Mexico. Our feelings for the people of that country are of deep and genuine friendship. The people of Mexico are entitled to settle their own domestic affairs in their own way. We sincerely desire to respect their rights. Mexico is torn by civil strife. Only part of the country is under General Huerta's control."

War Waged Against Huerta. "If armed conflict should unhappily come as a result of his attitude of personal resentment towards this government, we should be fighting only General Huerta and those who adhere to him, and give him support, and our object would be only to restore to the people of the distressed republic the opportunity to set up their own laws."

The president said there was no thought of aggression or aggrandizement on the part of the United States. He asked merely for approval of his intention to use his own prerogative as commander-in-chief of the army and navy to order the two branches of the military service into action for the purpose of compelling President Huerta to salute the American flag.

U. S. Consul General Slain. Washington, April 22.—There is a rumor that Consul General Shanklin has been killed and about forty Americans injured in riots at Mexico City. No official confirmation of the report has been received here.

Women and Children Flee. Vera Cruz, April 22.—Two sections of the special train bearing refugees from Mexico City have arrived here. A third section is expected soon.

Most of the passengers on board the trains are Americans, the majority being women and children. There was no evidence of alarm among these people when they arrived here. In fact, they looked more like a picnic party than refugees from a danger zone.

Imports via Pacific coast ports were of the value of \$3,000,000. Imports via the northern frontier were valued at \$31,000,000, received through the fifteen custom houses, the most important of which were at La Rade, with \$13,500,000; Juarez, \$7,500,000; Porfirio Diaz, \$7,000,000; Nogales, \$2,500,000, and La Morita, \$1,800,000.

There is no question as to the terrific character of the blow which will be dealt Huerta by the establishment of the blockade.

Lingerie Catches Woman Thief. West Orange, N. J.—Following many clothesline thefts, Edna M. Crane baited the line with costly lingerie and waited near with a revolver. Annie Ridgely, a negro, walked into the trap.

Sells Sparrows for Canaries. Hastings, N. Y.—A peddler reaped a harvest when he sold 100 sparrows as canaries. When the golden color of the "painted" birds began to fade, the buyers were highly indignant.

Dog Locates Money Treasures. Lenox, Mass.—Edward Fitzgerald's Scotch collie, Bess, has located more than one thousand pounds of money in trees. When she spots a tree filled with money, she stands by and barks until her master takes notice.

Convicted 415 Times. London.—Sentenced to 14 days for begging, William Jeffery boasted that he had been convicted 415 times, that he had taken 1,200 policemen to arrest him.

CAPTAINS OF BLOCKADING BATTLESHIPS

These are the commanders of five of the American battleships sent to blockade the Mexican ports. They are: (1) Capt. John J. Knapp, commanding the Connecticut; (2) Capt. Joseph L. Jayne, commanding the New Jersey; (3) Capt. Robert L. Russell, commanding the South Carolina; (4) Capt. John H. Gibbons, commanding the Louisiana; and (5) Capt. Roy C. Smith, commanding the Arkansas.

BEVERIDGE IS NAMED TRIES TO KILL MAYOR

NOMINATED FOR U. S. SENATE BY INDIANA CONVENTION.

Roosevelt's Boom Is Launched—Columbia Treaty, Providing Payment of \$25,000,000, Opposed.

Indianapolis, April 21.—The Indiana Progressive convention nominated Albert J. Beveridge here Saturday as the candidate of the party for United States senator. The nomination was unanimous and Mr. Beveridge has accepted. He was Republican senator from Indiana from 1899 to 1911.

The platform of the party, unanimously adopted, pledges the party to work for the elimination of all breweries and saloons in the state and to endorse the Hobson resolution now before congress. The platform attacks the Democratic administration and criticizes its Mexican policy.

Other planks endorse the initiative, referendum and recall for all elective and judicial offices, a state-wide direct primary law, the short ballot, equal suffrage for women, home rule for cities, elimination of the judiciary from politics, prohibition of injunctions in labor disputes, revision of state laws to eliminate technicalities, a minimum wage for women, free school books and a law to compel the giving of ample notice before a strike or lock-out.

Another plank opposes the approval of any treaty with Colombia which provides for the payment of \$25,000,000 to that country.

Senator Niles Poindestoxer of Washington launched a boom for the nomination of Theodore Roosevelt as the presidential candidate of the Progressive party in 1916, in a speech before the convention.

THREE DROWN; SIX SAVED

Cadet Lose Lives When Shell Capsizes on Lake Nagawicka, in Wisconsin.

Delafield, Wis., April 21.—Three cadets, members of the St. John's Military academy crew, were drowned but six were rescued after a violent squall capsized their shell on Lake Nagawicka on Saturday. The dead: I. W. Kelly, St. Louis; Donald Mogg, Hinesdale, Ill.; Fred Sprule, Farmington, Minn. The accident was seen from the cottage of Walter Rugee on the shore of the lake. Mr. Rugee and two others immediately went to the assistance of the boys and rescued six, who were clinging to the side of the shell. The three others had disappeared in the water.

Experts May Run Trains. Chicago, April 21.—Warren S. Stone, chief engineer of the Brotherhood of Locomotive Engineers, sent a telegram to President Wilson offering to furnish engineers, familiar with Mexican railroads, to handle all troop trains at the front.

Shot in Hunting Accident. Bloomington, Ill., April 21.—Endeavoring to shoot ducks with a revolver, Alfred Powell, a youth of Waukegan, was shot in the abdomen when the weapon was accidentally discharged. His condition is critical.

Flinds Nurse Work Drudgery. Boston, April 21.—Miss Helen Cudahy, who sought to learn nursing, has decided not to stay. "I thought training meant taking care of patients. I find it is three-fourths housework and drudgery."

Boy Playing Sailor Drowned. St. Louis, April 21.—While "playing sailors" when they should have been at school, Henry Calbreath, Jr., eight years old, was drowned and his three girl companions narrowly escaped similar fates at Belleville, Ill., near here.

One of Founders of D. A. R. Is Dead. Wilkesbarre, Pa., April 21.—Mrs. William M. McCartney, one of the founders of the Daughters of the American Revolution, died here, aged seventy-seven. She was the widow of General McCartney of New York city.

Wife Shot in Divorce Fight. Bellaire, O., April 20.—Angry because his wife refused to pay half the costs of a divorce action he had begun against her, John Lugg shot her four times, inflicting probably fatal wounds. He then killed himself.

Hammerstein Barred From Opera. New York, April 20.—Oscar Hammerstein and his son, Arthur, are restrained from producing opera in Boston and New York until April 26, 1920, according to a decision of the supreme court.

Married Twice Within Week, Charge. Indianapolis, April 20.—Elvis Jones of Terre Haute, alleged to have married twice within the last week and to have three wives living here, was arrested, charged with bigamy. His most recent wife was arrested also.

Steamship on Fire in Gulf. Mobile, Ala., April 20.—The steamship Alm of the Seaberg Steamship line, with a cargo of sisal from Progreso, is reported on fire in the lower bay at Port Morgan. Fire tanks have been dispatched to her assistance.

13 SLAIN IN FIGHT

COAL STRIKERS AND TROOPS
CLASH NEAR LUDLOW,
COLO.

SCORE OF UNION MEN SHOT

One Soldier, Eleven Strikers and One Non-Combatant Among the Dead—Colony of Tents Used by Miners Burned.

Trinidad, Colo., April 22.—Thirteen men have been killed and two score wounded in a battle between striking coal miners and state militia, which started in a canyon near Ludlow, 15 miles from Trinidad, raged all day Monday and continued at night.

Firing ceased at ten o'clock, except for desultory shooting. At that hour the militia had surrounded a great body of miners in an arroyo near Savings canyon.

Strikers are rushing from Trinidad, Walsenburg and other neighboring camps to aid their fellows, and it is predicted that the fiercest labor battle in the history of the state will be begun. Additional militiamen also are being hurried to the scene. The dead include one soldier, 11 strikers and one non-combatant.

The big tent colony was destroyed completely by fire. The hundreds of women and children are being cared for by frantic citizens. Gen. Louis Tihes, strike leader, is among the dead.

Private A. Martin of Company A, First regiment, Denver, was killed and Private Louis Purcell of Company A, Second regiment of Colorado Spring, was shot through the breast and will die. Another soldier was shot through the shoulder.

All telephone wires are down and telegraphic service is limited to one railroad wire. A report from the military camp at Ludlow says that 40 strikers are wounded.

At union headquarters it was declared that no reports of casualties among the strikers had been received. The military force totals about one hundred and fully four hundred armed strikers are in the hills. An effort to send recruits from Trinidad was delayed by the refusal of the train crew to take out the train.

Master Mechanic Roach and Dischargee William finally named the engine and Superintendent Abrams took charge of the train.

Strikers in the hills above Cedar Hill also are said to be exchanging shots with a small detachment of troops under Lieutenant Lawrence. In trench without fire fighting apparatus and when the volunteer bucket brigade appeared on the scene the building was a mass of flames.

PEORIA HAS \$400,000 FIRE

Flames Destroy Three Blocks of Buildings Owned by Nelson Morris Co.—3,000 Cattle Die.

Peoria, Ill., April 22.—Fire swept over three blocks destroying the cattle feeding barns and a block of baled hay belonging to the Nelson Morris company on Monday. Six thousand cattle were housed in the sheds and it is estimated that 3,000 of them burned. The others were turned loose and many with hides scorched raced through the streets in the stock yards district. One bunch of 50 plunged into the Illinois river and swam to the opposite shore. The fire burned for nearly three hours and nearly every fire fighting piece of apparatus in the city was sent to the scene. The loss is estimated at \$400,000.

The same tufa excavations revealed monstrous elephants, hippopotami, rhinoceros, gigantic apes and many other animals either extinct or degenerated. The skeleton is believed to be much nearer than anything yet discovered to the original foundation of the human race.

SCHOOL IS 100 YEARS OLD. Ancient Trades Institution in Massachusetts Celebrates Its Centennial at Boston.

Boston.—The Farm and Trades school on Thompson's Island celebrated a century of training of boys in practical pursuits. The school is the oldest of its kind in the country and was a pioneer in introducing the teaching of sloyd and the establishment of a form of student government.

The speakers at the anniversary meeting included President A. Lawrence Lowell of Harvard and Charles Evans, secretary of the Chicago Historical society.

WIFE DIVORCES EX-GOVERNOR. Dr. Ida Noyes McIntyre Freed From Former Executive of Colorado by Court Process.

Denver, Colo.—Arm in arm, as if they were re-enacting the scene of their nuptials at the altar 15 years ago instead of matrimony's opposite phase, Albert W. McIntyre, governor of Colorado in 1904, led his wife into court at Everett, Wash. Arm in arm the pair left the court, but not as husband and wife. Dr. Ida Noyes McIntyre obtained a divorce on the sole ground of non-support.

Uphold Kansas Insurance Law. Washington, April 22.—The Supreme court held that fire insurance is a matter of public business and may be regulated by legislatures. A law of Kansas to limit and regulate charges was declared constitutional.

High Court Upholds \$42,000 Fine. Washington, April 22.—A fine of \$42,000 imposed on the Hocking Valley road for extending credit to the Sunday Creek Coal company in violation of the interstate commerce act was upheld by the Supreme court.

Lands on the Doorkeeper. Washington, April 22.—Representative Bartlett of Georgia struck the doorkeeper of the house because of a misunderstanding over the identity of the representative and the admission of Mrs. Bartlett to the gallery.

Dr. T. J. Kemp Must Serve Term. Washington, April 22.—The Supreme court decided that Dr. T. J. Kemp, son-in-law of Senator Duncan U. Fletcher of Florida, must serve a two-years sentence on his conviction for performing a criminal operation.

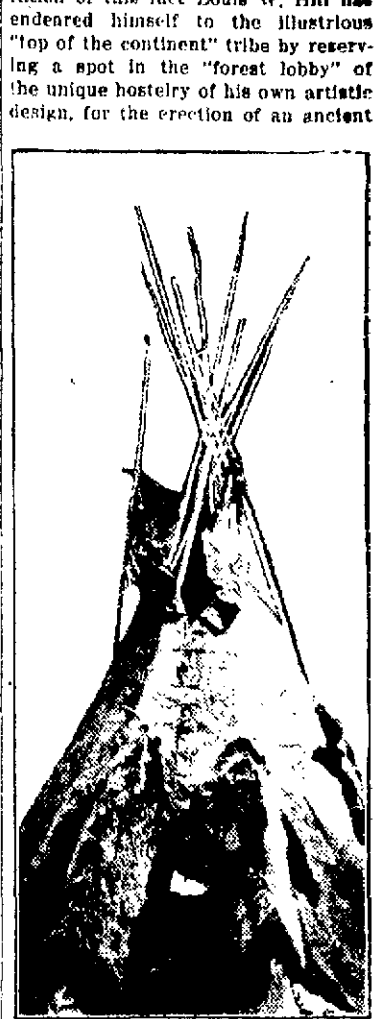

Chauffeur Gets Jail Sentence. New York.—Because he drove his machine on the wrong side of the street to avoid striking a woman, Henry Ochs, a chauffeur, was arrested and sentenced to 20 days in jail for reckless driving.

"Pickpocket Trust" Is Wise. New York.—The "pickpocket trust" employs an aged woman as a "professional mother" to win the pity of women complainants and keep them away from court, according to the latest police.

"SACRED TEPEE" IS REVERED

Old Buffalo Skin Tent Was Council Lodge of Blackfeet Nation Years Ago.

Glacier Park Station, Mont.—The site of the log hotel and annex in the shadows of the Rocky Mountains at the eastern gateway to Glacier Park marks a historical camping ground of the Blackfeet Indians. In commemoration of this fact Louis W. Hill has endeavored himself to the illustrious "top of the continent" tribe by reserving a spot in the "forest lobby" of the unique hostelry of his own artistic design, for the erection of an ancient

Old Buffalo-skin Tepee.

buffalo skin tepee, which more than 100 years ago was the council lodge of the Blackfeet nation. This "sacred tepee," with some of the antique trappings of the Blackfeet chiefs of early days, is the center of interest in the new playgrounds created by congress four years ago.

This probably is the only buffalo-skin tepee left from the bow-and-arrow days of the American Indian.

AFRICA YIELDS OLDEST MAN

Skeleton Hundreds of Thousands of Years Old Found in Desert in German Section.

Berlin.—That a highly-developed human race inhabited Africa many hundreds of thousands of years ago is shown, according to Dr. Hans Reck, professor of paleontology of Berlin, by the discovery of a perfectly preserved fossil human skeleton in the desert of German East Africa.

The skeleton was extracted from diluvial strata in a dry and desert canyon, once apparently a fertile, equatorial swamp. The fossil is one of the most remarkable in existence, being quite perfect in teeth, skull, ribs, breastbone and extremities, despite its incalculable age proved by fossils of extinct animals which surrounded it. The skeleton shows few signs of "undeveloped" humanity.

"At this geological epoch a very highly developed human race inhabited the African continent," declares the doctor. "The fossil was found in tufa limestone, and must have been deposited there when the existing desert was equatorial swamp; that is, at the period when central Europe was passing through the glacial epoch."

The same tufa excavations revealed monstrous elephants, hippopotami, rhinoceros, gigantic apes and many other animals either extinct or degenerated. The skeleton is believed to be much nearer than anything yet discovered to the original foundation of the human race.

SCHOOL IS 100 YEARS OLD. Ancient Trades Institution in Massachusetts Celebrates Its Centennial at Boston.

Boston.—The Farm and Trades school on Thompson's Island celebrated a century of training of boys in practical pursuits. The school is the oldest of its kind in the country and was a pioneer in introducing the teaching of sloyd and the establishment of a form of student government.

"Pickpocket Trust" Is Wise

ADMIRAL BADGER AND HIS FLAGSHIP

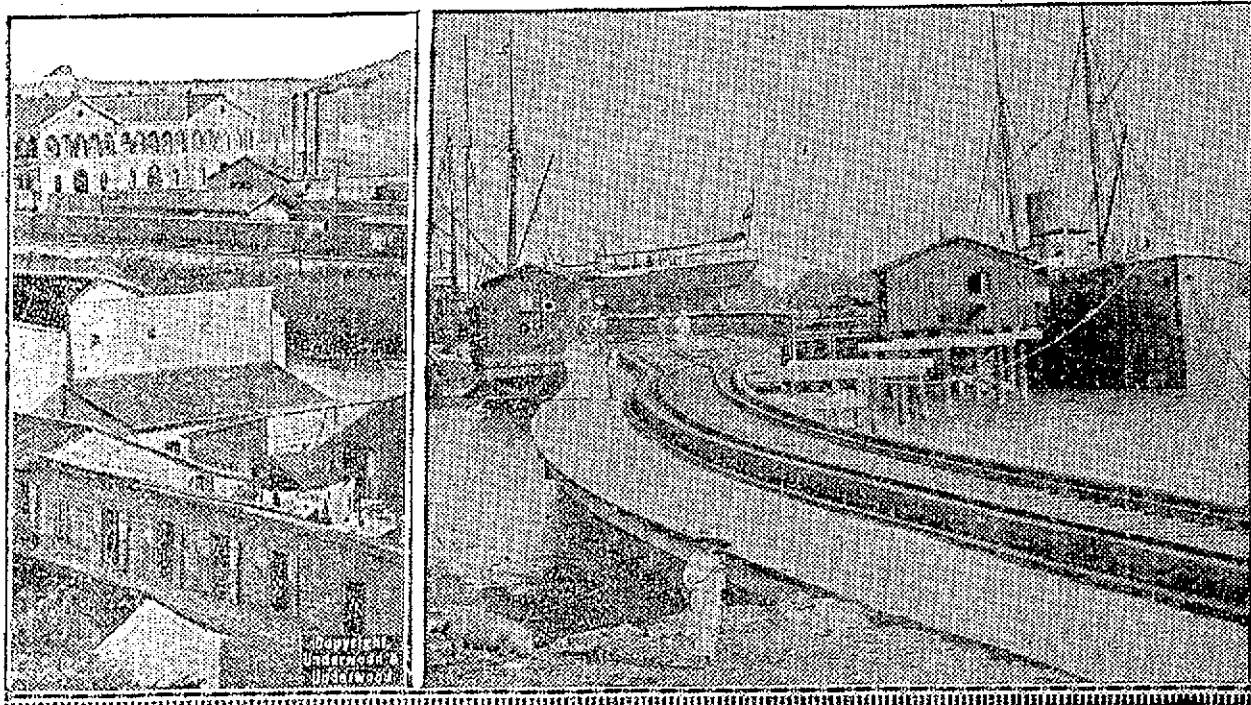

Rear Admiral Charles J. Badger, in command of the Atlantic fleet, ordered to Tampico to enforce the president's demand of a salute to the flag by Huerta forces there. The battleship Arkansas is the admiral's flagship.

ATLANTIC FLEET ON THE WAY TO TAMPICO

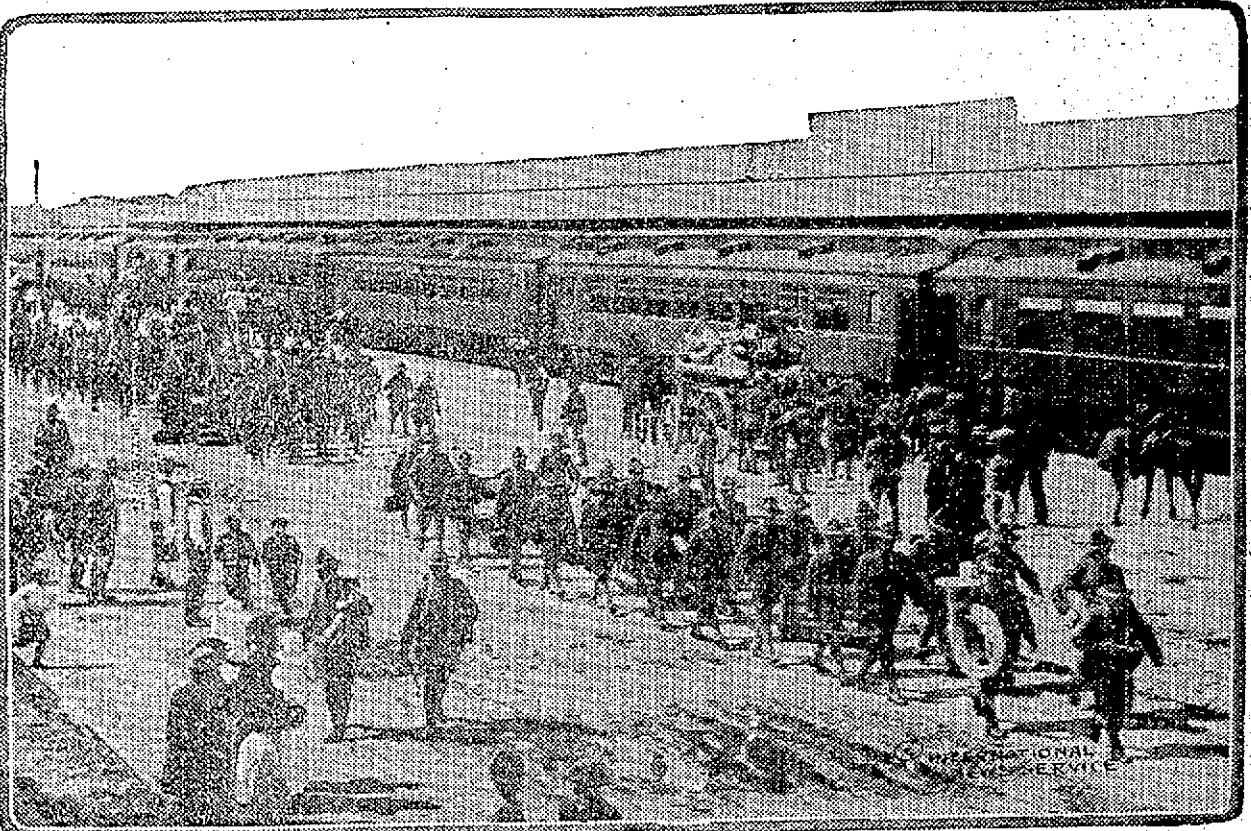

Here are some of the mighty battleships of the Atlantic fleet steaming at full speed for Tampico. Rear Admiral Badger, the commander, has orders to bombard that port, seize it or take any other measures which he may deem necessary.

TAMPICO CUSTOM HOUSE AND DOCKS

View of the custom house at Tampico, and of the docks. Rear Admiral Badger was given orders to seize this custom house if he thought it advisable. It is the shipping point for most of the Mexican oil.

AMERICAN TROOPS ARRIVE AT THE BORDER

In case it should be necessary to establish a blockade along the Mexican border, the troops in that part of the country were hurried to the line. A regiment is here seen detaining near Laredo, Tex.

STIRRING SCENES AT NAVY DEPARTMENT

Washington, D. C.—Officers attached to the navy department are planning themselves on the remarkable promptness with which each turn of the events of the busiest day in 15 years were met.

In the offices of the aides for personnel, for operations, and for material under officers toiled over the few loose ends of business but the great work of the first day—the issuance of

orders for the dispatch of the greatest fleet of American war vessels ever sent upon a "business" errand had been promulgated, signed, and were out of the office within six minutes from the time Secretary Daniels gave the first word.

Not since the days of 1898 has the navy department presented the scenes of activity that it did at this time. When, early in 1912 it became appar-

ent to President Taft that an army of potential occupation must be sent to the borders of the Rio Grande, the war department, which occupies the westerly side of the same building, enjoyed all the activity and all the attention that is now showered upon the navy.

London Writer in Revolt Against Alleged Wiles of the Vegetarians.

I want to warn meat-eaters against a cunning conspiracy to convert them into vegetarians. A man (whom I have since discovered to be a notorious meat-eater) lured me into a strange restaurant yesterday morning and got before me something that looked like

a mutton outfit. I cannot tell exactly what first aroused my suspicions, but suddenly approaching the outlet from behind I tore off its false grill and discovered it to be some nuts and potatoes in disguise. Then I saw through the whole game at once. Some desperate band of vegetarians are sitting up at nights training bananas to look like pork sausages, and teaching innocent little waifs to go about masquerading as devoted kidneys. If I had eaten that mutton outfit, as they called it, they would have lured me on

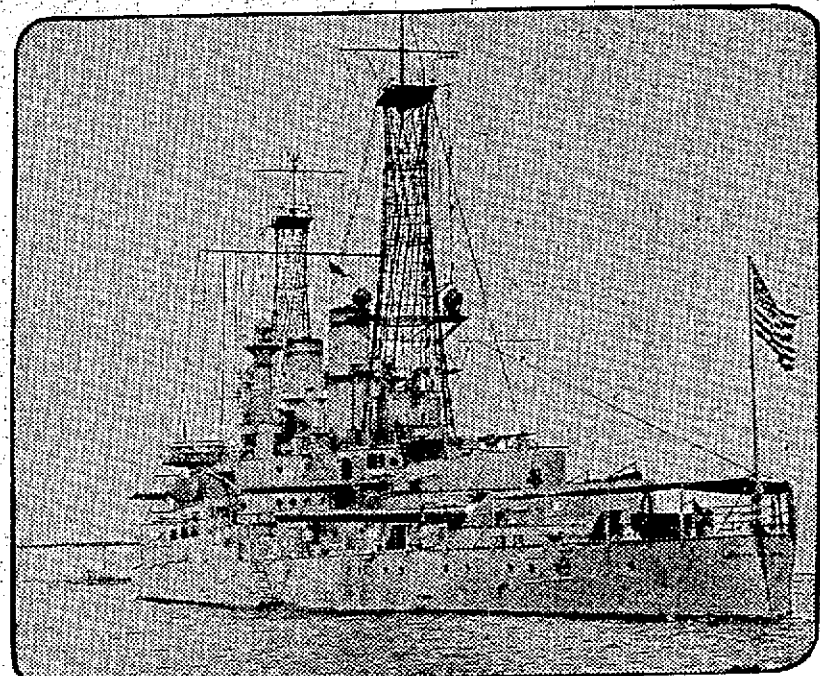

with celery steak and things until at last I should have been so firmly in their grip that they could boldly have thrown off their disguises. In a year or so I should have been tame enough to eat potato peelings from the hand. Meat-eaters all, we must band our selves together against the vegetarians, and fight them with our own weapons. As soon as I can find a chef who can make a mutton chop look like a boiled carrot I shall open an imitation vegetarian restaurant and send out men disguised in sandals and

COMMANDERS IN MEXICAN WATERS

1. Rear Admiral Charles J. Badger, commanding the Atlantic fleet; 2. Rear Admiral T. B. Howard, commanding the Pacific fleet; 3. Rear Admiral Henry T. Mayo, commanding the fourth division, at Tampico; 4. Rear Admiral Frank F. Fletcher, commanding the first division, at Vera Cruz.

UNITED STATES BATTLESHIP SOUTH CAROLINA

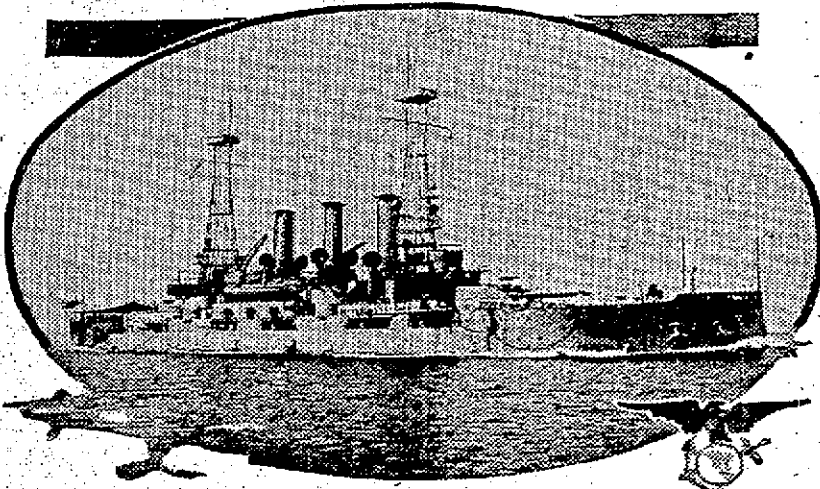

Among the 16,000-ton battleships in Admiral Badger's Atlantic fleet is the South Carolina. Her armament comprises 34 guns.

MARINES START FOR THE FRONT

United States marines starting from the Portsmouth navy yard to go aboard the vessels of the Atlantic fleet and hurry to Mexican ports.

ONE OF OUR BATTLESHIPS AT TAMPICO

The United States battleship Connecticut, one of the fighting vessels now at Tampico, is of 16,000 tons displacement and carries 46 guns in her various batteries.

Steamer was packed and jammed with navy officers whose leave had suddenly been curtailed, hastening to join their ships.

Officers' wives and sweethearts were, on hand to say good-by. So were a number of blue-clad marines from the Washington barracks hastening to supplement the marine companies in the battle fleet at the pleasure of the navy department.

When at 6:45 Tuesday night the Norfolk steamer pulled away from its dock, bound for Old Point Comfort and Hampton roads, where the bulk of the fleet lay at anchor, there were genuine wartime scenes. The big

It might be that there was a looming of war clouds on the southwestern horizon, but the spirit of worry was conspicuously absent. The general impression seemed to prevail among the officers and civilians of a peaceful, though perhaps lurks in the distance, was about to prove a glorious junket.

"Meet you in Mexico City," was the jocular expression of many a youngster bound south on his first chance at seeing active service.

Vassar Daisy Chain. The Vassar authorities do not like the prominence that is given to the "Daisy Chain." The girls selected to

carry the chain at commencement time are 24 of the prettiest girls, of course, but the general idea is that this constitutes the whole of the class day exercises, which it is declared, the authorities consider the much more important program.

GOVERNORS PLAN ANNUAL SESSION

Seventh Conference Will Be Held in City of Madison.

TO DISCUSS MANY SUBJECTS

Meeting Will Open in the Capital City, June 9 and Continue Four Days.—One Session for City of Milwaukee.

Madison.—The seventh annual conference of the governors of the United States will be held in Madison, June 9, 10, 11 and 12. On June 13 a session will be held in Milwaukee. Subjects of great importance to the country will be discussed.

On the opening day, Gov. Francis E. McGovern of Wisconsin, President Van Hise of the state university and President Carl Johnson of the Madison board of commerce will welcome the thirty visiting executives. That day there will be read the report of the committee on co-operation, of which Gov. Emmet O'Neal of Alabama is chairman. At night there will be a reception by the governor in the capitol and dancing in the assembly chamber.

On Wednesday, the second day, there will be an address by Gov. William Spry of Utah, followed by a general discussion. Following a luncheon by the university, the discussion will be continued. That evening there will be an executive session.

Thursday there will be discussions of "Uniformity of Laws Fixing the Conditions to Be Met by Foreign Corporations Before Doing Business in a State," "Extradition" and "Submission of the Governor's Recommendations in Bill Form."

Friday will be occupied with the problem of "Uniformity of Safety and Sanitation Laws for Places of Employment, Including Administrative Machinery." On Saturday the guests will go to Milwaukee.

The governors who have already sent their acceptances to Secretary Miles Riley are: Emmet O'Neal, Alabama; G. W. P. Hunt, Arizona; Elias M. Ammons, Colorado; Simeon E. Baldwin, Connecticut; C. R. Miller, Delaware; Park Trammell, Florida; John M. Slaton, Georgia; John M. Haines, Idaho; Edward P. Dunne, Illinois; George W. Clark, Iowa; W. N. Ferris, Michigan; S. W. Stewart, Montana; T. L. Oddie, Nevada; Samuel D. Felker, New Hampshire; William C. McDonald, New Mexico; M. R. Glynn, New York; F. M. Byrne, South Dakota; O. B. Colquitt, Texas; William Spry, Utah; Ernest Lister, Washington; Harry D. Hatfield, West Virginia; Francis E. McGovern, Wisconsin; and Joseph M. Carey, Wyoming.

Among men of nation-wide note who are expected to come to the meeting are former governors William Hodges Mann, Virginia; John Franklin Fort, New Jersey, and Albert W. Gilchrist, Florida.

Meeting of Music Teachers.

More than 100 state music teachers attended the opening session of the Wisconsin Music Teachers' association in Oshkosh auditorium, Milwaukee. Welcoming addresses were made by Mayor Badger and Prof. Liborius Semmann, dean of Marquette Conservatory of Music. The response was made by Arthur Locke, Madison, association president.

The program consisted of a concert by Miss Rose Phillips, pianist, and Mrs. Edward La Plante, mezzo solo. A reception then took place, followed by an automobile trip around the city.

The delegation attended in a body the concert in the Pabst theater by the Chicago Symphony orchestra and the Musical Society chorus.

"The Proper Relation of Musical and Technical Training" was discussed by Miss Adelphi T. Ricker. A concert was given by the following members of the faculty of the Wisconsin Conservatory of Music: Miss Katharine Clarke, contralto; Frederick Carberry, tenor; Frank O. Thompson, pianist, and the Dvorak trio, composed of Miss Pearl Brice, violin; Miss Grace Hill, cello, and Miss Winogene Hewitt, piano.

A paper was read on "Democracy and Music," by Prof. Peter W. Dykema, University of Wisconsin.

In the vocal section Bernhard Bronson talked on "English in Singing." Miss Wilma Sorensen, Janesville, talked on "The Relation of Music to Modern Compositions and the Violinist's Technique." Pupil selected from the public schools, under the direction of Miss Helen Poole, demonstrated the work accomplished followed by members of the faculty of the Wisconsin College of Music in a concert.

Wisconsin incorporations. Articles of incorporation were filed in the office of Secretary of State Donald as follows: Kenosha County Liberty league, Kenosha; no capital; incorporators, Charles Carstensen, A. G. Ritter, C. F. Stemm.

North Side Hospital and Training School for Nurses, Milwaukee; capital, \$5,000; incorporators, A. J. Weber, C. M. Schoen, John H. Junge.

Chippewa Land & Pastures company, Minnesota; capital, \$150,000; interest in Wisconsin, \$100,000.

Adam Mickiewicz association, Racine; capital, \$10,000; incorporators, Apolonia Dubrowsky and four others.

Badger Heating company, Milwaukee; capital, \$10,000; incorporators, D. J. Crowley, Oscar E. Sandberg, F. H. Corcoran.

Mormac company, Milwaukee; capital, \$7,500; incorporators, Hugh P. Morris, W. G. McSpadden, H. A. Popert, G. A. Doucette.

The General Utility Power company, a South Dakota corporation with \$750,000 capital and \$25,000 interest in Wisconsin, filed a statement to do business in this state.

Kilbourn Catering company, Milwaukee; capital, \$5,000; incorporators, F. Kilbourn, R. J. Iverson, C. Frederick.

Boulevard Realty company, Milwaukee; capital, \$30,000; incorporators, Henry Hunholtz, George Bauer, C. J. Rice.

T. M. Brewer Supply company, Milwaukee; capital, \$5,000; incorporators, T. M. Brewer, Alice Brewer, M. F. Robinson.

Berg & Jones Department Store company, Rockland; capital, \$20,000; incorporators, N. C. Berg, G. R. Jones, W. O. Jones, Thomas Davis, A. G. Oulene.

Pharmacy Applicants Examined.

The Wisconsin State Board of Pharmacy concluded the spring examinations of applicants for certificates, and sixty-one from over the state were passed upon out of ninety-two applicants.

Those who were granted registered pharmacist's certificates are: Joseph B. A. Dorszynski, Herbert Villanow, Walter H. Fischer, W. F. Luebner, Martin C. Kopf, Oscar A. Relaschel, Edmund H. J. Kochanski, Charles H. Karnatz, Frank R. Keating and Roy Garmanson, all of Milwaukee; Charles E. Stapleton, John E. O'Brien, Madison; George E. Elvers, Neenah; Reuben P. Plautice, Manitowish; Walter A. Hackbart, Wausau; W. F. Ziegenhagen, Racine; Arthur J. Belkosen, Kenosha; Frank L. Griffin, Owen; Horace L. Burnham, Richland Center; Le Roy G. Hoffman, Antigo; Louis A. Uesker, Watertown; Tony J. Muehlbauer, Arthur J. Brehm, Robert H. Leonhardt, Robert E. Otten, Sheboygan; Louis E. Self, Neilsville; Roy A. Fortum, Paul A. Dahl, Virquea; Albert F. Nettel, Crandon.

Assistant pharmacist certificates were granted to the following: Harold W. Hansen, Lake Mills; Charles S. Hocking, Waupaca; A. W. Streicher, E. V. Rudolph, La Crosse; Palmer E. Nelson, Cashton; Walter H. Melder, Waukesha; Frank H. Lightner, Randolph; T. H. Brock, W. C. Meyer, W. H. Kropp, Clarence Anderson, William E. McFarland, I. W. Fairfield, Otto Baarth, Louis H. Kreuser, Mary E. Machacek, Edwin H. Cora, Raymond A. Mess, C. J. Blanchard, Jerome M. Peters, A. A. Stylinke, W. J. Quinlan, Milwaukee; E. A. Babcock, Madison; Paul Lyon, Rice Lake; Robert J. Quinn, Leyland, Smith, Bangor; Charles H. Kanosh, James P. Hagan, Westby; H. F. L. Meter, West Allis; Holger Rasmussen, Wilheo; Charles G. Pable, Oshkosh.

Scottish Rite Masons Meet.

The fifty-first semi-annual reunion of Wisconsin consistory, Ancient Accepted Scottish Rite of Freemasonry northern Wisconsin Jurisdiction, opened at the Scottish Rite cathedral, Milwaukee. The reunion will continue four days.

The Wisconsin Perfection lodge presided at the opening session. Presiding at the various degrees were: Fourth degree; secret master, Robert T. Hazelwood; fifth degree, perfect master, James Forrest; sixth degree, intimate secretary, Edwin H. Hewitt; ninth degree, master elect of nine, Richard Jefferson; fourteenth degree, grand elect-Mason, Murray H. Hunter. Music by the consistory choir, under the direction of William H. Williamson, was given.

Commission Asks Test of Risk Law.

A ruling on the term "safe place of employment" is laid down in a decision of the state industrial commission, and it is possible the courts will be asked to pass upon it.

The case involved is that of Charles F. Ottman vs. the John Schroeder Lumber company. Ottman was holding a pile with a rope while it was being driven. In the rebound from one of the hammer's blows, Ottman's arm was caught and cut off.

Under the law he was entitled to 200 weeks' compensation at 65 per cent of his weekly wage, or \$1,072, which the commission granted him. His attorneys, however, declare that he is entitled to an extra 10 per cent, because his employer failed to provide a safe place of employment.

The commission says: "We think the provision of the compensation act quoted was intended to apply only to those statutes and orders of the industrial commission which enjoined a specific duty in regard to safety. We would be glad to have the question at law determined by the court."

The application of Joseph Kolb, "King of Jones Island," for compensation from the Milwaukee-Western Fuel company, was denied by the commission. Kolb was a foreman in the company's yard. He cut off the ends of two fingers in a boiling block. He secured eight weeks' disability and then went back to work. After working three months he left and applied for permanent disability.

Name Superintendents of Institutes.

Prof. C. P. Norwood was named superintendent of farmers' institutes to succeed George McKerrow, Pewaukee, and George W. Elzer was appointed head of the department of physical education at the annual meeting of the board of university regents. Professor Norwood is a graduate of the University of Wisconsin, College of agriculture. He has been an educator, an expert in charge of department of agriculture, head of the agricultural buildings of the University of Wisconsin in 1909. These mounds, one of which represents a bird with outstretched wings and the other, a cart, belong to the group of about thirty mounds found near Lake Mendota. The mounds were built in prehistoric times by the ancestors of the Winnebago Indians, and are called mounds.

Indian Mounds Replaced.

New bronze tablets, six by eighteen inches, are soon to replace the old wooden tablets which were placed on the Indian effigy mounds near the agricultural buildings of the University of Wisconsin in 1909. These mounds, one of which represents a bird with outstretched wings and the other, a cart, belong to the group of about thirty mounds found near Lake Mendota. The mounds were built in prehistoric times by the ancestors of the Winnebago Indians, and are called mounds.

Wisconsin Patents.

Fate, Louis E. Bogen, Milwaukee, assignor, by mesne assignments, to Allie-Chalmers Manufacturing company, motor control system; Isaac Deatherage, Duluth, assignor of fifty-five one hundredths to J. P. Simon, F. W. Koehler and J. F. Flynn, Superior, paper cutting attachment for tables; William S. Catter, Milwaukee, assignor, to James M. Johnson, Rice Lake, bath cabinet; Anton T. Luckenbach, Neenah, wash tub supporting leg; Harrison J. Mitchell, assignor to the Berlin Machine works, Beloit.

College Men Plan Meeting.

The first annual Wisconsin intercollegiate prohibition contest will be held at Carroll college on May 15.

Three schools will be represented in the contest. The slogan of the organization is "From the College Men of Today Will Come the Promoters of Temperance Tomorrow."

The officers of the President, S. D. Stearns, Madison; vice-president, Paul Lewis, Lawrence college, Appleton; secretary and treasurer, Z. Davis, Carroll college, Waukesha.

WISCONSIN NEWS TERSELY TOLD

La Crosse.—For having 16 picket in his possession, Henry Stefnke, Jr., was arrested and fined \$50 and costs.

Racine.—The henhouses of three farmers near Racine were raided in one night and 200 valuable fowls carried away.

Racine.—The Racine Young Men's Christian association will on June 10 start a week's campaign for a \$250,000 new building fund.

La Crosse.—Mr. and Mrs. A. H. Arnold of Wausau celebrated the fortieth anniversary of their marriage. Seven children were among the guests present at the celebration.

Racine.—More than two hundred sheep have been killed in Racine county within the last month by dogs. Sheep raisers have organized to conduct a campaign of dog extermination.

Jefferson.—The Jefferson high school lost both sides of an inter-scholastic debate held upon the question of the minimum wage. Waterloo defeated Jefferson at Waterloo and Port Atkinson won from Jefferson here.

Green Bay.—Too drowsy to continue to his home in Oneida, Wisconsin Skendore, an Indian, made himself as comfortable as possible between the railroad tracks. A train struck him. He may lose a leg and an arm.

Ashland.—Fifteen-year-old Rodney Osborn, son of Mail Carrier J. M. Osborn, was bitten by a mad hog. The animal was shot and the boy was sent to the Pasteur Institute in Madison. All dogs in the city will be muzzled or shot.

Antigo.—The jury in the case of Charles H. Turner, plaintiff, vs. William Lehrman, defendant, brought in a verdict for \$2,500 in favor of the plaintiff. Turner was suing Lehrman for \$5,000 for alienating his wife's affections.

Manawa.—Struck by lightning during a severe thunder storm, Leo Zentel, a farmer living near here, was instantly killed as he was returning from work in a field. Two horses which he was driving were knocked down and one of them was killed outright.

North Hudson.—Charles Smith, seventeen years old, made a desperate attempt on his own life at the home of his parents, Mr. and Mrs. Thomas Smith, who moved here from Spooner a year ago. The young man shot himself and the bullet from his volter, evidently aimed at his heart, just missed that organ, but passed through a lung, resulting in serious hemorrhages. He will probably die.

Madison.—The United States attorney for the western district of Wisconsin, John A. Aylward, who debated state taxation problems before the Saturday Lunch club, Madison, with Tax Commissioner Adams and with Gov. F. E. McGovern before the City club, Milwaukee, has published his address on this subject in pamphlet form for distribution to voters.

Madison.—The dome of the state capitol here is now covered with stone work, with the exception of the pinnacle at the top. This marks the end of three years' work on the structure. The interior is being rushed and will be ready next winter. The partitions which separated the interior from the wings have been taken down and the immensity of the structure, which is the second highest in the world, is becoming evident.

Racine.—Royal Thompson, now twenty-seven years, an automobile agent of Kenosha, committed suicide at the Hotel Belvidere, using a revolver. Thompson came to Racine to negotiate a trade on automobiles and because of his failure to make sales he became despondent. He engaged a room at the Hotel Belvidere and on entering his room he called for ice water. Just as it was about to be delivered to him he shot himself in the right temple.

Monroe.—Lillian Schenck, aged ten, confessed to Deputy State Fire Marshal J. F. Baker to setting fire to four farm buildings of her stepfather, Arnold Acherman, in the last 12 days. She turned the barn April 2, then the shed and 16 cattle last Saturday, and another shed and two horses and hogs Monday. Then she fired the corn crib, just after Deputy Becker had returned to town for dinner. She confessed after matches were found in her possession.

Madison.—William L. Bernhardt, former state superintendent of public property, pleaded guilty to embezzlement and was sentenced to 15 months at Waupun. His attorney, Lester C. Manson, made a plea for leniency before the pronouncement of sentence. The specific charge on which he was sentenced was the embezzlement of \$478 in the form of two checks paid him by Statko Bros. of Madison for waste paper sold them by the state while he was superintendent.

Ashland.—Circuit Judge Bjornd sentenced R. Wilson to sixty days in the county jail. Mr. Wilson was found guilty by a jury of obtaining money under false pretenses. Wilson was born in the county jail since last September and for that reason the jury recommended mercy.

Racine.—Five-year-old Marie Falbe submitted to an operation for adenoids in the office of a local physician after an anesthetic had been administered, and died from heart disease soon after. The case is in the hands of the coroner and the district attorney.

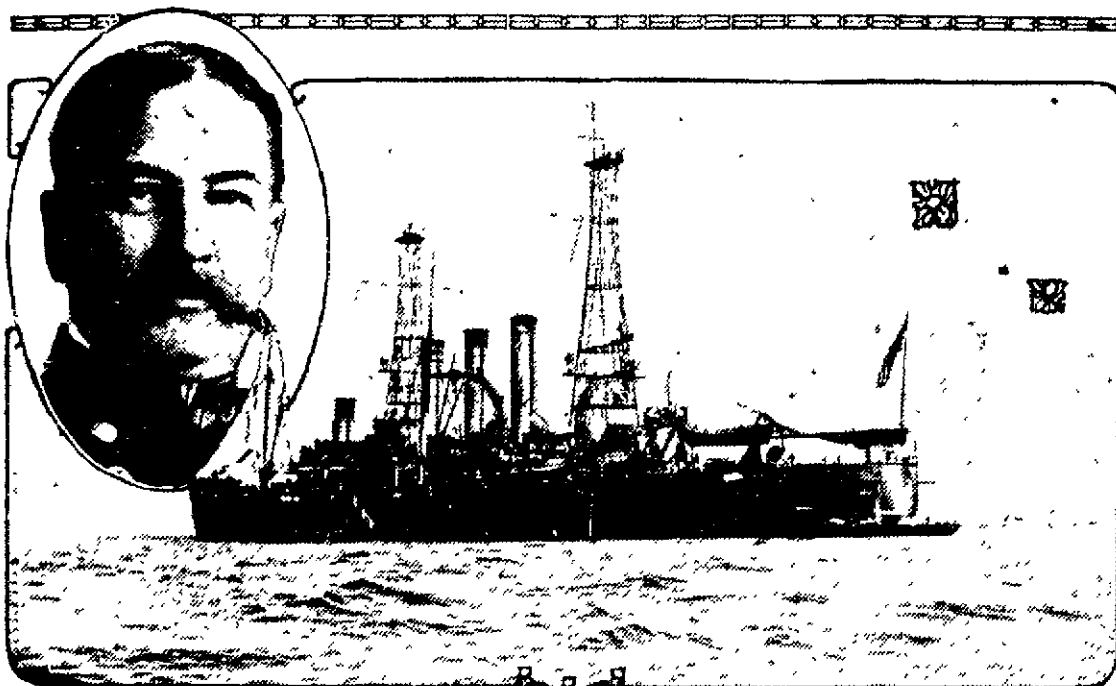

Superior.—The corpse of a man about forty years old was found frozen in a cake of ice in Lake Superior here. It was in an advanced stage of decomposition and had probably been in the water all winter. There was nothing to establish the man's identity.

Racine.—Racine will establish an open air school for tubercular pupils and debilitated children. The school will open next month, under the direction of Miss Marie Saltsbury of the Wisconsin Anti-tubercular association.

Superior.—Death came to Erick Erickson, a farmer, while working at the bottom of a 100-foot well on his farm. Fearful because of failure to secure responses to their calls, employees reworded the rope upon which he had gone down and were horrified to find Erickson's lifeless body hanging from the rope.

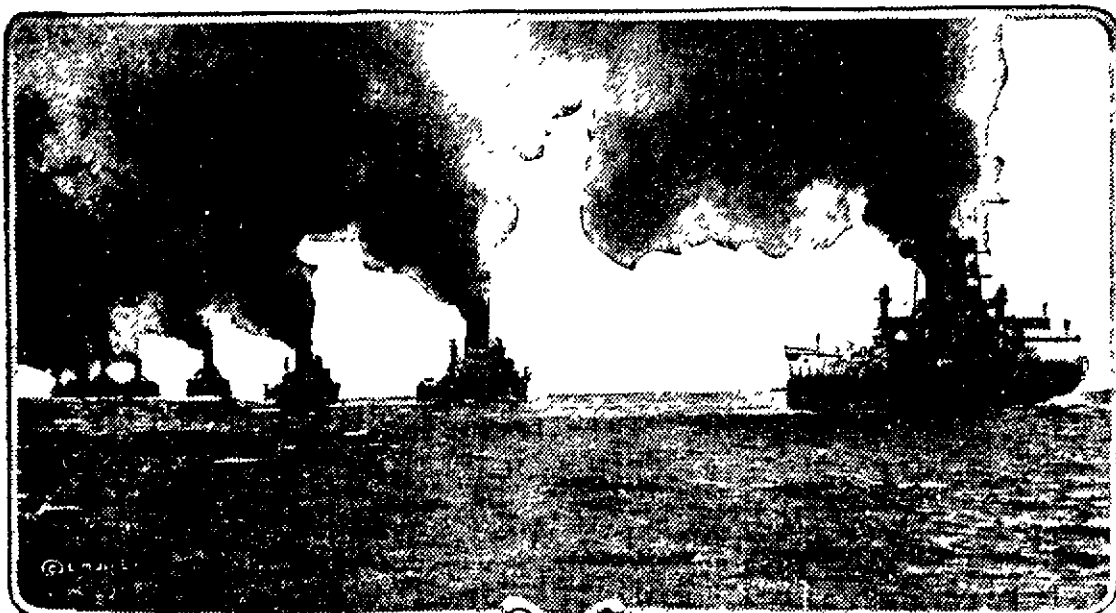

Madison.—A statement issued by Fire Marshal Host shows that during the nine months since July 1, 1913, to April 1, 1914, there were 2,042 fires, with total damages of \$8,119,417. For the same period of last year the losses were \$2,519,915 in 1,766 blazes.

ADMIRAL BADGER AND HIS FLAGSHIP

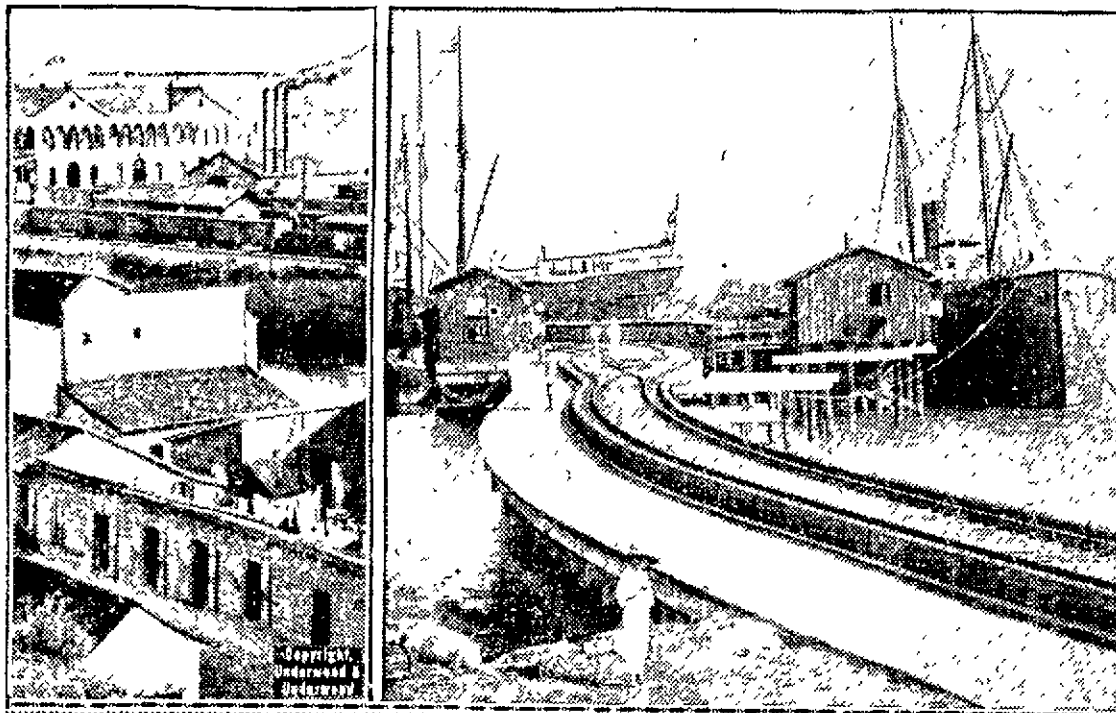

Rear Admiral Charles J. Badger, in command of the Atlantic fleet, ordered to Tampico to enforce the president's demand of a salute to the flag by Huerta forces there. The battleship Arkansas is the admiral's flagship.

ATLANTIC FLEET ON THE WAY TO TAMPICO

Here are some of the mighty battleships of the Atlantic fleet steaming at full speed for Tampico. Rear Admiral Badger, the commander, has orders to bombard that port, seize it or take any other measures which he may deem necessary.

TAMPICO CUSTOM HOUSE AND DOCKS

View of the custom house at Tampico, and of the docks. Rear Admiral Badger was given orders to seize this custom house if he thought it advisable. It is the shipping point for most of the Mexican oil.

AMERICAN TROOPS ARRIVE AT THE BORDER

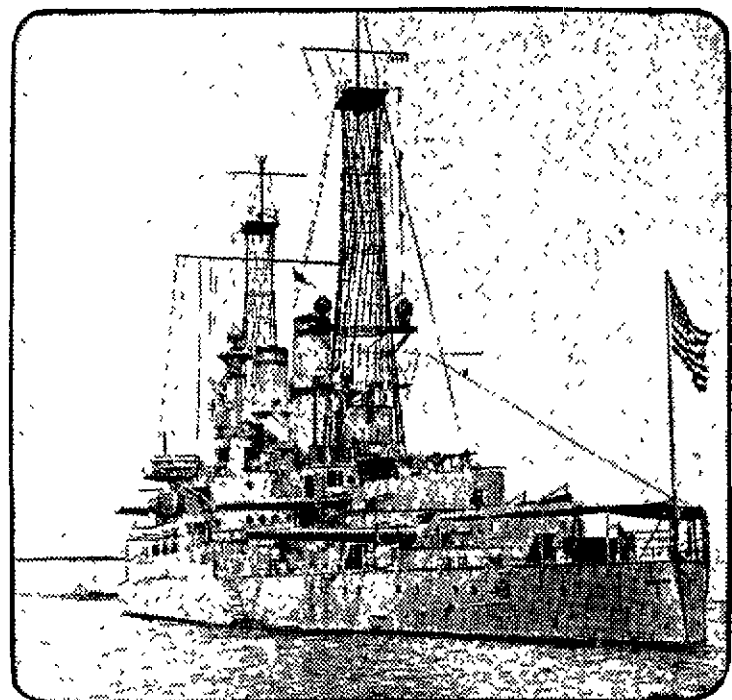

In case it should be necessary to establish a blockade along the Mexican border, the troops in that part of the country were hurried to the line. A regiment is here seen detaining near Laredo, Tex.

COMMANDERS IN MEXICAN WATERS

1. Rear Admiral Charles J. Badger, commanding the Atlantic fleet; 2. Rear Admiral T. B. Howard, commanding the Pacific fleet; 3. Rear Admiral Henry T. Mayo, commanding the fourth division, at Tampico; 4. Rear Admiral Frank F. Fletcher, commanding the first division, at Vera Cruz.

UNITED STATES BATTLESHIP SOUTH CAROLINA

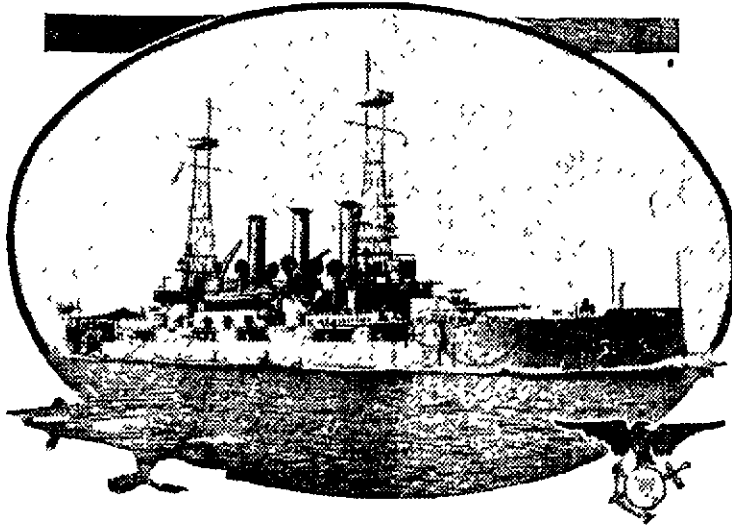

Among the 16,000-ton battleships in Admiral Badger's Atlantic fleet is the South Carolina. Her armament comprises 34 guns.

MARINES START FOR THE FRONT

United States marines starting from the Portsmouth navy yard to go aboard the vessels of the Atlantic fleet and hurry to Mexican ports.

ONE OF OUR BATTLESHIPS AT TAMPICO

The United States battleship Connecticut, one of the fighting vessels now at Tampico, is of 16,000 tons displacement and carries 46 guns in her various batteries.

GOVERNORS PLAN ANNUAL SESSION

Seventh Conference Will Be Held in City of Madison.

TO DISCUSS MANY SUBJECTS

Meeting Will Open in the Capital City June 9 and Continue Four Days—One Session for City of Milwaukee.

Madison.—The seventh annual conference of the governors of the United States will be held in Madison June 9, 10, 11 and 12. On June 13 a session will be held in Milwaukee. Subjects of great importance to the country will be discussed.

On the opening day, Gov. Francis E. McGovern of Wisconsin, President Van Hise of the state university and President Carl Johnson of the Madison board of commerce will welcome the thirty visiting executives. That day there will be read the report of the committee on co-operation, of which Gov. Emmet O'Neal of Alabama is chairman. At night there will be a reception by the governor in the capitol and dancing in the assembly chamber.

On Wednesday, the second day, there will be an address by Gov. William Spry of Utah, followed by a general discussion. Following a luncheon by the university, the discussion will be continued. That evening there will be an executive session.

Thursday there will be discussions of "Uniformity of Laws Fixing the Conditions to Be Met by Foreign Corporations Before Doing Business in a State," "Extradition" and "Submission of the Governor's Recommendations in Bill Form."

Friday will be occupied with the problem of "Uniformity of Safety and Sanitation Laws for Places of Employment," including Administrative Machinery." On Saturday the guests will go to Milwaukee.

The governors who have already sent their acceptance to Secretary Miles Riley are: Emmet O'Neal, Alabama; G. W. P. Hunt, Arizona; Elias M. Ammons, Colorado; Simeon E. Baldwin, Connecticut; C. R. Miller, Delaware; Park Trammell, Florida; John M. Slaton, Georgia; John M. Haines, Idaho; Edward P. Dunn, Illinois; George W. Clarke, Iowa; W. N. Ferris, Michigan; S. V. Stewart, Montana; T. L. Oddie, Nevada; Samuel D. Felker, New Hampshire; William C. McDonald, New Mexico; M. H. Glynn, New York; F. M. Byrne, South Dakota; O. B. Colquitt, Texas; William Spry, Utah; Ernest Lister, Washington; Harry D. Hatfield, West Virginia; Francis E. McGovern, Wisconsin; and Joseph M. Carey, Wyoming.

Among men of national-wide note who are expected to come to the meeting are former governors William Hodges Mann, Virginia; John Franklin Port, New Jersey; and Albert W. Gilchrist, Florida.

Pharmacy Applicants Examined.

The Wisconsin State Board of Pharmacy concluded the spring examinations of applicants for certificates, and sixty-one from over the state were passed upon out of ninety-two applicants.

Those who were granted registered pharmacist's certificates are: Joseph B. A. Dorszinski, Herbert Villanow, Walter H. Fischer, W. F. Luebner, Martin C. Kopf, Oscar A. Reischel, Edmund H. J. Kochanski, Charles H. Karnatz, Frank R. Keating and Roy Garmanson, all of Milwaukee; Charles E. Stapleton, John E. O'Brien, Madison; George E. Elwers, Neenah; Reuben P. Plautico, Manitowish; Walter A. Hackbarth, Wausau; W. F. Ziegenhagen, Racine; Arthur J. Erickson, Kenosha; Frank L. Griffin, Owen; Horace L. Burnham, Richland Center; Le Roy G. Hoffman, Antigo; Louis A. Desker, Watertown; Tony J. Muehlbauer, Arthur J. Hrehm, Robert H. Leonhardt, Robert E. Otten, Sheboygan; Louis E. Self, Nelloville; Roy A. Fortum, Paul A. Dahl, Viroqua; Albert F. Netzel, Crandon.

Assistant pharmacist certificates were granted to the following: Harold W. Hansen, Lake Mills; Charles S. Hocking, Waupaca; A. W. Streicher, E. V. Rudolph, La Crosse; Palmer E. Nelson, Castleton; Walter H. Melder, Waukesha; Frank H. Lightner, Randolph; T. H. Brock, W. C. Meyer, W. H. Kropp, Clarence Andrae, William E. McParland, I. W. Fairfield, Otto Baarh, Louis H. Kreuser, Mary E. Machacek, Edwin H. Cora, Raymond A. Mies, C. J. Blanchard, Jerome M. Peters, A. A. Stykne, W. J. Quinlan, Milwaukee; E. A. Babcock, Madison; Paul Lyon, Rice Lake; Robert J. Quinn, Leland B. Smith, Bangor; Charles M. Foote, Westfield; A. J. Kolpin, Kenosha; James P. Hagan, Westby; H. F. L. Meier, West Allis; Holger Rasmussen, Wilho; Charles G. Pable, Oshkosh.

WISCONSIN NEWS TERSELY TOLD

La Crosse.—For having 16 pickerel in his possession, Henry Steink, Jr., was arrested and fined \$50 and costs.

Racine.—The henhouses of the farmers near Racine were raided in one night and 200 valuable fowls carried away.

Racine.—The Racine Young Men's Christian association will on June 19 start a week's campaign for a \$250,000 new building fund.

La Crosse.—Mr. and Mrs. A. H. Arnold of Waukon celebrated the fiftieth anniversary of their marriage. Seven children were among the guests present at the celebration.

Racine.—More than two hundred sheep have been killed in Racine county within the last month by dogs. Sheep raisers have organized to conduct a campaign of dog extermination.

Jefferson.—The Jefferson high school boys, both sides of an inter-scholastic debate held upon the question of the minimum wage, defeated Jefferson at Waterloo, and Port Atkinson won from Jefferson here.

Green Bay.—Too drowsy to continue to his home in Oneida, Wisconsin, Skeneader, an Indian, made himself as comfortable as possible between the railroad tracks. A train struck him. He may lose a leg and an arm.

Ashland.—Fifteen-year-old Rodney Osborn, son of Mail Carrier J. M. Osborn, was bitten by a mad horse. The animal was shot and the boy was sent to the Pasteur institute in Madison. All dogs in the city will be muzzled or shot.

Antigo.—The jury in the case of Charles H. Turner, plaintiff, vs. William Lehman, defendant, brought in a verdict for \$2,500 in favor of the plaintiff. Turner was suing Lehman for \$5,000 for alienating his wife's affections.

Superior.—Death came to Erick Erickson, a farmer, while working at the bottom of a 100-foot well on his farm. Fearful because of failure to secure responses to their calls, employees re-wound the rope upon which he had gone down and were horrified to find Erickson's lifeless body hanging from the rope.

Madison.—A statement issued by Fire Marshal Host shows that during the nine months since July 1, 1913, to April 1, 1914, there were 2,643 fires, with total damages of \$3,619,341. For the same period of last year the losses were \$2,910,915 in 1,748 fires.

STIRRING SCENES AT NAVY DEPARTMENT

Washington, D. C.—Officers attached to the navy department are planning themselves on the remarkable promptness with which each turn of the events of the busiest day in 15 years were met.

In the offices of the aides for personnel, for operations, and for material under officers toiled over the few thousand ends of business but the great work of the first day—the issuance of

orders for the dispatch of the greatest fleet of American war vessels ever sent upon a "business" errand had been promulgated, signed, and were out of the office within six minutes from the time Secretary Daniels gave the first word.

Not since the days of 1898 has the navy department presented the scenes of activity that it did at this time. When, early in 1912 it became appar-

ent to President Taft that an army of potential occupation must be sent to the borders of the Rio Grande, the war department, which occupies the westerly side of the same building, enjoyed all the activity and all the attention that is now showered upon the navy.

When at 6:45 Tuesday night the Norfolk steamer pulled away from its dock, bound for Old Point Comfort and Hampton roads, where the bulk of the fleet lay at anchor, there were genuine wartime scenes. The big

steamer was packed and jammed with navy officers whose leave had suddenly been curtailed, hastening to join their ships.

Officers' wives and sweethearts were on hand to say good-by. So were a number of blue-clad Marines from the Washington barracks hastening to supplement the marine complements of the battle fleet at the roads. Also there were officials of the navy department going to Hampton roads to bid the fleet goodbye, but all were in a holiday mood.

It might be that there was a looming of war clouds on the southwestern horizon, but the spirit of worry was conspicuously absent. The general impression seemed to prevail among the officers and civilian officials alike that the Mexican expedition, though war perhaps lurks in the distance, was about to prove a glorious junket.

"Meet you in Mexico City," was the familiar expression of many a youngster bound south on his first chance at seeing active service.

MEAT EATER SEEMS PEEVED

London Writer in Revolt Against Alleged Wiles of the Vegetarians.

I want to warn meat-eaters against a cunning conspiracy to convert them into vegetarians. A man (whom I have since discovered to be a notorious out-eater) lured me into a strange restaurant yesterday morning and set before me something that looked like

a mutton cutlet. I cannot tell exactly what first aroused my suspicions, but suddenly approaching the cutlet from behind I tore off its false frill and discovered it to be some nuts and potatoes in disguise. Then I saw through the whole game at once. Some desperate band of vegetarians are sitting up at night training bananas to look like pork sausages, and teaching innocent little walnuts to go about masquerading as deviled kidneys. If I had eaten that mutton cutlet, as they called it, they would have lured me on

with celery steak and things until at last I should have been so firmly in their grip that they could boldly have thrown off their disguises. In a year or so I should have been tame enough to eat potato peelings from the hand. Meat-eaters all, we must band ourselves together against the vegetarians, and fight them with their own weapons. As soon as I can find a chef who can make a mutton chop look like a boiled carrot I shall open an imitation vegetarian restaurant and send out men disguised in sandals and

health-fiber suits to waylay and bring in nut-eaters. Then we will give them Cambridge sausages disguised as bananas, mixed grills masquerading as fruit salads, and chickens which the vegetarians will think are cabbages, until they get the bones in their throats—Ivan Heald, in the London Daily Express.

Vassar Daisy Chain.

The Vassar authorities do not like the prominence that is given to the "Daisy Chain." The girls selected to

carry the chain at commencement time are 24 of the prettiest girls, of course, but the general idea is that this constitutes the whole of the class day exercises, which it is declared, is only an incidental part of what the authorities consider the much more important program.

But a Spur.

Ambition has its disappointments to sour us but never the good fortune to satisfy us.—Benjamin Franklin.

Can't Hold It

You can't hold all the money that comes into your hands but it is your duty to try and hold SOME OF IT. Why not try making a fair allowance for expenditures and then deposit the balance in our Savings Department as a guarantee against future needs. Consider this regular deposit as a debt that must be paid from your income. We'll pay you compound interest on each deposit and you will soon be in the INDEPENDENT CLASS.

Estimates Promptly Furnished

It's natural for you to want the most and the best you can get for your money. But when you buy a bill of lumber without getting an estimate from us, how do you know that you're getting the best bargain that is possible for you to get?

You simply can't tell a thing about it. You don't know whether you're losing money, or not.

The only safe way is to always let us make you an estimate on what you want, before buying elsewhere. We have complete stocks of everything in lumber and building material.

Ask Your Neighbor About his DE LAVAL

All the farmers to whom we have sold De Laval are boosters.

The De Laval satisfies, pleases and makes money for its more than a million and a half owners the world over.

If you expect to buy a separator it will be worth your while to find out what some of your neighbors who use De Laval think of their machines.

If the evidence of your neighbors who use and recommend the De Laval is not enough to convince you of De Laval superiority we will put one on trial for you and you can try any other machine you want to alongside of it. Then you can see for yourself which machine you like the best.

We have an arrangement whereby you can make a partial payment at time of purchase, and pay the balance on such liberal terms that your De Laval will more than save its own cost while you are paying for it.

WIS. LIVE STOCK NOTES

Thirty-two members of the Eau Claire County Guernsey Breeders' Association recently joined the Wisconsin Live Stock Breeders' Association. It was voted at the annual meeting of this organization that all members owning or using a pure bred sire pay to the secretary-treasurer, Henry H. Brown, the annual membership fee, fifty cents, required by the State Association. Several community breeders' associations have adopted this method of getting a large number of their breeders listed in the 1914 directory to be issued soon by the association.

Of a shipment of five hundred (500) cattle from Guernsey breeders which will arrive in Athens, N. J. within a few days, more than one-half were purchased by breeders living in Iowa, Eau Claire and Fond du Lac counties in this state.

On March 28th, four hundred and ninety (490) Guernseys left the island for the United States. Of this number 285 came to Wisconsin; 200 going to Grant county; 50 to Fond du Lac County and 35 to Dunn county.

Improperly fitted collars, too large collars, collars too wide at the top, not washing collars and the horses' shoulders after a hard day's work are fruitful causes of shoulder sores. Have the collars fit snugly. Keep the harness fairly tight, wash the collar and the horse's shoulder in cold water every night. Before the rush of spring work begins fit the collar and harness. An ounce of prevention is worth a pound of cure.

Twenty-five Holstein cows, owned by 13 Wisconsin breeders were admitted to the roll of honor of the breed during the short period from Feb. 10th to Feb. 12th, 1914.

Since 1907, when Colantha 4th Johanna, a Wisconsin Holstein cow produced 1200 pounds of butter in one year, 19 other cows of this noted Dutch breed have produced sufficient butter fat to make 1000 pounds, or more of butter.

Reports received at the office of the Wisconsin Live Stock Breeders' Association show that 39 Wisconsin Holsteins were admitted to the Advanced Register of that breed in the seven days elapsed from Feb. 19th to Feb. 25th. Twenty-eight of them were bred in Wisconsin and eleven were transferred to Wisconsin breeders who placed them under test. Four other cows bred in Wisconsin and tested by owners in other states were also recorded.

The average production for seven consecutive days, of the 255 animals accepted for the Holstein roll of honor during this period was 419.7 pounds of milk, testing 3.5 per cent butter fat and containing 14,359 pounds of butter fat, equal to 17.3 pounds of butter.

Pork growers often fail to appreciate the value of green and succulent feeds for growing pigs. Experiment station records and the experience of practical farmers prove that gains in weight are cheaper and more rapid when good, green, palatable, succulent forage is available. The crop best adapted for hog forage are alfalfa, rape, clover, rye and oats. Plans should be made to sow such crops for hog forage to supplement dry pastures in the summer. Provide the pig with green feeds, in their natural state, and his growth, health and pork making ability will be increased.

There is no better investment than that put into a service fee of a well made, pure bred stallion, of one of the recognized breeds. Some men breed to a grade stallion because he is nearer; some because the service fee is \$5.00 less; some because the place and no service fee is necessary. Such practices have kept the value of Wisconsin horses down to an average of \$136. The strength of blood possessed by a pure bred which enables him to impress his likeness upon his get is termed "prepotency." If he is a good individual, "well-made" this power of prepotency carries with it weight quality conformation and soundness—four prime essentials of a draft horse.

Fires Due to Carelessness.

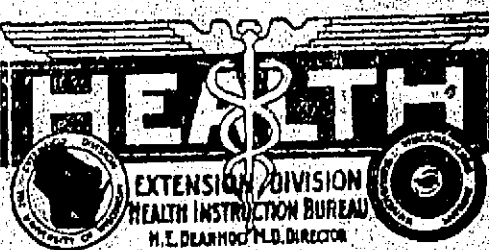

The greater part of the annual fire waste in the United States, amounting to nearly \$250,000,000 a year, is due to carelessness. Much of this is personal, for which property owners are directly responsible, and much is municipal, through the toleration by the authorities of dangerously inflammable constructions, laxity in the enforcement of building ordinances and the regulation of explosives and inflammables, failure to insist upon rubbish being cleaned up, etc. The average citizen should have impressed upon him his personal responsibility for his share of the preventable fire waste of the country, which is draining the national wealth. Every man can at least see that paper, old boxes and rubbish are not allowed to accumulate in dangerous places or out-of-the-way corners, and can keep an eye on his lighting and heating appliances. If these alone are attended to properly nearly half the fires could be prevented. In foreign countries the owner of property is made responsible for fires originating on his premises and can be held for damages done the property of his neighbors. American independence may not yet be ready for such a degree of regulation, but its necessity could be avoided if each citizen would feel his personal responsibility without waiting for a law to enforce it.

Rollabo Ford Cars.

They all see it now—what Henry Ford saw years ago—that the light, strong quality car sold at a low price, best meets the demands of all the people. Now they are all following where Henry Ford led.

Five hundred dollars is the new price for the Ford runabout; the touring car is five fifty; the town car seven fifty—all f. o. b. Detroit, complete with equipment. Get catalogue and particulars from Huntington & Lessig agents.

During the period from January 21st to February 9th, 1914—28 Wisconsin cows were admitted to the Advanced Registry of the Holstein-Friesian breed.

THE BABY'S BIRTHRIGHT

The birth rate of civilized countries is declining. This has occasioned great concern to statesmen throughout the world. To meet the situation, former President Roosevelt, you will recall, attempted to popularize large families. His remedy has not seemed to most students to be the best one. We do not need more babies, nearly so much as we need to save those we have. The baby's birthright is the right to live.

Havelock Ellis in "The Task of Social Hygiene," has shown that throughout the world a high birth rate is accompanied by a high infant death rate. On the other hand, when the birth rate declines the death rate declines also. Nature is prodigal. A fish lays millions of eggs for each spawn that is hatched. Of those hatched but an occasional infant fish reaches maturity.

The lower a creature is in the scale of evolution the greater is its number of offspring. To make certain of perpetuating the species Nature has made allowances for many that may be killed off. At the same time Nature provided mankind with thinking brains and the ability to overcome conditions which are good enough for fish.

The instinct to protect the life of one's young increases as the species rises in the scale of creation. To man alone is given an enduring affection for his offspring to strengthen his instinctive parental protection.

As there are gradations in the obligations of parenthood throughout the lower forms of animal life, so there are variations in the human species. As man rises in civilization and social position he rises to a larger sense of responsibility to and has a greater affection for his offspring. As civilizations rise in intelligence and importance the people show an increasing concern with the welfare and protection of their younger generations. This includes their neighbors' children with their own. Even childless citizens desire the continued existence of the species.

The season of greatest danger to the life and health of infants will soon be here. Individual parents should look to the safeguards of their infants' life and health. All patriotic citizens should look to the community or collective safeguards of the community's infants. No better index of the patriotism of a people can be observed than the provision that is made to protect the lives of coming citizens, upon whom rests the future of the nation.

Knowledge that pure milk causes the greatest slaughter of infants ought to be sufficient to insure provision of clean milk. It is not to secure clean milk for your baby and mine, at least if we live in cities, depend upon an equal ability of our neighbor to secure clean milk for his baby.

By the way, is the milk supply of your town good? Don't guess. Know! Guessing, with the stake a baby's life, is unworthy of superior human intelligence.

Horse is Expensive.

The ordinary draft horse, as a rule should be fed 16 quarts of oats a day, and with oats at 48.5 cents per bushel the cost of the oats per horse per day is 24 cents and \$7.20 per month of 30 days. The usual amount of hay eaten per horse is 20 pounds per day, and with hay at \$1.10 per 100, the cost per day is 22 cents and \$6.60 per month. One horse will use approximately 100 pounds of straw a week for bedding, and with good straw at \$1.25 per 100, the cost per horse per day is 14 cents and \$4.20 per month. A stable housing 20 horses will require the services of two hostlers, who are paid at the rate of \$2 per day for a seven-day week. This would bring the unit of cost for two horses per horse per day to 20 cents of \$6.00 per month. The average cost of shoeing a draft horse is 10 cents per day or \$3 per month. Like any other animals, horses sometimes become sick and the average charge per year for veterinary service, taken from bills of five consecutive years amounts to \$60, the average number of horses kept during this period still remaining at 20.

At this rate the unit cost per horse per day for such service is one cent or 25¢ per month. The unit charge per horse for the rent of its stall, together with the proportionate part of space used for feed, bedding, manure, harness and office, together with insurance thereon, amounts to \$5 per month. At this rate the unit charge per horse per day is 17 cents.

The water tax charged for the water actually used per horse for drinking purposes and for washing down the stalls amounts to \$2 per month for 20 horses or 10 cents per horse per month, or 0.3 cent per day. The depreciation of the horse is quite an item. An ordinary, physically perfect draft horse, when bought at the age of from 4 to 5 years, is worth in the neighborhood of \$300, depending on the condition of the market at the time of the purchase. Such a horse, when properly cared for, has an average useful life of not more than five years, although some such horses have been in actual service for from 10 to 15 years. Five years in a conservative estimate.

At this rate the depreciation is \$60 per year and the interest on the investment figured at 6 per cent would amount to \$3.60. Reducing these figures to daily and monthly units we have the depreciation per horse per day at 17 cents per day or \$5 per month. The interest on the investment is 1 cent per horse per day and 30 cents per month. Then there is the harness. A set of harness for a team is worth in the neighborhood of 75 and has a life of not over five years. With this data the depreciation of the harness per horse per day is 2 cents and 63 cents per month, while the interest on the investment is 0.1 cent and 4 cents for the respective units. The above mentioned factors in the make-up of the final unit cost figure, cover all the items with the possible exception of superintendence, which, however, is not generally charged against the maintenance of the horse but to the particular job on which the horse may be working.—Springfield Republican.

—Try a Lucky Sam when you want a good smoke. Only 5 cents.

Reckless Irrigation Projects.

A prominent Wisconsin business-man who is very familiar with conditions surrounding irrigation submits the following:

It is a lamentable fact that the Interior Department through the Reclamation Bureau, is spending millions and millions of dollars on irrigation schemes where the basic water supply will be derived from impounded spring-freshet water held by expensive dams in the mountains, when this plan of securing water is still in an experimental stage. It is argued with much force that it is not wise to make large, expensive developments under schemes of this kind, until it has been demonstrated by years of experience that the storage capacity of such reservoirs will remain permanent. The opponents of irrigation have always contended that the constant erosion from the steep mountain, and the cannon-sides will continue, as fast in the future as in the past, with the result that at the end of a few wet spring seasons the holding capacity of these reservoirs will be entirely destroyed, or so reduced as to make the cost of maintenance, when applied to the small area of land served, prohibitive.

And now comes the New York Sun of the 16th inst. with the following: "The heavy rains in the Catskill Mountain watershed of the Ashokan reservoir have presented a problem to the Water Commission of New York City.

"The Esopus and its tributary streams during the heavy rainfall of Saturday, Sunday and Monday, November 8, 9 and 10, poured at least half a million tons of gravel into the reservoir basin in size from a pebble to boulders weighing several hundred pounds.

"How to control the immense amount of gravel, boulders and silt which comes out of the mountain valley streams during heavy storms is the problem which confronts the Water Commission.

"There are people hereabout who predict that within ten years after the dam is closed a causeway of gravel of almost to the surface of the water will be formed from the reservoir head along the Esopus channel to the dam itself.

"The problem which confronts the Water Commission now is gravel. The only way to prevent gravel coming into the great basin seems to be to build piers on all the streams feeding the Esopus and on the main stream to keep the gravel back into the head of heavy water. Great millions of the Esopus watershed have been known to fill up with gravel during one storm. It is feared that this will happen to the great dam in time."

If the erosion is doing such destruction in the old and thoroughly settled Catskill Mountains, where the rainfall is regular and almost never excessive, what will be the result in the new country of the west, where the moisture that falls is largely snow in the mountains, which runs off in a violent freshet every spring.

Brown on Individual Responsibility.

Norris Brown, former United States Senator from Nebraska, was one of the speakers at the annual meeting of the State Fire Prevention Association. He urged education of the public on the subject, and that the responsibility for the fire waste be brought home to the individual. Mr. Brown said:

The speaker has said that the annual loss by fire amounts to \$250,000,000 annually, or about \$2.50 per capita, while in Europe the loss is less than 35 cents per capita. These are remarkable figures. If we allow \$250,000,000 of our wealth to be burned the fault is our own. We cannot lay the blame on anyone else. It is due to either our own carelessness or to our own criminality. Every body knows that ninety-nine fires out of a hundred are, as a matter of fact, preventable. They are caused by the carelessness of someone or by an incendiary. Whichever the cause, it can and ought to be reduced. I observe in the business districts of our cities the shingle roof is prohibited. Why not in the residence portion? In other cities are match ordinances. Why not in all? If we would prevent this tremendous fire waste we ought to give some attention to the water supply for fire purposes. We ought to give some attention to the fire department, and the efficiency of its equipment.

In my judgment the greatest factor in reducing the fire hazard is the individual who buys the insurance policy. He ought to be held responsible in the sense that he should be held to account in some public way for the fire which assails his property. The government ought to ask him the reason and the cause of it. If these were done, more men would go to the furnace rooms, more men would have their chimneys examined before the furnace fire is started. In Great Britain the fire victim, of course, receives the sympathy of his neighbors just as he does in America, but at the same time he receives the invitation from the government to come to the headquarters and explain the fire, and heavy penalties are imposed if the fire was caused by his own carelessness.

Based His Feelings.

Coudcock's company were once barnstorming thru Virginia. It was at Petersburg, and the play was the "Chimney Corner." All thru the audience sat in distressing silence, neither laughing or shedding a tear, although "The Chimney Corner" abounds with humor and pathos, and the company then producing it was of great merit for those times. Coudcock appeared to pay no attention to the apathy of his audience until just at the close of the performance. The concluding lines of the play are somewhat to this effect: "You, John, are happy, and so are you, Ellen; so am I, and so are we all. Let us hope that our friends, the public, share our happiness." But, to the surprise of everybody, Coudcock fell into a towering passion when he reached these lines, and in thundering tones he said: "You, John, are happy, and so are you, Ellen; so am I, and so are we all, except the — — — fools that have been sitting like stoutheads in front of the footlights tonight."—Argonaut.

—What in time is the matter with your feet, Jim? Even your dog tries to get away from you. If you love your dog just use a little of Barker's Antiseptic on your feet, and besides maybe make it possible for your family to stay in the same room with you. For sale by Johnson & Hill Co.

FARMERS ADVISED NOT TO

SELL EGGS FROM INCUBATORS

A number of poultry raisers, it seems, are putting on the market infertile eggs that have been tested in incubators from three days to a week. As soon as the breeder finds that the eggs will not hatch he takes them out and sends them to market along with his fresh spring eggs. After the eggs have been in the incubator for this period they are distinctly stale and rot very quickly if kept any length of time. Even when just taken from the incubator these infertile eggs are not fit for boiling or poaching, although they may be used for frying, and are good for cake or certain other baked foods. These eggs when they reach the market, however, are classified as low grade, No. 2.

The mixing of incubator eggs with the fresh spring eggs leads the egg packers, who get their principal cold storage supply in the spring, to cut the price they pay the farmer, department investigators find. The spring consumption must be absolutely good. Moreover, the egg packers in the spring do not candle eggs, but hold them three at a time in the hand and click them to discover any crack, and then judge their freshness by their fresh, powdery look on the shell. The mixture of infertile incubator eggs with fresh eggs interferes seriously with the candling and forces the packer to candle the eggs. He then deducts this added expense from the price he offers to the producer. Eggs which have once been subjected to the heat of the incubator can not be stored, even though frozen.

The farmer who sells incubator eggs to the dealer, therefore, is very likely to injure his own market for fresh eggs. When dealers find a percentage of low-grade incubator, or other eggs in their fresh spring egg supply, they lower the price for all eggs, so that they will be certain that they have covered themselves against losses from this cause. The department's specialists advise farmers to use only infertile eggs they may take from their incubators for home consumption and to send only fresh eggs to market.

A Matter For Investigation.

A rather amusing story is being told by a Japanese gentleman in connection with the late emperor of Japan.

As we know, the late emperor was regarded with the greatest veneration by his subjects, and it appears that this attitude of awful reverence was maintained also by his ministers in spite of the fact that affairs of state make it necessary for them to see him and converse with him very frequently.

One of these ministers, the Marquis Matsugata, used to experience agonies of nervousness every time he had an audience of his sovereign, and he was never able to say anything distinct in reply to him except the set phrase, "I shall have careful investigation made, your majesty."

This generally brought him safely through a short audience, but one day unfortunately the emperor condescended to discuss the marquis' more private affairs.

"How many children have you?" the emperor asked.

Back came the inevitable phrase, "I shall have careful investigation made, your majesty!"

The story loses nothing from the fact that the marquis had a very large family.

Name Your Farm.

Every farmer in Wood county should name his farm.

It lends dignity to the farmers profession and establishes a reputation for each farm, peculiarly its own.

Use stationery with the name of the farm on it.

The business of farming demands well printed stationery as much as any other business. The satisfaction you will get from the use of printed stationery is worth more than the small sum it will cost.

Send in your name to name their farms more generally, The Grand Rapids Tribune will make this SPECIAL OFFER:

100 good quality white envelopes, No. 6 1/2, and 100 good white note heads, 6x9 1/2, to match above, with name of farm, name of proprietor and address printed on, for... \$1.75 250 each of the above for... \$2.50 500 each of the above for... \$3.50 Write copy plain and state if ruled or unruled paper is wanted. Send 6 cents additional for each 100 noteheads and envelopes if job is to be sent by mail.

Send in your orders, or when in town come in and ask us about these prices.

What is a Tornado?

Just what is a tornado, and why? The Weather Bureau in Washington was asked for an explanation that would be readily understandable. This is it:

Fill a stationary wash bowl with water, pull out the plug—and you will have an illustration of a tornado. After a little of the water has run out you will see the contents of the bowl swirling about in a whirl over the outlet of the basin. If you stop to think about it you will realize that the air pressure must be very strong in order to keep back the water. That is the principle involved in a tornado—or in a cyclone, for a cyclone is an intensified tornado.

A tornado is brought about in this way. Two layers, or strata, of air overlap. The hot air, which is near the ground, has a tendency to rise. The cold air, heavier than the hot air, has a tendency to fall. Thus it happens sometimes that the hot air breaks through the layer of cold air, precisely as the air breaks through the water in the basin when the plug is pulled. Through this vent the hot air rushes upward, and about this vent the cold air whirls downward, in the manner of the funnel-shaped cloud.

According to the weather man, tornadoes often reach a velocity of 250 miles an hour. But the damage to property is not alone by the force of the wind. A tornado might pass in front of a brick house, for example, without itself inflicting much damage. As it rushes away all the air, creating a vacuum immediately next to the wall. Whereupon the air inside of the building forces out the front wall, because there is no counter pressure of air from the outside. It is what amounts to an interior explosion, with the important difference that practically nothing inside the house is damaged. This explains why you will see a picture of a house with the interior but slightly disarranged, yet one of the walls blown entirely away.

Areas of "low" barometric pressure are the making of possible cyclones or tornadoes; for whenever there exists this condition there are warm or hot winds next to the surface of the ground, blowing from the southeast; there are also cold winds blowing toward the "low" center from the northwest. Ordinarily these winds do not meet; but when they overlap there is always the possibility above described. It is a fact, however, that tornadoes invariably occur in the southeast section of the "low" area of barometric pressure. But the Weather Bureau does not claim to forecast tornadoes.—The Country Gentleman.

OUR MISSING WORD CONTEST

FIND THE MISSING WORDS AND RECEIVE THE PRIZE

Conditions of Contest:

In one or more ads on this page a word has been intentionally left out. Read the ads carefully and see if you can supply all the missing words. Write your answer plainly on a sheet of paper and sign your name and address to same, then put in a plain envelope and bring or send it to The Tribune Office. Only adults can enter their names in this contest. In writing your answer specify ads and the lines in the ads in which the words are missing, giving the correct words. These ads will run once per week for ten weeks in this paper and one dollar will be given for the nearest correct answer in each week's contest. The nearest correct answer each week will be entitled to one dollar. The second answer will be entitled to one year's subscription to the Tribune. All answers must be in The Tribune office before Monday of the following week. No answer received by telephone. A notice will be published in following issue stating what words were left out of the ads and who are entitled to the prizes.

Single Harness

Our New Line of 1914 Models of Baby Carriages, Pullman Sleepers and Collapsible Folding Go-Carts IS NOW IN

FOR BABY'S SAKE INVESTIGATE

Remember that the first and most important point to think about when you are selecting a baby carriage is what carriage is best for the baby's comfort and health. The next point to consider is: what carriage combines comfort and safety for the baby with style, durability and a moderate price? All our carriages possess these desirable features.

If you allow your baby to ride daily in a carriage with stiff springs he is bound to get a jolting and jarring that will not only make him cross and sick but may permanently injure or deform his soft growing bones and tender body—therefore it is of utmost importance to select a carriage with pliable, resilient springs.

For baby's health and comfort, as well as for your own convenience come in and see our line, you will find a style and price that exactly fits your taste and purse.

Question:

A. P. HIRZY, Jeweler
Vino Street,
Grand Rapids, Wis.
Dear Sir:
For a couple of years past I have been considering the purchase of a nice Diamond Ring, but have been putting the matter off, thinking I could make better use of the money. Will you tell me honestly whether you think I should purchase now, or could I do better by waiting until a later day, when the prices may be somewhat lower.
Yours very truly,

Answer:

Grand Rapids, Wis., Apr. 29, '14.
Dear Sir:
Replying to your inquiry regarding the prices of Diamonds we would say that "there is no time like the present." Had you purchased such a stone ten years ago you would have made considerable upon your investment, and there is equal certainty that the tendency is towards higher prices in the future instead of lower. In fact, there has been a steady, unbroken climb in price for the last twenty years, and beyond question this will still continue. Diamonds are different from a manufactured or grown article in this respect; as soon as the demand for any manufactured article becomes abnormal, it goes up, and prices rise, other producers enter the field and thus regulate the price. In the case of Diamonds, as perhaps you are aware, they come almost exclusively from South Africa, where the mines are controlled by the De Beers Syndicate. This is one of the closest and wealthiest corporations in existence, and the output of stones to the cutters in Amsterdam is regulated by them systematically.
Then, too, it is claimed by those who are in a position to know that the supply is certainly decreasing. Diamonds, as you perhaps know, are found in what might be called "shoots" or "tubes" of clay, extending down into the bowels of the earth, having been shot therefrom in ages past by volcanic eruption. They are now mined at over 3,200 feet below the surface, we are told, and the cost of such work is consequently much greater than when the mining was conducted nearer the surface.
Since you are considering the question of Diamonds, we think we could interest you in a visit to our store, without placing you under the slightest obligation to purchase.
We make a specialty of stones of the very highest standard, stones which will increase in value yearly—in this respect differing from almost every investment in so-called luxuries.
Yours very truly,
A. P. HIRZY,
East End Bridge. Next to P. O.

Grand Rapids Veterinary Hospital

Dr. V. P. Norton, Prop.
The only fully equipped veterinary hospital in the city, having all the latest and most modern appliances to serve our patrons. Telephone 633, Residence 161.

LOCAL ITEMS.

Louis Goodness sold his Whiting roadster to Relland & Perrodin the past week.

Huntington & Lessig have sold a Ford touring car to Robert Rezin, Jr. of the town of Rudolph.

T. A. Taylor is spending a week in Port Arthur, Ontario, looking after some business matters.

August Bartz of the town of Sigel was among the business callers at the Tribune office on Saturday.

Ed. Beck, buttermaker at the Vesper Creamery, has purchased the Buick roadster of Clarence Hayward.

Mrs. Nels Jensen of the town of Grand Rapids was among the business visitors in the city on Thursday.

Mr. and Mrs. Nels Marceau of Rudolph were in the city on Saturday looking after some business matters.

Louis Mackaben, one of the progressive farmers on R. D. 4, was a pleasant caller at this office on Monday.

N. L. Kaudy of Webster spent several days in the city the past week visiting his brothers, G. J. and Matt Kaudy.

Andrew Schroedel one of the solid farmers of the town of Sigel favored this office with a pleasant call on Saturday.

O. R. Moore and Roy Hiller of Tomahawk spent several days in the city the forepart of the week visiting with friends.

Jos. Bissig departed on Monday for City Point where he will spend the summer looking after the cranberry marsh of Bissig Bros.

J. H. Shortt and John Zurhuh of Nekoosa were in the city on Friday and while here they favored the Tribune office with a pleasant call.

George M. Slanson, of the Cable Piano company of Chicago, was in the city several days the past week looking after some business matters.

F. J. Wood and Dr. Ed. Hougen left Sunday evening for Chicago, where Mr. Wood will receive treatment, he having been in rather poor health the past week.

Mrs. Judd Blaisdell of Trout Lake was in the city on Saturday, having come down to close a deal for the sale of their home on Grand Avenue to Mrs. Maud Mullen.

Adolph Pankow, editor of the Marshfield Democrat, spent several hours in the city on Friday while on his way to Watertown to attend the funeral of his sister.

Nels Larson is making arrangements to build a cottage on his lots on 8th Ave. S. Mr. Larson will use the Carey Concrete blocks and will rent the home when completed.

Try a Lucky Sam, a 10c smoke for five cents.

County Highway Commissioner Louis Amundson has purchased the Dan Castello home on the corner of Placer and Second street and has commenced work on a basement and comfortable addition to the house.

Mr. and Mrs. Adam Zimmerman of the town of Rudolph announce the approaching wedding of their daughter Katherine, to Paul Herman which will take place May 5th, at 9 o'clock at the Catholic church in Rudolph.

Huser Brothers brought in a load of live pork on Saturday which was taken to the Relland Packing company's plant. The load contained about a ton and the roads were in such poor condition that they had to use two teams in order to get thru.

J. F. Weinberg was in Thorpe on Friday where he went to stake out the ground for a new Catholic church which he will build this summer. The building will cost \$30,000 and will be built of brick purchased thru the Grand Rapids Brick Co.

Mr. and Mrs. Chris Hagen of Wausau are in the city visiting at the home of their daughter, Mrs. Wm. Gilse. Mr. Hagen was a pilot on the river here in early days, but after that business played out he went to Wausau, where he has farmed for a number of years. He has recently sold his place and is thinking some of moving to Illinois.

Quite a bit of work is being done on the city parks this spring under the supervision of the park commissioners. The east side river bank is being filled in where it has been washed out in spots while trees and shrubs are being planted on the west side, and the indications are that the appearance will be greatly improved by the work.

George A. Williams, a farmer living on the marsh above Biron, met with a sad accident two weeks ago. He was operating a feed cutter and had all the fingers of his right hand cut off, besides having the arm badly mauled. Mr. Williams was in the city on Monday to consult his physician and informed The Tribune man that he was very fortunate in not losing his entire arm.

John B. Daly has booked the St. Paul Symphony Orchestra for an afternoon and evening concert at the Opera House on May 9th. This orchestra is one of the best in the country and carries sixty-five men on its concert tour, which includes four soloists, and is the largest and best musical organization that has ever visited this city. Grand Rapids is the smallest city on their route this year, so it is evident that we are especially favored.

Mr. and Mrs. Ted Hilderman, who have been visiting at the B. G. Chaudes home for several weeks past, expect to leave in the near future for Los Angeles, Cal. where Mr. Hilderman will look over the country with a view to locating. Mr. and Mrs. Hilderman have been making their home in Montana for several years past, and Mr. Hilderman is an enthusiast on the western country, being of the opinion that there are exceptional chances out there for a young man.

When a man tells you that the big city weekly is worth more than your home paper, ask him how much the big city has ever done for your locality; if it had ever spoken a good word for it; if it had ever mentioned what he and you were doing to improve the condition; if it had ever noticed him or his friends when sick or dying—in short, if all his dealings with the metropolitan weekly have not been entirely one-sided, in which his dollar only was recognized by the other party, while he and all his individual interest were completely ignored.

John Possley of Biron departed on Tuesday for a month's trip thru the west.

Jos. Corrievau of Green Bay visited over Sunday with his mother, Mrs. G. A. Corrievau.

Mrs. Wm. Zimmer of Stevens Point was a guest at the John Hollmuller home several days the past week.

Mrs. J. T. Heron of Biron was in the city shopping on Monday. This office acknowledges a pleasant call.

Geo. Lyons of Milwaukee spent Monday in the city, visiting among friends and looking after some business matters.

Mrs. Kate Miller and Mrs. Cella Szpankaska of Milwaukee were guests of Mr. and Mrs. James Klappa several days the past week.

Mrs. M. W. Ruckle and daughter Ruth leave today for Menasha where they will visit with Mrs. Ruckle's people for a week or more.

Mr. and Mrs. Edward Lynch returned on Friday to their home in Milwaukee after spending a week in this city visiting with friends.

John Hamm, who is employed as a barber in Milwaukee, is visiting with his parents, Mr. and Mrs. Wm. Hamm in the town of Rudolph for two weeks.

A daughter of Mr. and Mrs. H. E. Knoll of the town of Sigel was bitten by a dog Sunday and it was necessary for the doctor to take two stitches to close the wounds.

Rev. H. B. Johnson went to La Crosse on Monday having been called to the bedside of the Rev. Ole Ingebrigtsen. The old gentleman is quite seriously ill with bronchitis.

Mr. and Mrs. Archie McMillan and George B. McMillan, who have been spending the past winter at St. Petersburg, Florida, expect to arrive in the city on Saturday, to again take up their residence here.

M. E. Cater, proprietor of the creamery in the town of Carson, was able to return to his home on Saturday from the Riverside Hospital, where he spent a week, having submitted to a surgical operation.

Dr. and Mrs. F. X. Pomianville spent several days in Milwaukee last week having gone down to attend the wedding of Miss Genevieve Hayes who was married to Leatham D. Smith of Sturgeon Bay.

Attorney John A. Gaynor left on Saturday for New York where he will attend a meeting of the American Fruit Exchange as a delegate from this part of the country. Mr. Gaynor expects to be absent a week or ten days.

Many of our trout fishermen took advantage of the nice weather on Sunday to go out after trout. While most of them got some fish, there were no phenomenal catches reported. It would seem as if the fish were becoming scarcer in the streams about here notwithstanding the fact that enough fry are planted each year to more than keep up the supply.

Hamm—VanAlstine
Miss Katherine Hamm of this city and Raymond VanAlstine of Tomah were married at the Catholic church on Monday morning, April 28th, by Rev. Wm. Reding. Since their wedding they have visited with friends and relatives in Tomah and Milwaukee, returning on Saturday. The bride is the youngest daughter of Mrs. Kate Hamm, and a most estimable young lady, having been engaged in teaching in our country schools for several years. The groom is in the employ of the St. Paul Ry. as car repairer, and has been located here the past two years. At present they are making their home with the bride's mother on Fourth Ave. North, but will go to housekeeping on the west side in the near future.

Christian Endeavor Banquet.
A successful banquet was held at the home of Nels Christenson on Saturday evening, under the auspices of the Christian Endeavor Society of the Scandinavian Moravian church. Much credit is due the chairman of the social committee for the tasty decorations, splendid menu and excellent program. The banquet was in the nature of a farewell to Miss Bella Rocksted, the society's president. Chas. Hagerstrom acted as toastmaster and filled the position capably and well. Toasts were called for and responded to by Jennie Norton, Martha Johnson, Lydia Nelson, Bella Rocksted and Rev. H. B. Johnson.

Scandinavian Moravian Church.
A prayer meeting will be held at the home of Mrs. Hannah Carlson this evening. The program for Sunday is: 9:30 a. m. Sunday school; 10:30 a. m. English preaching service; 3 p. m. and 7:30 p. m. services in Saratoga.

On Saturday afternoon and evening the Willing Workers will hold an ice cream social and sale of fancy articles in the paragonage, 331 3rd Ave. N. Home made ice cream will be served.

Woman's Club Elects Officers.
At the last meeting of the year, held on Monday evening, the Woman's Club elected the following officers for the ensuing year:
President—Mrs. Louis Reichel.
1st Vice Pres.—Miss Gaskell.
2d Vice Pres.—Mrs. T. M. Mullen.
Secretary—Mrs. G. P. Hambrecht.
Treasurer—Mrs. W. A. Drumb.
During the coming year the club will take up the study of modern authors.

Now's the Time.
Now's the time to be a-doing
If there's work that must be done,
While the earth itself is wooing
Favors from the shining sun.
Not to-morrow, you may never
Hear the bells of morning chime,
But for every brave endeavor
Now's the time.

Now's the time to be a-moving
If in life you've any aim,
If you're anxious to be proving
What in earnest is your claim.
Don't, ah, don't today postpone it!
Is not idleness a crime?
If you have not overthrown it,
Now's the time.

Say not even, "I will do it
Without failure by and by,"
That's a time with no date to it,
In the shadows of the life.
Seize the present! It is flying
Ever from you as you drift by.
Now, if you are bent on trying,
Now's the time.

COUNCIL PROCEEDINGS.

Council Chamber, Apr. 21st, 1914.
Council met in last session, Mayor Cohen presiding.

Present: Aldermen Bamberg, Ketchum, Gaulke, McCarthy, Ed. Calkins, McCarthy, E. T. Getzlaff, Plenke, Lukasecki, Prebbanow, Wittrock, Damon, Tomayck, Binneboese and Jeffrey.

Absent: Alderman Yeschke.
On motion the reading of the minutes of the extra session of the council was dispensed with.

The board of public works reported that at a meeting held April 20th at the City Engineer's office it was moved and seconded that Oak street be sprinkled with oil from Second street street up to 10th, but not including 10th street. Motion carried.

Moved and seconded that the petition for sprinkling First street between the tracks of the Green Bay & Western Railway to the brick pavements ending at the library building be granted. Motion carried.

Moved and seconded that First street from the library to Oak street and Second street from the library to Birch street and Vine street from Third street to the bridge be sprinkled with water. Motion carried.

Moved and seconded that Grand Avenue from the west end of the bridge to the C. M. & St. P. depot be sprinkled with oil. Motion carried.

Moved and seconded that all streets one block north and one block south from Grand Ave. be sprinkled with oil or water if signed by a majority of property owners. Motion carried.

Moved and seconded that the city purchase a No. 4 oiler and pump attachment, one extra set of nozzles, one 9 foot bamboo sweeper and one little western grader from the Austin Western Road Machinery company for the sum of \$775.00 f. o. b. Grand Rapids, Wis., terms 60 days from acceptance, one man to demonstrate at the expense of the company. Motion carried.

Moved and seconded that the city purchase one car of No. 6 road oil from Inter State Oil Co., at \$3.99 per 100 gallons. Motion carried.

At a meeting of the board of public works, April 14th, 1914 it was moved and seconded that the city purchase the two sprinklers and motors and piping from Wm. Goldberg for the sum of \$400.00. Motion carried.

On motion the above actions of the board were confirmed by unanimous vote the clerk calling the roll.

The report on the petition for a sidewalk to begin at the northwesterly corner of block No. 4, running thence southeasterly along the southerly side of Plover street to Second street, thence in a westerly direction along the westerly line of 2nd street was on motion referred back to the sidewalk committee.

The sewer and water works committee reported on the petition of Robert Sanger and others for a sewer and water main on 10th avenue north, a distance of four blocks north from McKinley street, recommending that the petition be granted.

On motion by unanimous vote the clerk calling the roll the report was accepted.

The sewer and water works committee reported on the petition of Alex Mindak and others for a sewer and water main on Grand Ave., a distance of two blocks west, from 17th avenue recommending that the petition be granted and that 24 inch sewer pipe be used.

On motion by a vote of 12 for and 3 against the report was accepted, the clerk calling the roll.

The sewer and water works committee reported on the petition of Max Janz & others for a sewer and water main on Grand Ave. a distance of about 4 blocks east from 17th avenue recommending that the same be granted and 30 inch sewer pipe be used for same.

On motion by unanimous vote the clerk calling the roll the report was accepted.

Engineer Philles reported that the line between the city lot and B. M. Vaughan's land is very irregular, indefinite, and improperly described in the deed to the city, recommending that permanent substantial stone or cement monuments should be placed along this line to permanently mark the same, and a new deed which will properly describe this land should be given by Mr. Vaughan, before any further transfer are made by him.

Mr. Vaughan is willing to do this if the city will furnish and place substantial monuments marking the corners of the city lot.

Ten monuments will be required.

On motion by unanimous vote the clerk calling the roll the report was adopted and monuments ordered placed and providing the city get a new deed.

On motion the petition of J. B. Brooks for an art light at the corner of Second Ave and Washington street was referred to the committee on general business.

On motion the petition for a sewer and water main on 11th street north, between Oak and Avon streets was referred to the sewer committee.

On motion the petition for sprinkling a distance of 700 feet easterly from Third St. south was referred to the board of public works.

On motion the petition from the east side fire department for a suitable engine house and stable was referred to the committee on general business.

The following resolution was presented and adopted by unanimous vote the clerk calling the roll.

Whereas, by a clerical error in copying the tax roll for 1913 there was omitted therefrom the County School tax levy amounting to \$6,458.71, which sum is due and payable to the Grand Rapids school board, on or before December 10, 1914, as the County school apportionment.

Now therefore, be it resolved, by the Common Council that said sum of \$6,458.71 be paid to the proper officers, by law entitled to receive the same, out of the General Fund of the city of Grand Rapids, on or before December 10, 1914, and that said sum so paid be spread upon the tax roll for the year 1914.

On motion the condition of the street signs was referred to Supt. of Public Works.

On motion by unanimous vote, the clerk calling the roll the following bills were allowed:

John Bamberg, com. wk. \$ 12.00
Wm. Prebbanow, com. wk. 19.50
Edw. F. McCarthy, com. wk. 25.50
E. T. McCarthy, com. wk. 3.00
Chris. Getzlaff, com. wk. 10.50
Herman P. Plenke, com. wk. 6.00
Henry Yeschke, com. wk. 15.00

Nick Tomayck, com. wk. 3.00
Jos. Lukasecki, com. wk. 3.00
Kriegler Tool Mfg. Co. re pairs 10.00
Geo. P. Hambrecht, extras. 07.50

On motion council took a recess for five minutes, for the council to retire, and the new council to convene.

Council Chamber, Apr. 21st, 1914.
New council called to order by Mayor Cohen.

Present: Aldermen Bamberg, Ketchum, Gaulke, Schmechel, Calkins, McCarthy, Getzlaff, Plenke, Lukasecki, Gilmaster, Muelly, Wittrock, Damon, Jackson, Binneboese, and Jeffrey. Absent none.

The mayor addressed the council as follows:
Grand Rapids, Wis., April 21st, 1914.
Gentlemen of the Common Council:

With the compliments from our citizens I again assume the responsibility of Mayor of the city of Grand Rapids for the next two years. I notice that most of the old councilmen have been re-elected in their respective wards. By this action our citizens have explained their appreciation and approval of the good work accomplished by the last administration.

I would like to call your attention to the bonded indebtedness of our city contracted by our former administrations such as the bridge, water works, street improvements, parks, and school. Bonds are coming due every year. The total tax levy (except special tax levy) for the year 1914 was about \$96,500.00 of which we paid out to the schools interest bonds \$1,925.00 bond \$500.00. School apportionment for county \$6,458.71. School apportionment \$38,500.00 which makes a total amount for the schools \$51,883.71 and for state and county tax less school bond and interest on bonds \$46,516.63 for interest and bond indebtedness \$10,480.00 which makes a grand total of \$108,889.34 from taxes collected for the year 1914. Now comes our general city expenses and over-drafts to be taken care of. The sentiment of some of our citizens are for lower taxes, although they continually ask for up to date improvements and the great remedy is to practice economy in all city departments and curtail expenses as much as possible.

I would like to ask of you a continuation of your co-operation of economy, prudence and quick action for the good and welfare of the city of Grand Rapids. I have no private or personal gain to derive from my office. But my earnest desire is to make this a good business administration and to give everybody a fair and square deal.

I thank the old council very much for their good work and their co-operation.

Sincerely yours,
J. A. COHEN.

The mayor made the following appointments:
I will appoint as follows:
City Attorney—Geo. P. Hambrecht.
City Clerk—M. G. Gordon.
Health Commissioner—Dr. F. X. Pomianville.

City Engineer—Ed. Philles.
Port Commissioner—Peter McCamley.

Supt. of Fire Engine and Library—D. M. Huntington.
Supt. of Public Works—G. R. Schuman.

Committees:
Finance—Aldermen Damon, Ketchum, Binneboese.
General Business—Aldermen, Lukasecki, McCarthy, Schmechel, Streets—Aldermen Bamberg, Jackson, Getzlaff.

Water Works—Aldermen Calkins, Plenke, Gilmaster.
Side Walks—Aldermen, Getzlaff, Gaulke, Miller.

Sewers—Aldermen Jeffrey, Wittrock, Gaulke.
Police and Fire Commissioner—W. H. Carey.

Port Commissioner—Mrs. W. J. Conway.
Swimming Pool Commissioners—Geo. W. Mead, J. B. Arplin, L. A. DeGuere.

Board of Public Works—J. A. Cohen, J. J. Jeffrey, Christ Getzlaff, P. Calkins, J. Bamberg.

On motion by unanimous vote the clerk calling the roll the mayor's address was ordered spread upon the minutes and his appointments confirmed.

The name of Alderman Jeffrey was presented for President of the council.

There being no other candidate on motion the clerk was instructed to cast a ballot for Alderman Jeffrey for president of the council for the ensuing year.

The ballot being cast, Alderman Jeffrey was declared elected president of the council for the ensuing year.

On motion the city treasurer's bond was fixed at \$30,000.00 and the city clerk's bond at \$1,000.00 for the ensuing year.

On motion the city clerk was instructed to get sealed bids for the city printing and city depository for the ensuing year.

On motion council resolved itself into a board of health consisting of the Mayor, City Physician and City Clerk as executive committee.

On motion council adjourned.
M. G. Gordon, J. A. Cohen, Clerk, Mayor.

—Once smoked, always liked Lucky Sam, 5 cents.

A NEW SKIN REMEDY

Meritol

Eczema Remedy

is an original combination of powerful antiseptics, germicides and healing agents for the purpose of relieving the itching and burning, nearly always present in skin diseases and to restore the skin to its former healthy condition.

Ring Worm, Barbers Itch, Dandruff and For Eczema, Tetter, other crusty or scaly eruptions of the skin.

Price 50c and \$1.00

JOHN E. DALY

Exclusive Meritol Agency.

Their Name is Legion.
(From the New York Times.)
Mrs. Ben Adams (may the tribe not pour)
Awoke one night from dreams of growing stout
And as she lay, frightened and sorely troubled,
Feeling her chin to see that 'twas not doubled,
She spied, perched in a chair right by her bed,
A vision, sweetly gowned and quite well bred.

A book she rested on her tight-clad knee,
And at it she was staring patiently,
"Why are you here?" The vision raised her head.
In wonder then the awakened lady said:

"To get the names," she answered, "I was sent.
Of all the women who abandon bridge in Lent."
She opened wide a spotless, unmarked book.
"Not one have I yet found," and added "Look!"

"Don't write me down!" quick cried out Mrs. Ben;
"For if one stops for forty days, why, then,
One's place is lost in her swift social rush.
And then one has to stay outside."

"But, hush!" She whispered, "Write me down with those who only play one table." The vision rose,
And with a weary sigh, she shook her head—
"No book would hold the names of those," she said.

Wisconsin farmers, living in 44 different counties purchased during the period February 10th to March 10th, 49 "Pure Bred" registered Guernsey bulls and 103 cows and heifers.

MAP OF MEXICO SHOWING PORTS BLOCKADED BY U. S. NAVY

VERA CRUZ TAKEN; 4 U. S. TARS DIE; HUERTA LOSES 200

Twenty Marines Wounded
in Fierce Fight When
Huerta Post Is
Captured.

U. S. SHIP SHELLS CITY

Battleship Prairie Bombards City
Following Attack on
Sailors.

Mexican Troops Fire on U. S. Men
From House-tops—Women and
Children Flee to Vessel During
Fierce Gale—Admiral Fletcher
Sends Report of En-
gagement to War De-
partment at Wash-
ington.

Washington, April 22.—The war is
on.

Acting under orders from the sec-
retary of the navy to block the port of
Vera Cruz and seize the customs
house, Admiral Fletcher, in charge of
the American fleet, landed marines
from the U. S. S. Prairie and pro-
ceeded to take the customs house.

A sharp engagement between the
American and Mexican forces fol-
lowed. Four American marines were
killed and 20 were wounded. Two hun-
dred Mexicans were killed.

According to the report from Ad-
miral Fletcher, the Mexican troops did
not oppose the landing of the marines,
but opened fire after the Americans
had taken possession of the customs
house. The Mexicans employed artil-
lery and made a desperate effort to
drive the Americans out.

U. S. S. Prairie Shells Mexicans.
Admiral Fletcher at once ordered
the Prairie to bring her big guns into
play, and from her place in the harbor
she proceeded to shell the Mexicans
out of their position.

The Prairie was assigned to shell the
city for the reason that she is of
lighter draft than either of the big bat-
tleships and by approaching nearer to
the water front could place her shells
with greater precision.

All of this occurred while a great
gale was gathering just outside the
breakwater. The Mexican coast in the
vicinity of Vera Cruz is subject to
frequent visitations of "northerly," among
the most furious storms encountered
anywhere in the world. These storms
develop such violence that the customs
house and other buildings on or near
the water front are whipped with
spray, although the breakwater which
protects the city is one of the best of
its kind anywhere.

Admiral Fletcher reported that he
was holding the customs house and the
section of the city in which the Ameri-
can consulate is located. The customs
house and the consulate are within a
few blocks of each other.

U. S. Dead and Wounded.

The American casualties and the
men wounded in the first engagement
were as follows:

The dead—Coxswain Shoemaker,
Corporal Haggerty, marine corps;
Seaman Poulisette.
The wounded—J. F. Plesse, C. L. Le-
aney, C. D. Cameron, U. Schwartz, D.
L. MacMillan, private marines, and

Electrician Geilsburne of the bat-
tleship Florida.

Nathan Schwartz, seaman, nine-
teen, New York; Charles J. Leahy,
ordinary seaman, seventeen, New
York city, electrician, third class; Ed-
ward A. Cleburne, eighteen, Quincy,
Mass.; C. D. Cameron, ordinary sea-
man, eighteen, Brooklyn, N. Y., and
John F. Plesse, twenty, Newark, N. J.
All these were bluejackets from Flori-
da, not marines.

Gale Stops Refugees.

According to dispatches received
from Vera Cruz earlier in the day the
consulate was crowded with American
women and children waiting to be taken
off in one of the vessels chartered by
the United States and waiting in the
harbor. The Esperanza was re-
ported as ready to sail, but owing to
the gale did not put out. She still had
accommodations for several hundred
refugees.

Receipt of word from Admiral Fletcher
that fighting had begun, and that
four marines had been killed, galva-
nized the war and navy departments into
immediate action.

Washington, April 22.—The navy de-
partment received an official dispatch
from Fletcher stating that the Ameri-
can dead and wounded have been re-
moved to the ships. The Chester has
reached Vera Cruz. In response to a
wireless request from Secretary
Daniel R. Adams Fletcher dispatched
the following full account of the
seizure of Vera Cruz by the Ameri-
cans.

"The dispatch is dated
Vera Cruz, 10 p. m., and reached Wash-
ington shortly after one o'clock.
Admiral Fletcher's Report.

Vera Cruz, April 22.—Three hun-
dred marines composed the first land-
ing party. They reached the shore at
exactly 12 o'clock.

The federal telegraph and cable of-
fices were first occupied. Up to this
time no Mexican troops were in sight;
but later they were discovered hiding
in the house tops and the church
towers.

The first shot fired was by a private.
It hit a marine near the cable office
who died later.

Mexicans Opened Fire.

The fire was opened up by the Mexi-
can forces at 12:16. At 12:25 five
companies of marines were in action.
A steady fire was being delivered
against the Americans from the old
church tower, and to put these "snip-
ers" out of action a three-inch field
piece from the Florida, commanded
by Ensign Cressly, put five shots into
the tower. This cleared the American
consulate from all danger.

Marines Protected by Warship.

At 1:30 Utah landing force came
ashore near the barracks protected
by the fire from the transport Prairie.
By this time the Mexican firing had
been checked and a few English
marines were sent to guard the British
consulate.

The Mexicans soon got into action
again and at two o'clock the firing had
become furious. Up to this point two
Americans had been killed and seven
wounded.

Capt. Hughes Warns Huerta General.
The Prairie was still firing occasion-
ally and this had a quieting effect.
At three o'clock Captain Hughes came
ashore to make an observation of re-
sults. As he passed by the Florida's
three-inch field piece he called out to
the firing squad:

"Are you having as much fun as you
expected?"

At 3:30 Captain Hughes tried to get
word to General Maas, the Mexican
commander, that if firing did not
cease the town would be bombarded.
If this word reached General Maas it
produced little result. Firing con-
tinued. The marines held their posi-
tion. The Jackies advanced along Sec-
ond street from the water front and
were stationed among the custom
house buildings. This brings them
close up to the principal plaza. Mexi-
can citizens now declare that most
of their troops are out of the city.

Senate Empowers the President.

Washington, April 22.—After an all
night session the resolution adopted

by the house, which authorized the
president to use the U. S. army and
navy to oust Huerta from the presi-
dency of Mexico and punish those
guilty of insulting the American flag,
was adopted by the U. S. senate, 72
to 13, after many speeches that will be
historic. Senators Lodge and Root set
forth in their speeches reasons why
the insult to the flag could not be the
sole motive for interference in Mexico
by force of arms.

Senator Root, once secretary of
state, and before that secretary of war,
and one of the accepted world's au-
thorities on international law, declared
in the debate that justification of what
is about to be done and what already
has been done in Mexico cannot be
limited by a question as to number of
guns that shall be fired in a salute of
apology or by the manner of firing the
salute in question.

See War Already.

Experts in foreign affairs take the
ground that war has been proclaimed,
and that the outrage upon American
lives and property must be considered
in justification of the intervention.
Steps taken and of such other steps as
may be taken. There will be an effort
in conference to force the acceptance
of the original resolution, which came
from the state department
specifically mentioning Huerta as the
object of attack.

But events of the last 24 hours may
make this effort futile. The death of
the marines at Vera Cruz caused more
than one senator to change from oppo-
sition to the Lodge substitute
expressed in the morning and declare
that he would support a broad resolu-
tion, even if it led to a declaration of
war.

Williams Fights Change.

Senator John Sharp Williams of
Mississippi, who was the one member
of the foreign relations committee to
oppose the resolution in the form
adopted by the house, is supporting the
committee resolution in the hope that
it will be put back in its original
form. His theory is that it was
an easy thing to enter into, but a
mighty hard thing to get out of, and
that if matters can be limited to Huerta
it will be possible for our forces to
retire from Mexico as soon as the dic-
tator is driven out of the country.

Tense Over Marines' Death.

Meager reports of the engagement at
Vera Cruz had filtered to the capitol
when the senate resumed its session
at eight o'clock. The four Americans
dead in Vera Cruz, the 20 wounded,
and the 200 Mexicans reported killed
in the taking of the city, became the
text of the talk, mentioned in hushed
voices, and greeted with a solemn
silence throughout the senate cham-
ber, packed to suffocation.

As the shuttle of debate was thrown
to the floor a full quorum of the
house of representatives crowded the
rear of the senate hall.

Secretary of State Bryan, himself
often referred to in the debate; Sec-
retary of War Garrison, Secretary of
Navy Daniels, Postmaster General
Burleson, Secretary of the Treasury
McAdoo and Secretary to the President
Tamm sat about the chamber. They
listened eagerly and held whispered
conferences as the discussion pro-
gressed.

The diplomatic gallery was filled
with members of the foreign corps,
with Ambassador Spring-Rice of Great
Britain at their head. As the hours
dragged along and the news from Vera
Cruz spread through Washington,
thronged of fashionably gowned women
and spectators from every walk of life
packed the galleries and thronged the
corridors of the senate wing of the capitol.

The Republican side of the senate,
led by Senator Root, demanded that
the "justification" proposed in the res-
olution for a movement in force
against Mexico be founded not on the
Tampico incident but on the long
series of outrages against American
citizens and their property, including
the outrages in northern Mexico, in
control.

Senators Reed and James vigorous-

ly defended the committee resolution,
declaring that the insult to the flag
at Tampico justified all that the res-
olution provided for.

As the night wore on, and senator
after senator demanded an oppor-
tunity to be heard, the atmosphere in
the chamber grew more and more
tense. Senator Fall of New Mexico
made a lengthy plea for a campaign
that would cover the length and
breadth of Mexico.

Senator Root opened the night ses-
sion with a speech supporting the
Lodge substitute.

"I shall not prolong this debate,"
he said, "for I believe that whatever
action we shall take ought to be taken
today. There should be no fur-
ther delay."

Senator Root said that the foreign
relations committee resolution, while
omitting the name of Huerta, made it
plain that it was directed against him.
He expressed the "highest regard for
the president and the highest con-
fidence in his purposes."

No Question of Confidence.

"But we are not asked to express
our confidence in him," he continued,
"we are asked as a part of our duty
here to declare a certain course of ac-
tion in certain conditions to be 'justi-
fied.' We are called upon to do our
duty to the 100,000,000 people of this
country and our duty to the civilized
world."

The resolution, Senator Root said,
called for "forceful armed compulsion
of the de facto government, or a
friendly nation to make amends for an
insult to the flag of this country."

"We cannot justify this," he con-
tinued, "on our confidence in the presi-
dent. We must justify ourselves be-
fore the conscience of the people of
our country and before the eyes of the
civilized world. What is that justifi-
cation? Mark you, I do not say there
is no justification. I ask what it is."

Senator Root reviewed the Tampico
incident as the avowed "justifica-
tion" by the president. He said the
incident was an "insult to our flag."

War in Its Essence.

"Deeply as the president desires to
limit the scope of his action to the
maintenance of peace, all history sug-
gests that once lighted the fires of
war cannot be quenched at will. It is
war in its essence that we are to
vote to justify. What will be the re-
sults of those incidents no man can
tell."

Responsibility on Senate.

"In a situation of high seriousness
such as now confronts congress it is
well to remember the responsibility
on the senate," said Senator Lodge in
opening the debate in the morning.

"The power to declare war rests un-
der the Constitution with congress."
When the president lays an inter-
national controversy before congress
he takes the last step that precedes
war. The president might have taken
further steps, but he has come to the
body, which alone has power to de-
clare war. I think he has done well.

"This resolution uses the word
'justify' instead of 'authorize.' The
result will be the same. This resolu-
tion does not conflict with the declara-
tion of war. The president in his mes-
sage declared my hostility toward the
Mexican people. But this resolu-
tion carries with it armed interven-
tion."

The consequences of armed inter-
vention are in many respects precise-
ly the same as war. But they present
a task less capable of speedy com-
pletion; less fertile in speedy glory of
victories won and may bring a long
period of the exercise of what would
be the police power in a foreign coun-
try, involving vast expenditures, great
loss of life, perhaps, and, after
months and possibly years, possibly
only the satisfaction of feeling that
we had brought back peace and order
and liberty to a distracted country."

"I earnestly hope that war is not in
question," said the president. "We
do not desire to resort to armed in-
tervention for the people of that coun-
try are of deep and genuine friendship.
The people of Mexico are entitled to
settle their own domestic affairs in
their own way. We sincerely desire
to respect their rights. Mexico is torn
by civil strife. Only part of the coun-
try is under General Huerta's con-
trol."

War Waged Against Huerta.

"If armed conflict should unhappily
come as a result of his attitude of per-
sonal resentment towards this govern-
ment, we should be fighting only Gen-
eral Huerta and those who support
him, and give him support, and our
object would be to restore to the
people the distressed republic the
opportunity to set up their own laws."

The president said there was no
thought of aggression or aggrandize-
ment on the part of the United States.
He asked merely for approval of his
intention to use his own prerogative
as commander-in-chief of the army and
navy to order the two branches of the
military service into action for the
purpose of compelling President Huerta
to salute the American flag.

U. S. Consul General Slain.

Washington, April 22.—There is a
rumor that Consul General Shandlin
has been killed and about forty Ameri-
cans injured in riots at Mexico City.
No official confirmation of the report
has been received here.

Women and Children Flee.

Vera Cruz, April 22.—Two sections
of the special train bearing refugees
from Mexico City have arrived here.
A third section is expected soon.
Most of the passengers on board the
trains are Americans, the majority be-
ing women and children. There was
no evidence of alarm among these peo-
ple when they arrived here. In fact,
they looked more like a picnic party
than refugees from a danger zone.

Lingerie Catches Woman Thief.

West Orange, N. J.—Following many
clothesline thefts, Edna M. Crane, bait-
ed the line with costly lingerie and
waited nearby with a revolver. Anne
Ridgely, a negro, walked into the trap.

Sells Sparrows for Canaries.

Hastings, N. Y.—A peddler reaped a
harvest when he sold 100 sparrows as
canaries. When the golden cost of the
"painted" birds began to fade, the buy-
ers were highly indignant.

Dog Locates Honey Trees.

Lenox, Mass.—Edward Fitzgerald's
Scottish collie, Bessie, has located more
than one thousand pounds of honey in
trees. When she spots a tree filled
with honey, she stands by and barks
until her master takes notice.

Convicted 415 Times.

London.—Sentenced to 14 days for
begging, William Jeffrey boasted that
he had been convicted 415 times, and
that he had taken 1,200 policemen to
arrest him.

CAPTAINS OF BLOCKADING BATTLESHIPS

These are the commanders of five of the American battleships sent to blockade the Mexican ports. They are: (1) Capt. John J. Knapp, commanding the Connecticut; (2) Capt. Joseph L. Jayne, commanding the New Jersey; (3) Capt. Robert L. Russell, commanding the South Carolina; (4) Capt. John H. Gibbons, commanding the Louisiana; and (5) Capt. Roy C. Smith, commanding the Arkansas.

BEVERIDGE IS NAMED

TRYES TO KILL MAYOR

NOMINATED FOR U. S. SENATE
BY INDIANA CONVENTION.

Roosevelt's Boom Is Launched—
Colombia Treaty, Providing Pay-
ment of \$25,000,000, Opposed.

Indianapolis, April 21.—The Indiana
Progressive convention nominated Al-
bert J. Beveridge here Saturday as
the candidate of the party for United
States senator. The nomination was
unanimous and Mr. Beveridge has ac-
cepted. He was Republican senator
from Indiana from 1899 to 1911.

The platform of the party, unani-
mously adopted, pledges the party to
work for the elimination of all brew-
eries and saloons in the states and in-
dorses the Hobson resolution now be-
fore congress. The platform attacks
the Democratic administration and
criticizes its Mexican policy.

Other planks indorse the initiative,
referendum and recall for all elective
judicial offices, a state-wide direct
primary law, the short ballot, equal
suffrage for women, home rule for
cities, elimination of the judiciary
from politics, prohibition of injunctions
in labor disputes, revision of state laws
to eliminate technicalities, a minimum
wage for women, free school books
and a law to compel the giving of
ample notice before a strike or lock-
out.

Another plank opposes the approval
of any treaty with Colombia which pro-
vides for the payment of \$25,000,000
to that country.

Senator Charles P. McPherson of Wash-
ington launched a boom for the nomi-
nation of Theodore Roosevelt as the
presidential candidate of the Progress-
ive party in 1916, in a speech before
the convention.

THREE DROWN; SIX SAVED

Cadets Lose Lives When Shell Col-
lapses on Lake Nagawicka,
In Wisconsin.

Delafield, Wis., April 21.—Three
cadets, members of the St. John's Mil-
itary academy, were drowned but
six were rescued after a violent
explosion capsized their shell on Lake
Nagawicka on Saturday. The dead:
Hinsdale, Ill.; Fred Sprule, Farming-
ton, Minn. The accident was seen from
the cottage of Walter Rugee on the
shore of the lake. Mr. Rugee and two
others immediately went to the assist-
ance of the boys and rescued six, who
were clinging to the side of the shell.
The three others had disappeared in
the water.

Experts May Run Trains.

Chicago, April 21.—Warren S. Stone,
grand chief engineer of the Brother-
hood of Locomotive Engineers, sent a
telegram to President Wilson offering
his aid as an expert engineer, familiar
with Mexican railroads, to handle all
train matters at the front.

Shot in Hunting Accident.

Bloomington, Ill., April 21.—Endea-
voring to shoot ducks with a revolver,
Alfred Powell, a youth of Watseka,
was shot in the abdomen when the
weapon was accidentally discharged.
His condition is critical.

Finda Nurse Work Drudgery.

Boston, April 21.—Miss Helen Cud-
dy, who sought to learn nursing, has
decided not to stay. "I thought train-
ing meant taking care of patients. I
find it is three-fourths housework
and drudgery."

Boy Playing Sailor Drowned.

St. Louis, April 21.—While "playing
sailors" when they should have been
at school, Henry Calbreath, Jr., eight
years old, was drowned and his three
girl companions narrowly escaped simi-
lar fates at Belleville, Ill., near here.

One of Founders of D. A. R. Is Dead.

Wilkes-Barre, Pa., April 21.—Mrs.
William M. McCartney, one of the
founders of the Daughters of the Ameri-
can Revolution, died here, aged sev-
enty-seven. She was the widow of Gen-
eral McCartney of New York city.

Wife Shot in Divorce Fight.

Bellaire, O., April 20.—Angry be-
cause his wife refused to pay half the
costs of a divorce action he had begun
against her, John Lugg shot her four
times, inflicting probably fatal wounds.
He then killed himself.

Hammerstein Barred From Opera.

New York, April 20.—Oscar Ham-
merstein and his son, Arthur, are
estrained from producing opera in Bos-
ton and New York until April 30, 1920,
according to a decision of the su-
preme court.

13 SLAIN IN FIGHT

COAL STRIKERS AND TROOPS
CLASH NEAR LUDLOW,
COLO.

SCORE OF UNION MEN SHOT

One Soldier, Eleven Strikers and
One Non-Combatant Among the
Dead—Colony of Tents Used by
Miners Burned.

Trinidad, Colo., April 22.—Thirteen
men have been killed and two
score wounded in a battle between
striking coal miners and state militia,
which started in a canyon near Lud-
low, 16 miles from Trinidad, raged all
day Monday and continued at night.
Firing ceased at ten o'clock, except
for desultory shooting. At that hour
the militia had surrounded a great
body of miners in an arroyo near Sav-
ings canyon.

Strikers are rushing from Trinidad,
Walsenburg, and other neighboring
camps to aid their fellows, and it is
predicted that the fiercest labor battle
in the history of the state will be be-
gun. Additional militiamen also are
being hurried to the scene. The dead
include one soldier, 11 strikers and
one non-combatant.

The big tent colony was destroyed
completely by fire. The hundreds of
women and children are being cared
for by frantic citizens. Gen. Louis
Tikas, strike leader, is among the dead.

Private A. Martin of Company A,
First regiment, Denver, was killed and
Private Louis Purcell of Company A,
Second regiment of Colorado
Spring, was shot through the breast
and will die. Another soldier was
shot through the shoulder.

All telephone wires are down and
telegraphic service is limited to one
railroad wire. A report from the
military camp at Ludlow says that 40
strikers are wounded.

At union headquarters it was de-
clared that no reports of casualties
among the strikers had been received.
The military force totals about one
hundred and fully four hundred armed
strikers are in the hills. An ef-
fort to send recruits from Trinidad
was delayed by the refusal of the
train crew to take out the train.
Master Mechanic Roach and Dis-
patcher Willis finally manned the en-
gine and Superintendent Abrams
took charge of the train.

Strikers in the hills above Cedar
Hill also are said to be exchanging
shots with a small detachment of
troops under Lieutenant Lawrence,
in trenches farther up the canyon.
The town in which the fighting
apparatus and where the volunteer
brigade appeared on the scene the
building was a mass of flames.

PEORIA HAS \$400,000 FIRE

Flames Destroy Three Blocks of Build-
ings Owned by Nelson Morris &
Co.—3,000 Cattle Die.

Peoria, Ill., April 22.—Fire swept
over three blocks destroying the cat-
tle feeding barns and a block of build-
ings belonging to the Nelson Morris
company on Monday. Six thousand
cattle were housed in the sheds and
it is estimated that 3,000 of them
burned. The others were turned loose
and many with hides scorched raced
through the streets in the stock yards
district. One bunch of 50 plunged into
the Illinois river and swam to the op-
posite shore. The fire burned for
nearly three hours and nearly every
fire fighting piece of apparatus in the
city was sent to the scene. The loss
is estimated at \$400,000.

EIGHT DIE IN GAS EXPLOSION

Acetylene Plant of the Macoun Hotel
In Canada Blows Up and Sets
Fire to Hostelry.

Macoun, Sask., April 22.—A fright-
ful explosion of an acetylene gas
plant in the cellar of the Macoun
hotel on Monday resulted in the loss
of eight lives. Ten persons were in-
jured.

On the instant the explosion oc-
curred like a balloon and settled down
in a confused mass. Within twenty
minutes a second explosion occurred
and the mass of wreckage was in
flames, preventing further rescue
work and as far as known two women
and six men were burned alive.

The dead are: Mrs. C. Hochhaus and
daughter, Emma; James Burger,
gambler; Cliff Vander, carpenter;
F. Schmidt, bartender; Walter Clark,
telephone, innkeeper; from Estevan
Thomas Drake of Moose Jaw. Dan-
gerously injured: Stella Peterson,
cook, probably fatally burned, Winni-
peg.

Arrest Dead Senator's Son.

New York, April 21.—Harry J. Wil-
bert, twenty-four years old, who said
he was the son of a deceased Pennsyl-
vania senator, was arrested on a
charge of burglary for extradition to
Pittsburgh.

Bowers-Taft Family Union.

Washington, April 21.—Announce-
ment of the engagement of Miss Mar-
tha Bowers, daughter of the late Lloyd
B. Bowers, to Robert Taft, the eldest
son of former President Taft, was
made here.

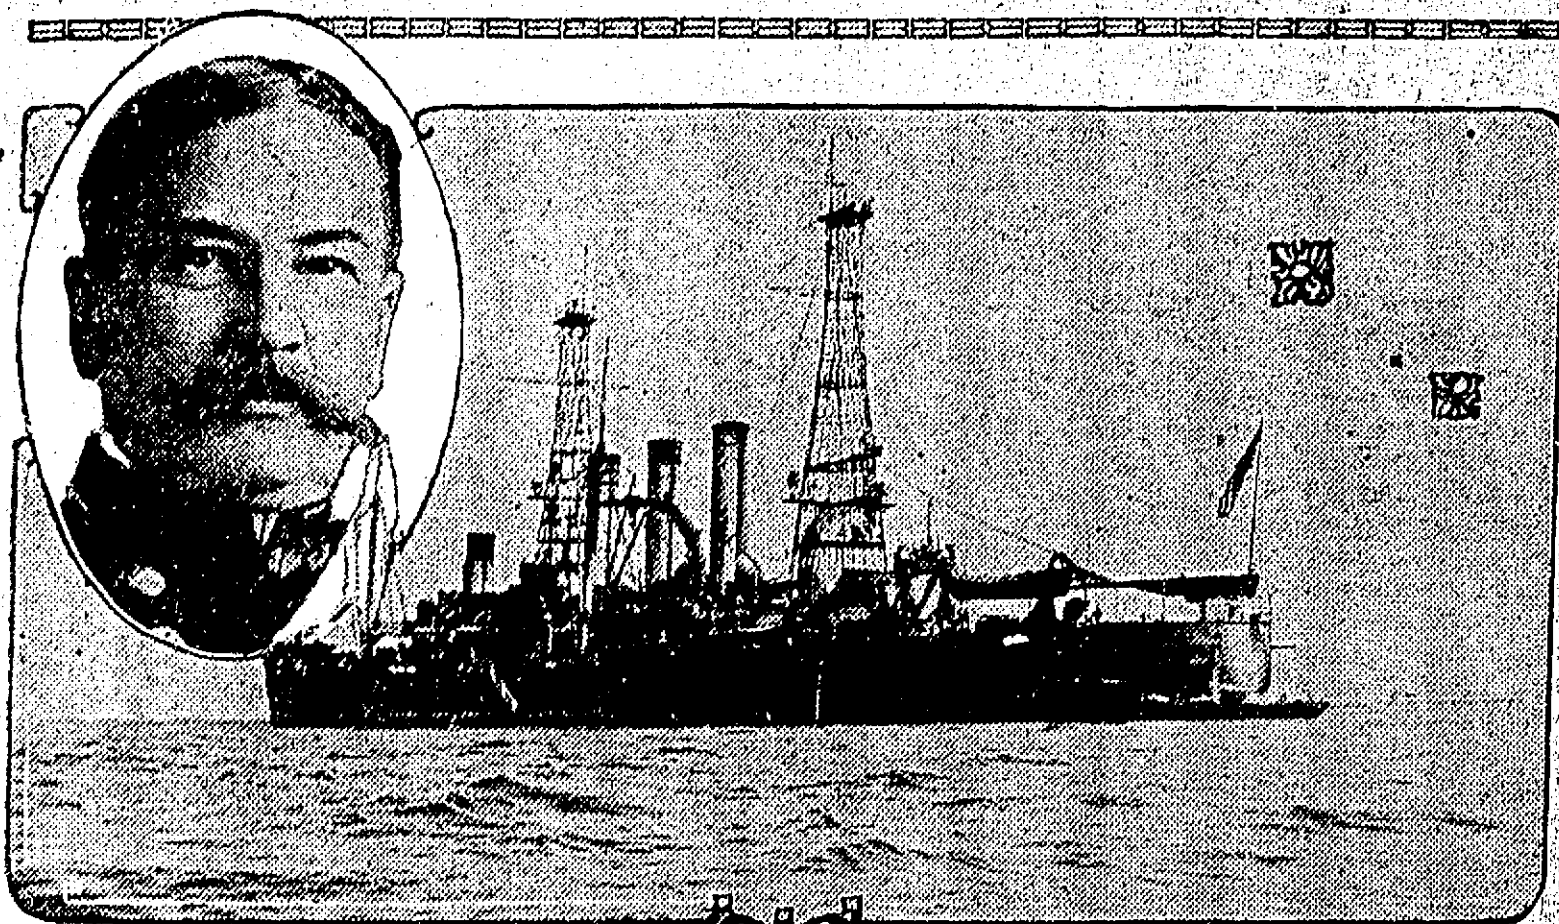

Ex-Vice-President Is Hurt.

Frankfort, Ind., April 20.—Former
Vice-President Charles W. Fairbanks
was slightly injured on Friday after-
noon when the speakers' platform col-
lapsed at the Arbor day celebration
here.

Ex-Congressman Dead.

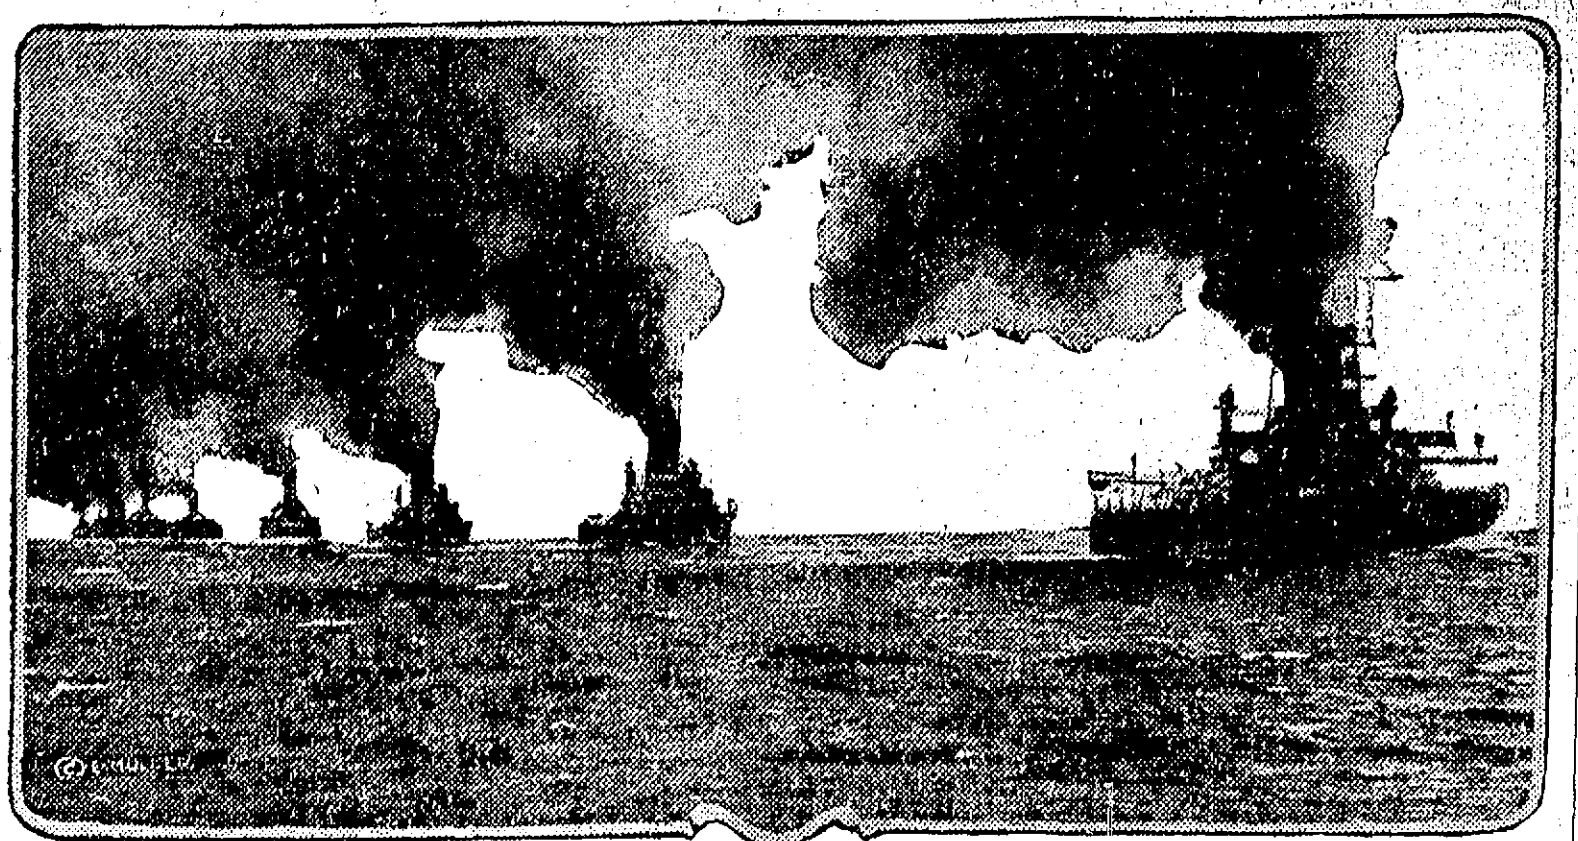

Terre Haute, Ind., April 20.—George
W. Paris, who represented the Fifth
district in congress for the three-term
in the nineties, died in Washing-
ton, D. C. He was sixty years of

ADMIRAL BADGER AND HIS FLAGSHIP

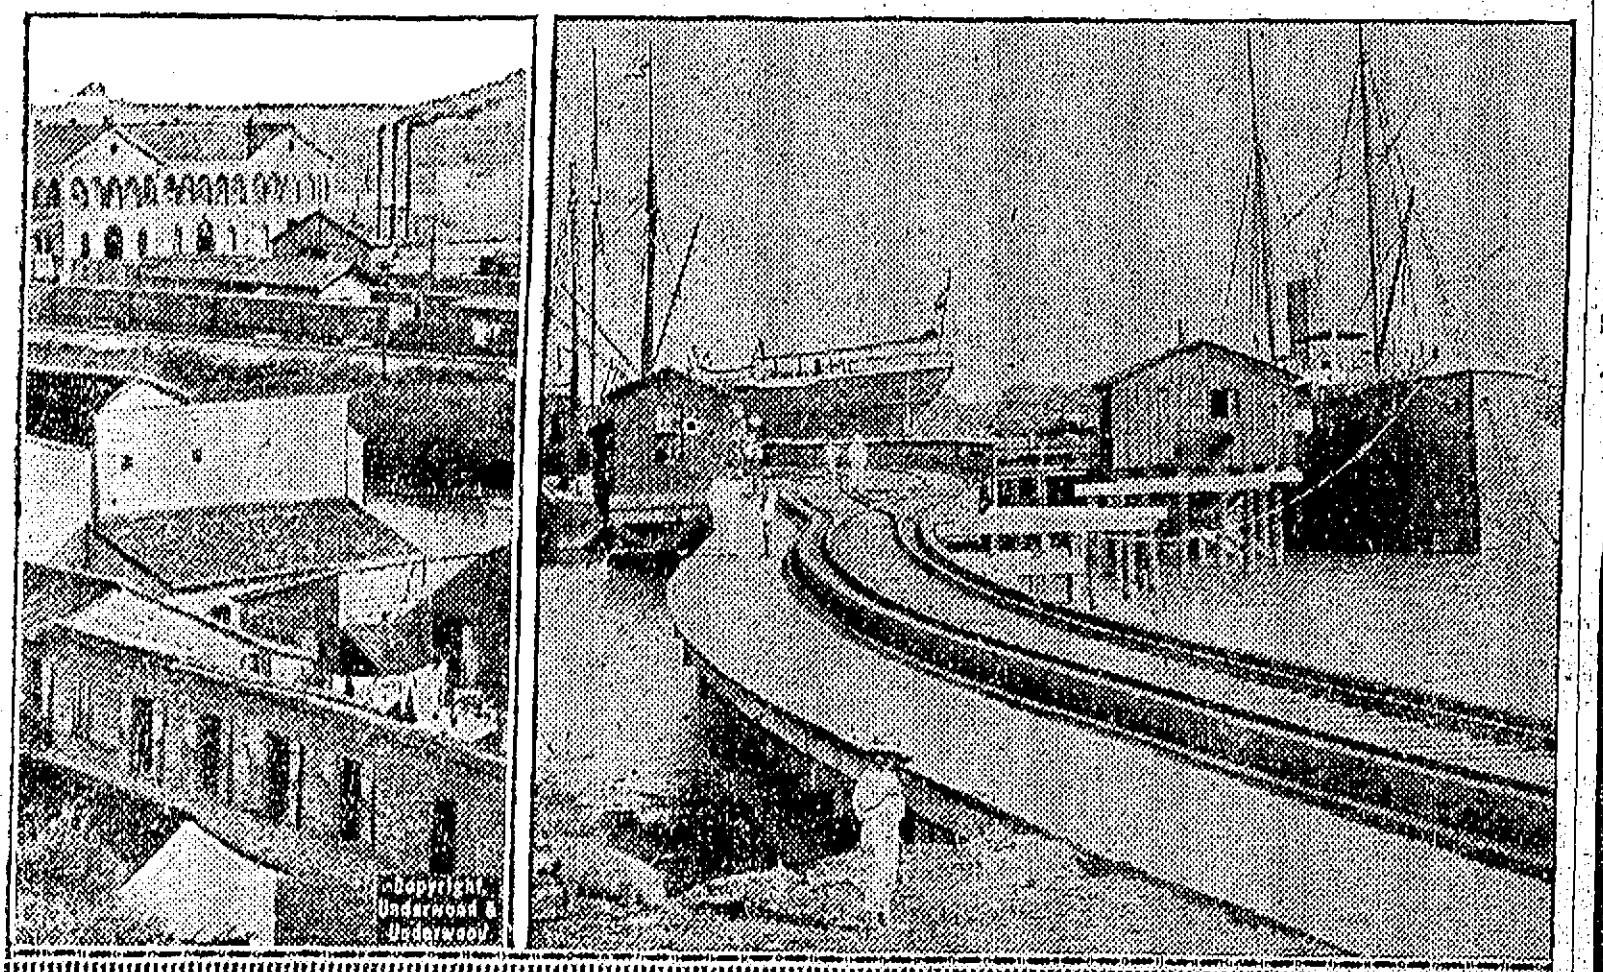

Rear Admiral Charles J. Badger, in command of the Atlantic fleet, ordered to Tampico to enforce the president's demand of a salute to the flag by Huerta forces there. The battleship Arkansas is the admiral's flagship.

ATLANTIC FLEET ON THE WAY TO TAMPICO

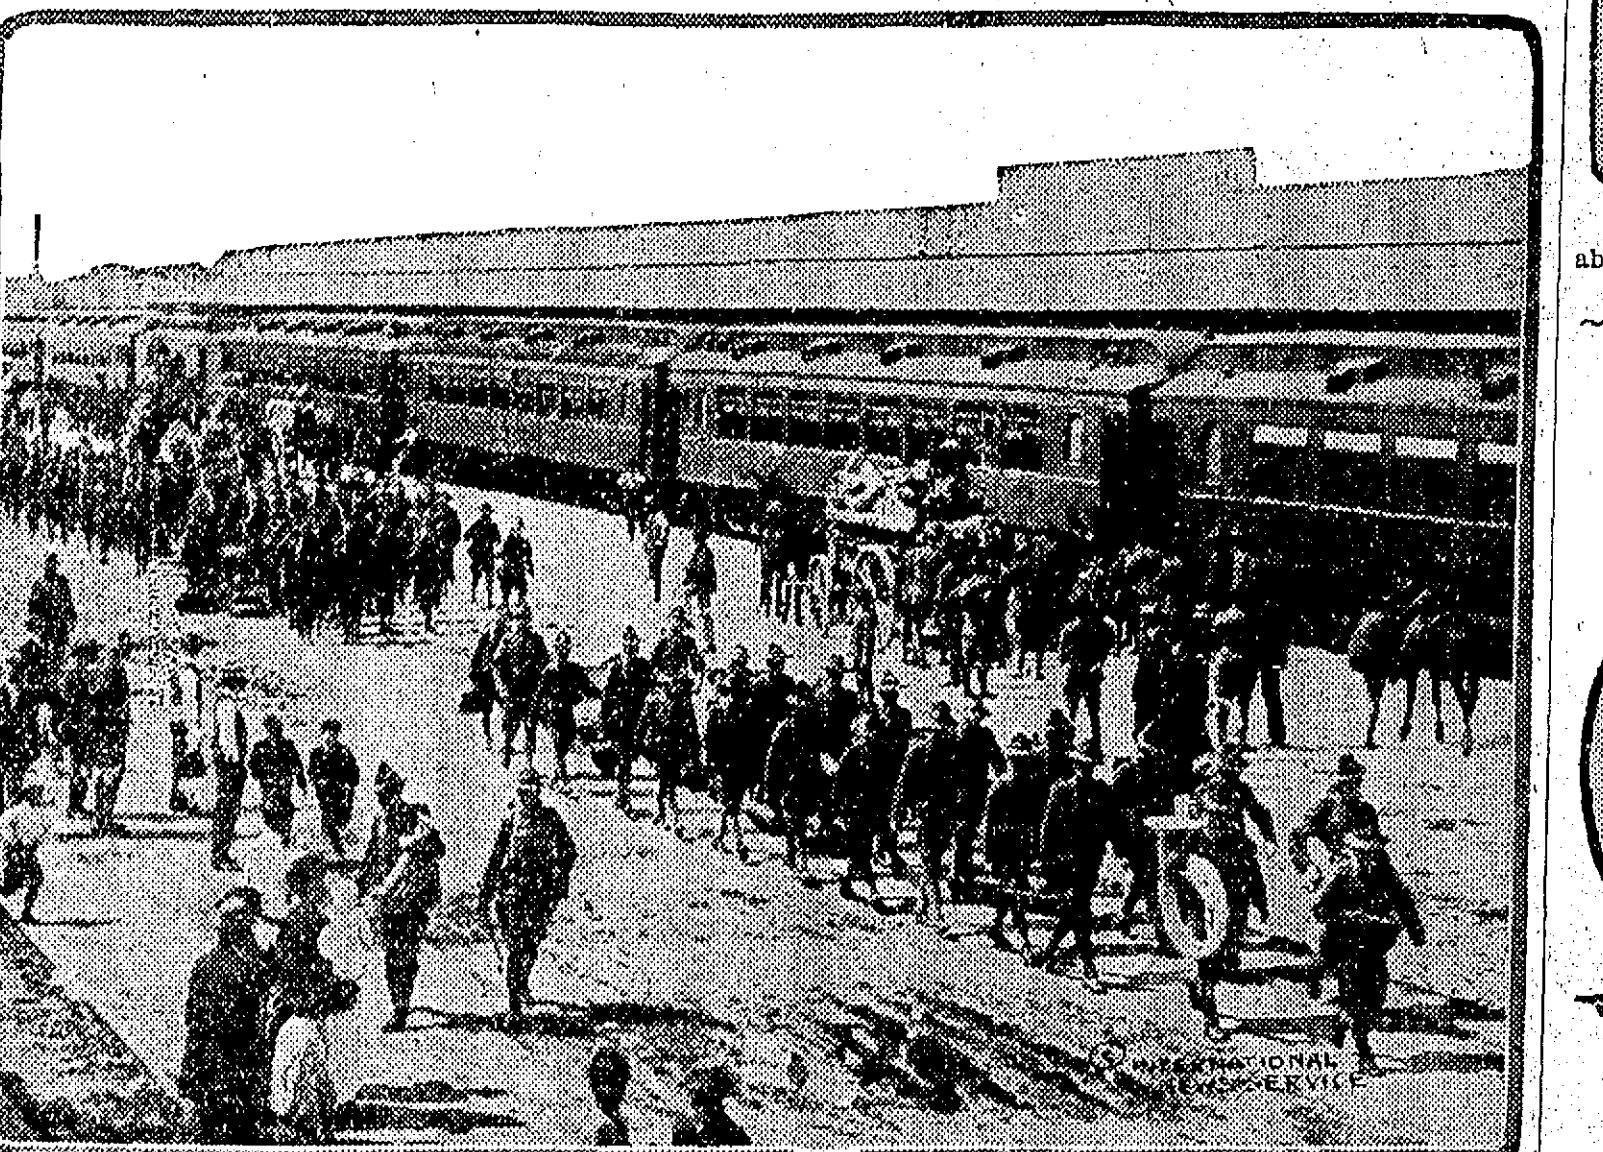

Here are some of the mighty battleships of the Atlantic fleet steaming at full speed for Tampico. Rear Admiral Badger, the commander, has orders to bombard that port, seize it or take any other measures which he may deem necessary.

TAMPICO CUSTOM HOUSE AND DOCKS

View of the custom house at Tampico, and of the docks. Rear Admiral Badger was given orders to seize this custom house if he thought it advisable. It is the shipping point for most of the Mexican oil.

AMERICAN TROOPS ARRIVE AT THE BORDER

In case it should be necessary to establish a blockade along the Mexican border, the troops in that part of the country were hurried to the line. A regiment is here seen detaining near Laredo, Tex.

STIRRING SCENES AT NAVY DEPARTMENT

Washington, D. C.—Officers attached to the navy department are pluming themselves on the remarkable promptness with which each turn of the events of the busiest day in 15 years were met.

In the offices of the aides for personnel, for operations, and for material under officers toiled over the few loose ends of business but the great work of the first day—the issuance of orders for the dispatch of the great fleet of American war vessels ever sent upon a "business" errand had been promulgated, signed, and were out of the office within six minutes from the time Secretary Daniels gave the first word.

Not since the days of 1898 has the navy department presented the scenes of activity that it did at this time. When, early in 1912 it became apparent to President Taft that an army of potential occupation must be sent to the borders of the Rio Grande, the war department, which occupies the westerly side of the same building, enjoyed all the activity and all the attention that is now showered upon the navy.

When at 6:45 Tuesday night the Norfolk steamer pulled away from its dock, bound for Old Point Comfort and Hampton roads, where the bulk of the fleet lay at anchor, there were genuine wartime scenes. The big

muton outlet, I cannot tell exactly what first aroused my suspicions, but suddenly approaching the outlet behind I tore off its false grill and discovered it to be some nuts and potatoes in disguise. Then I saw through the whole game at once. Some desperate band of vegetarians are sitting up at night training bananas to look like pork sausages, and teaching innuendo little waifs to go about masquerading as devilish kidneys. If I had eaten that muton outlet, as they called it, they would have lured me on

with celery steak and things until at last I should have been so firmly in their grip that they could boldly have thrown off their disguises. In a year or so I should have been tame enough to eat potato peelings from the hand. Meat-eaters all, we must band ourselves together against the vegetarians, and fight them with their own weapons. As soon as I can find a chef who can make a muton chop-look like a boiled carrot I shall open an imitation vegetarian restaurant and send out men disguised in sandals and

health-fiber suits to waylay and bring in muton-eaters. Then we will give them, as a bribe, a muton sausage, as bananas, mixed grills masquerading as fruit, salads, and chickens which the vegetarians will think are cabbages, until they get the bones in their throats—Lyman Heald, in the London Daily Express.

It might be that there was a looming of war clouds on the southwestern horizon, but the spirit of worry was conspicuously absent. The general impression seemed to prevail among the officers and civilian of the Washington barracks has been, though, war, perhaps, lurks in the distance, was about to prove a glorious junket.

"Meet you in Mexico City," was the jocular expression of many a youngster bound south on his first chance at seeing active service.

MEAT EATER SEEMS PEEVED

London Writer in Revolt Against Alleged Wiles of the Vegetarians.

I want to warn meat-eaters against a cunning conspiracy to convert them to vegetarians. A man (whom I have since discovered to be a notorious nut-eater) lured me into a strange restaurant yesterday morning and set before me something that looked like

a muton outlet. I cannot tell exactly what first aroused my suspicions, but suddenly approaching the outlet behind I tore off its false grill and discovered it to be some nuts and potatoes in disguise. Then I saw through the whole game at once. Some desperate band of vegetarians are sitting up at night training bananas to look like pork sausages, and teaching innuendo little waifs to go about masquerading as devilish kidneys. If I had eaten that muton outlet, as they called it, they would have lured me on

with celery steak and things until at last I should have been so firmly in their grip that they could boldly have thrown off their disguises. In a year or so I should have been tame enough to eat potato peelings from the hand. Meat-eaters all, we must band ourselves together against the vegetarians, and fight them with their own weapons. As soon as I can find a chef who can make a muton chop-look like a boiled carrot I shall open an imitation vegetarian restaurant and send out men disguised in sandals and

health-fiber suits to waylay and bring in muton-eaters. Then we will give them, as a bribe, a muton sausage, as bananas, mixed grills masquerading as fruit, salads, and chickens which the vegetarians will think are cabbages, until they get the bones in their throats—Lyman Heald, in the London Daily Express.

It might be that there was a looming of war clouds on the southwestern horizon, but the spirit of worry was conspicuously absent. The general impression seemed to prevail among the officers and civilian of the Washington barracks has been, though, war, perhaps, lurks in the distance, was about to prove a glorious junket.

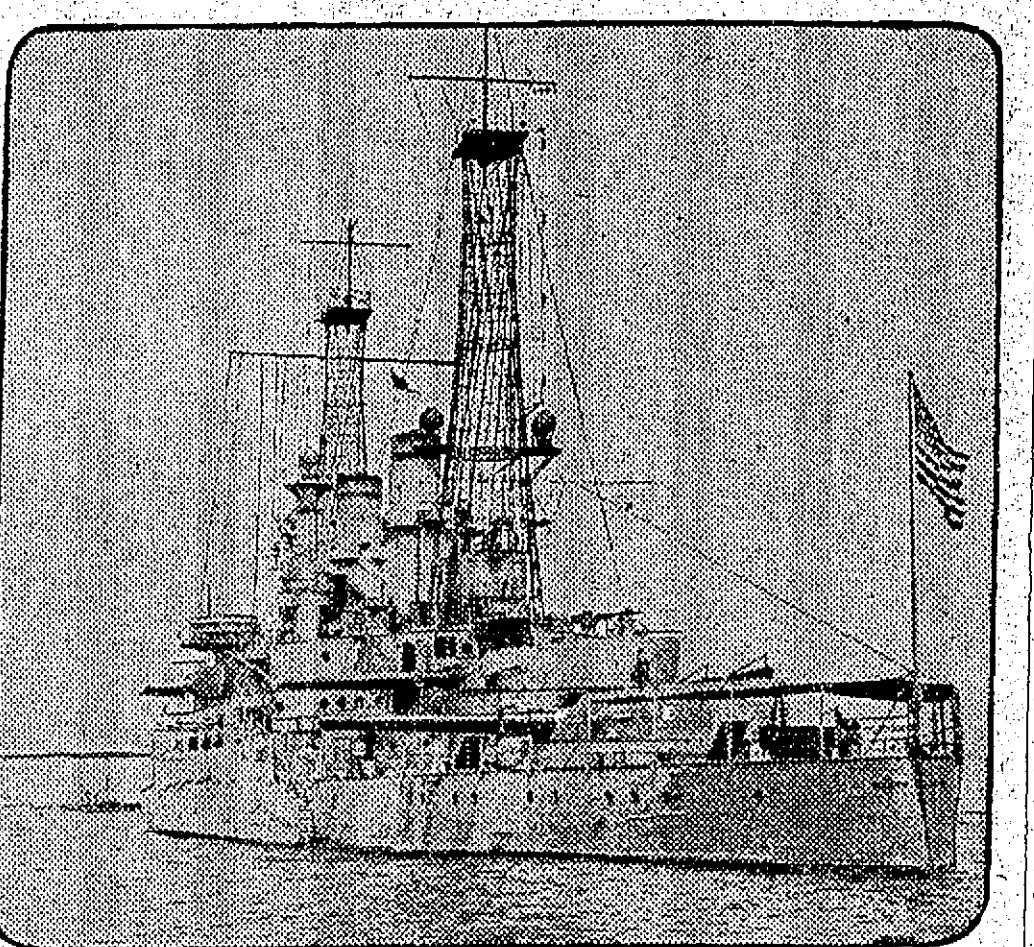

"Meet you in Mexico City," was the jocular expression of many a youngster bound south on his first chance at seeing active service.

COMMANDERS IN MEXICAN WATERS

1. Rear Admiral Charles J. Badger, commanding the Atlantic fleet; 2. Rear Admiral T. B. Howard, commanding the Pacific fleet; 3. Rear Admiral Henry T. Mayo, commanding the fourth division, at Tampico; 4. Rear Admiral Frank T. Fletcher, commanding the first division, at Vera Cruz.

UNITED STATES BATTLESHIP SOUTH CAROLINA

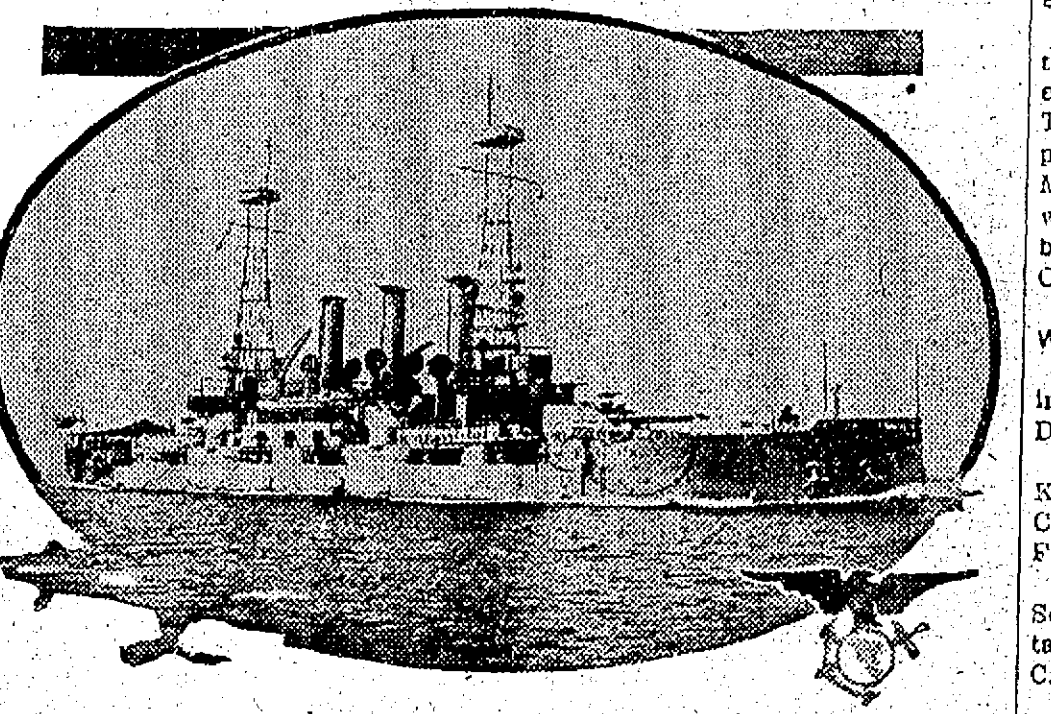

Among the 16,000-ton battleships in Admiral Badger's Atlantic fleet is the South Carolina. Her armament comprises 34 guns.

MARINES START FOR THE FRONT

United States marines starting from the Portsmouth navy yard to go aboard the vessels of the Atlantic fleet and hurry to Mexican ports.

ONE OF OUR BATTLESHIPS AT TAMPICO

The United States battleship Connecticut, one of the fighting vessels now at Tampico, is of 16,000 tons displacement and carries 46 guns in her various batteries.

GOVERNORS PLAN ANNUAL SESSION

Seventh Conference Will Be Held in City of Madison.

TO DISCUSS MANY SUBJECTS

Meeting Will Open in the Capital City June 9 and Continue Four Days—One Session for City of Milwaukee.

Madison.—The seventh annual conference of the governors of the United States will be held in Madison June 9, 10, 11 and 12. On June 13 a session will be held in Milwaukee. Subjects of great importance to the country will be discussed.

On the opening day, Gov. Francis E. McGovern of Wisconsin, President Van Hise of the state university and President Carl Johnson of the Madison board of commerce will welcome the visiting executives. That day there will be read the report of the committee on co-operation, of which Gov. Emmet O'Neal of Alabama is chairman. At night there will be a reception by the governor in the capitol and dancing in the assembly chamber.

On Wednesday, the second day, there will be an address by Gov. William Spry of Utah, followed by a general discussion. Following a luncheon by the university, the discussion will be continued. That evening there will be an executive session.

Thursday there will be discussions of "Uniformity of Laws Fixing the Conditions to Be Met by Foreign Corporations Before Doing Business in a State," "Tradition" and "Submission of the Governor's Recommendations in Bill Form."

Friday will be occupied with the problem of "Uniformity of Safety and Sanitation Laws for Places of Employment, Including Administrative Machinery." On Saturday the guests will go to Milwaukee.

The governors who have already sent their acceptances to Secretary Miles Riley are: Emmet O'Neal, Alabama; G. W. P. Hunt, Arizona; Elias M. Ammons, Colorado; Simeon E. Baldwin, Connecticut; C. R. Miller, Delaware; Park Trammell, Florida; John M. Slaton, Georgia; John M. Haines, Idaho; Edward P. Dunne, Illinois; George W. Clarke, Iowa; W. N. Ferris, Michigan; S. V. Stewart, Montana; T. L. Oddie, Nevada; Samuel D. Felker, New Hampshire; William C. McDonald, New Mexico; M. H. Glynn, New York; F. M. Byrne, South Dakota; O. B. Colquitt, Texas; William Spry, Utah; Ernest Lister, Washington; Harry D. Hatfield, West Virginia; Francis B. McGovern, Wisconsin; and Joseph M. Carey, Wyoming.

Among men of nation-wide note who are expected to come to the meeting are former governors William Hodges Mann, Virginia; John Franklin Fort, New Jersey; and Albert W. Gilchrist, Florida.

Meeting of Music Teachers.

More than 100 state music teachers attended the opening session of the Wisconsin Music Teachers' association in Gessu auditorium, Milwaukee.

Welcoming addresses were made by Mayor Badger and Prof. Liborius Semmann, dean of Marquette Conservatory of Music. The response was made by Arthur Lockie, Madison, association president.

The program consisted of a concert by Miss Rose Phillips, pianist, and Mrs. Edward La Budde, mezzo soprano. A reception then took place, followed by an automobile trip around the city.

The delegation attended in a body the concert in the Pabst theater by the Chicago Symphony orchestra and the Musical Society chorus.

"The Proper Relation of Musical and Technical Training" was discussed by Miss Adelajda T. Ricker. A concert was given by the following members of the faculty of the Wisconsin Conservatory of Music: Miss Katharine Clarke, contralto; Frederick Carberry, tenor; Frank O. Thompson, pianist, and the Dvorak trio, composed of Miss Pearl Brice, violin; Miss Grace Hill, cello, and Miss Winogene Hewitt, piano.

A paper was read on "Democracy and Music," by Prof. Peter W. Dykema, University of Wisconsin.

In the vocal section Bernard Bronson sang in English in singing. Miss Wilma Sorenhill, Janesville, talked on "The Relation Between Modern Compositions and the Violinist's Technique." Pupils selected from the public schools, under the direction of Miss Helen Poole, demonstrated the work accomplished followed by members of the faculty of the Wisconsin College of Music in a concert.

Wisconsin Incorporations. Articles of incorporation were filed in the office of Secretary of State Donald as follows:

Kenosha County Liberty League, Kenosha; no capital; incorporators, Charles Carstensen, A. G. Ritter, C. F. Stearns.

North Side Hospital and Training School for Nurses, Milwaukee; capital, \$7,500; incorporators, Hugh P. Morris, W. G. McSpadden, H. A. Porpent, C. A. Douglas.

The General Utility Power company, a South Dakota corporation with \$750,000 capital and \$25,000 interest in Wisconsin, filed a statement to do business in this state.

Kilbourn Catering company, Milwaukee; capital, \$5,000; incorporators, P. Kilbourn, R. J. Iverson, C. Frederick. Boulevard Realty company, Milwaukee; capital, \$30,000; incorporators, Henry Hunholtz, George Bauer, C. J. Rice.

T. M. Brewer Supply company, Milwaukee; capital, \$5,000; incorporators, T. M. Brewer, Alice Brewer, M. F. Robinson.

Berg & Jones Department Store company, Rockland; capital, \$20,000; incorporators, N. C. Berg, R. C. Jones, W. O. Jones, Thomas Davis, A. G. Ostino.

Pharmacy Applicants Examined.

The Wisconsin State Board of Pharmacy concluded the spring examinations of applicants for certificates, and sixty-one from over the state were passed upon out of ninety-two applicants.

Those who were granted registered pharmacist's certificates are:

Joseph B. A. Dorsynski, Herbert Villanor, Walter G. Fischer, W. F. Luebner, Martin G. Kopf, Oscar A. Reischel, Edmund H. Kochanski, Charles H. Karnatz, Frank R. Keating and Roy Garmonson, all of Milwaukee; Charles E. Stapleton, John L. O'Brien, Madison; George E. Elwers, Neenah; Reuben P. Plantico, Manitowish; Walter A. Hackbarth, Wausau; W. F. Ziegenhagen, Racine; Arthur J. Erickson, Kenosha; Frank L. Griffin, Owen; Horace L. Burnham, Richland Center; Le Roy G. Hoffman, Abtlo; Louis A. Desker, Watertown; Tony J. Muehlbauer, Arthur J. Brehm, Robert H. Leonard, Robert R. Otten, Sheboygan; Louis E. Self, Nelleville; Roy A. Fortum, Paul A. Dahl, Viroqua; Albert F. Netzel, Cranston.

Assistant pharmacist certificates were granted to the following:

Harold W. Hansen, Lake Mills; Charles S. Hocking, Waupaca; A. W. Streicher, E. V. Rudolph, La Crosse; Palmer E. Nelson, Cashton; Walter H. Meider, Waukesha; Frank H. Lightner, Randolph; T. H. Brock, W. C. Meyer, W. H. Kropp, Clarence Andrae, William E. McFarland, I. W. Fairfield, Otto Baarh, Louis H. Kreuser, Mary E. Machowick, Edwin H. Corn, Raymond A. Miles, C. J. Blanchard, Jerome M. Peters, A. Stylnko, W. J. Quinlan, Milwaukee; B. A. Babcock, Madison; Paul Lyon, Rice Lake; Robert J. Quinn, Leyland B. Smith, Bangor; Charles M. Poots, Westfield; A. J. Kolpin, Kenosha; James P. Hagen, Westby; H. F. L. Meter, West Allis; Holger Rasmussen, Whitewater; Charles G. Fabie, Oshkosh.

Scottish Rite Masons Meet.

The fifty-first semi-annual reunion of Wisconsin consistory, Ancient Accepted Scottish Rite of Freemasonry northern Wisconsin jurisdiction, opened at the Scottish Rite cathedral, Milwaukee. The reunion will continue four days.

The Wisconsin Perfection lodge presided at the opening session. Presiding at the various degrees were: Fourth degree, secret master, Robert T. Hazelwood; fifth degree, perfect master, James Perona, sixth degree, intimate secretary, Edwin H. Hewitt; ninth degree, master elect of nine, Richard Jefferson; fourteenth degree, grand elect-mason, Murray M. Hunter.

Music by the consistory choir, under the direction of William H. Williamson, was given.

Commission Asks Test of Risk Law.

A ruling on the term "safe place of employment" is laid down in a decision of the state industrial commission, and it is possible the courts will be asked to pass upon it.

The case involved is that of Charles F. Ottman vs. the John Schroeder Lumber company. Ottman was holding a pile with a rope while it was being driven in the rebound from one of the hammer's blows, Ottman's arm was caught and cut off.

Under the law he was entitled to 200 weeks' compensation at 65 per cent of his weekly wage, or \$1,612, which the commission granted him. His attorneys, however, declare that he is entitled to an extra 10 per cent, because his employer failed to provide a safe place of employment.

The commission says: "We think the provision of the compensation act intended to apply only to those statutes and orders of the industrial commission which enjoined a specific duty in regard to safety. We would be glad to have the question at law determined by the court."

The application of Joseph Kolp, "king of Jones Island," for compensation from the Milwaukee-Western Fuel company, was denied by the commission. Kolp was a foreman in the company yard. He cut off the ends of two fingers in a boiling block. He secured eight weeks' disability and then went back to work. After working three months he left and applied for permanent disability.

Name Superintendents of Institutes.

Prof. C. F. Norgood was named superintendent of farmers' institutes to succeed George McKerron, Pewaukee, and George W. Ehler was reappointed head of the department of physical education at the annual meeting of the board of university regents. Professor Norgood is a graduate of the University of Wisconsin, College of agriculture. He has been an educator, an expert in charge of field work for the United States department of agriculture, head of the agronomy department of the Arkansas College of Agriculture, professor in the department of agronomy at the University of Wisconsin and superintendent of Hill farms. He is a practical farmer, owning a 140-acre farm in Vernon county.

Indian Mounds Replaced.

New bronze tablets, six by eighteen inches, are soon to replace the old wooden tablets which were placed on the Indian effigy mounds near the agricultural buildings of the University of Wisconsin in 1909. These mounds, one of which represents a bird with outstretched wings and the other a turtle, belong to the group of about thirty mounds found near Lake Mendota. The mounds were built in prehistoric times by the ancestors of the Winnebago Indians, and are clan mounds.

Wisconsin Patents.

Patents—Louis E. Bogen, Milwaukee, assignor, by mesne assignments, to Alice-Chalmers Manufacturing company, motor control system; Isaac Deatherage, Duluth, assignor of fifty-five one hundredths to J. P. Simon, F. W. Koehler and J. F. Glynn, Superior, paper cutting attachment for tables; William S. Harley, Milwaukee, three-wheel truck; James M. Johnson, Rice Lake, bath cabinet; Anton T. Lueckenbach, Neenah, washtub supporting leg; Harrison J. Mitchell, assignor to the Berlin Machine works, Beloit.

College Men Plan Meeting.

The first annual Wisconsin intercollegiate prohibition contest will be held at Carroll college on May 15.

Three schools will be represented in the contest. The slogan of the organization is: "From the College Men of Today Will Come the Promoters of Temperance Tomorrow."

The officers are: President, S. D. Stephens, Rockland; vice-president, Paul Lewis, Lawrenceville; Appleton; secretary and treasurer, D. Davis, Carroll college, Wausau.

WISCONSIN NEWS TERSELY TOLD

La Crosse.—For having 16 pickers

in his possession, Henry Stelnke, Jr., was arrested and fined \$50 and costs. Racine.—The henhouses of three farmers near Racine were raided in one night and 200 valuable fowls carried away.

Racine.—The Racine Young Men's Christian association will on June 10 start a week's campaign for a \$250,000 new building fund.

La Crosse.—Mr. and Mrs. A. H. Arnold of Waukon celebrated the fiftieth anniversary of their marriage. Seven children were among the guests present at the celebration.

Racine.—More than two hundred sheep have been killed in Racine county within the last month by dogs. Sheep raisers have organized to conduct a campaign of dog extermination.

Jefferson.—The Jefferson high school lost both sides of an inter-scholastic debate upon the question of the minimum wage. Waterloo defeated Jefferson at Waterloo and Fort Atkinson won from Jefferson here.

Green Bay.—Too drowsy to continue to his home in Oneida, Wisconsin Skeneado, an Indian, made himself as comfortable as possible between the railroad tracks. A train struck him. He may lose a leg and an arm.

Ashland.—Fifteen-year-old Rodney Osborn, son of Mail Carrier J. M. Osborn, was bitten by a mad horse. The animal was shot and the boy was sent to the Pasture Institute in Madison. All dogs in the city will be muzzled or shot.

Antigo.—The jury in the case of Charles H. Turner, plaintiff, vs. William Lehman, defendant, brought in a verdict for \$2,500 in favor of the plaintiff. Turner was suing Lehman for \$5,000 for alienating his wife's affections.

Manawa.—Struck by lightning during a severe thunder storm, Leo Zentel, a farmer living near here, was instantly killed as he was returning from work in a field. Two horses which he was driving were knocked down and one of them was killed outright.

North Hudson.—Charles Smith, seven years old, made a desperate attempt on his own life at the home of his parents, Mr. and Mrs. Thomas Smith, who moved here from Spooner a year ago. The young man shot his hand and the bullet from a revolver, evidently aimed at his heart, just missed that organ, but passed through a lung, resulting in serious hemorrhages. He will probably die.

Madison.—The United States attorney for the western district of Wisconsin, John A. Aylward, who debated state taxation problems before the Saturday Lunch club, Madison, with Tax Commissioner Adams and with Gov. F. E. McGovern before the City club, Milwaukee, has published his address on this subject in pamphlet form for distribution to voters.

Madison.—The dome of the state capitol here is now covered with stone work, with the exception of the pinnacles at the top. This marks the end of three years' work on the structure. The interior is being rushed and will be ready next winter. The partitions which separated the interior from the wings have been taken down and the immensity of the structure, which is the second highest in the world, is becoming evident.

Racine.—Royal Thompson, aged twenty-seven years, an automobile agent of Kenosha, committed suicide at the Hotel Belvidere, using a revolver. Thompson came to Racine to negotiate a trade on automobiles and because of his failure to make sales he became despondent. He engaged a room at the Hotel Belvidere and on entering his room called for ice water. Just as it was about to be delivered to him he shot himself in the right temple.

Monroe.—Lillian Schemind, aged ten, confessed to Deputy Sheriff to Fire Marshal J. F. Baker to setting fire to four farm buildings of her stepfather, Arnold Acherman, in the last 12 days. She burned the barn April 2, then the shed and 16 cattle last Saturday, and another shed and two horses and hogs Monday. Then she fired the corn crib. Just after Deputy Decker had returned to town for dinner, she confessed after matches were found in her possession.

Madison.—William L. Essmann, former state superintendent of public property, pleaded guilty to embezzlement and was sentenced to 15 months at Waupun. His attorney, Lester C. Manson, made a plea for leniency before the pronouncement of sentence. The specific charge on which he was sentenced was the embezzlement of \$478 in the form of two checks paid him by Shaliko Bros. of Madison for waste paper sold them by the state while he was superintendent.

Ashland.—Circuit Judge Riejsford sentenced R. Wilson to sixty days in the county jail. Mr. Wilson was found guilty by a jury of obtaining money under false pretenses. Wilson has been in the county jail since last September and for that reason the jury recommended mercy.

Racine.—Five-year-old Marie Falbo submitted to an operation for adenoids in the office of a local physician after an anaesthetic had been administered, and died from heart disease soon after. The case is in the hands of the coroner and the district attorney.

Superior.—The corpse of a man about forty years old was found floating frozen in a cake of ice in Lake Superior here. It was in an advanced stage of decomposition and had probably been in the water all winter. There was nothing to establish the man's identity.

Racine.—Racine will establish an open air school for tubercular pupils and debilitated children. The school will open next month, under the direction of Miss Marie Salisbury of the Wisconsin Anti-tubercular association.

Superior.—Death came to Erick Erickson, a farmer, while working at the bottom of a 100-foot well on his farm. Fearful because of failure to secure responses to their calls, employees rewrapped the rope upon which he had gone down and were horrified to find Erickson's lifeless body hanging from the rope.

Madison.—A settlement issued by the Wisconsin Supreme court during the nine months since July 1, 1913, to April 1, 1914, there were 2,949 cases, with total damages of \$8,819,341. For the same period of last year the losses were \$2,810,915 in 1,766 cases.
